LIBOR Rate

The LIBOR Rate is "the average of the bond equivalent rates of the quotes of the 1-month London InterBank Offered Rate (LIBOR) in effect for each of the days in such quarter as compiled and released by the British Bankers Association" in place of the Commercial Paper Rate. The Treasury Bill Rate is "the average of the bond equivalent rates of the 13-week Treasury bills as published by the Department of the Treasury." For the quarter ending June 30, 2020, the average of the rates is **0.15 percent**.
