Grant Reports

Grant Reports Options

Grant Reports now include information for Pell, ACG and National SMART Grants. Grant Reports are available to schools via the school's SAIG mailbox, via the school's Newsbox on the COD Reporting web site, or via data requests.

Business Rules:

1. Grant Reports for 2007-2008 are generated as fixed-length, flat files and not as XML documents.
2. Grant Reports for 2007-2008 are viewable on the COD Reporting web site in the following format:
 - a. Comma-Delimited (CSV)
3. Grant Reports are sent to schools SAIG mailbox in the following format options. Format options vary by report. Not all reports are offered in all formats:
 - a. Preformatted Text file
 - i. Portrait
 - ii. Courier 10
 - iii. 78 characters per line
 - iv. 59 lines per page

Edit Codes

Introduction

This section provides a table to help you interpret the various edit codes that are used and their related comments. The information is grouped according to the following column headings:

- **Edit Code** – the number that is assigned if the edit condition(s) is met. This column also lists one of the three edit types. They are:

W Warning and/or Corrected

E Rejected

D Duplicate

- **Message** – the explanation that displays for the prescribed edit condition.
- **Condition and Action** – a description of the situation that caused the edit and the action taken either to resolve it and/or to notify the school of the potential error.
- **What It Means** – further explanation of the message in an effort to make the cause of the edit clearer.
- **How to Fix It** – what the user must do to resolve the mistaken condition.
- **COD Website Edit Code** – the edit code that the user will see on the COD Website; Website edit codes are translated to the Pell Phase-In edit code on the SAIG Acknowledgment files.

The following comparison operators are used in performing these edits:

Equals	=
Less than	<
Greater than	>
Less than or equal to	<=
Greater than or equal to	>=
Not equal to	<>
A parameter value that can be changed between cycles, this is the data that comes from the ALGORITHM and AWARD YEAR tables and can be made year-specific.	@

Multiple Reporting Record (MRR)

The Multiple Reporting Record (MRR) provides information to a school about a student's origination and disbursement status at other schools and the amount of the scheduled Pell Grant award disbursed. The MRR identifies two primary types of multiple reporting conditions: concurrent enrollment and potential overaward situations.

Business Rules:

1. An MRR can be COD system generated or may be requested by the school via batch data request, or COD web site.
2. The MRR is provided in fixed-length, flat file format.
3. The MRR is sent from the COD System using message class PGMR08OP.

Year-to-Date Record (YTD)

A Year-to-Date (YTD) Record can be requested for one given student or for all Pell Grant recipients at the school and contains detailed award and disbursement data at a transaction level. The YTD Record shows the number of recipients at the school; the number of award and disbursement records that were accepted, corrected, and rejected; and, for certain edit codes, the number of times a school received that specific edit code on a response document. The YTD Record can be used to replace a corrupt database or to reconcile records with accepted data on COD.

Business Rules:

1. The Year-To-Date Record may be requested by the school via batch data request, or the COD web site.
2. The Year-To-Date Record is provided in fixed-length, flat file format.

Electronic Statement of Account (ESOA)

The Electronic Statement of Account (ESOA) summarizes the status of a school's CFL versus the net drawdown for that award year. In addition, the ESOA provides the YTD Unduplicated Recipient Count, YTD Total Accepted and Posted Disbursements, YTD Total ACA paid to schools and net drawdown payments in GAPS.

NOTE: Please refer to Volume VI, Section 7 for the printing specifications for ESOA.

Business Rules:

1. An ESOA can be COD system generated or may be requested by the school via batch data request, or COD web site
 - a. The ESOA sent via data request is a retransmission of the most recent ESOA generated by COD.
2. The COD system generates an ESOA each time a school's CFL changes, regardless of funding method.
3. The ESOA is provided in the fixed-length, flat file format.
4. The ESOA is sent from the COD System with message class PGAS08OP.

Direct Loan Reports

Direct Loan Reports Options

Direct Loan Reports are available to schools in a variety of format options. Direct Loan reports are available via the school's SAIG mailbox or via the school's Newsbox on the COD web site.

Business Rules:

1. Direct Loan Reports for 2007-2008 are sent to schools as a flat file and not an XML document.
2. Direct Loan Reports for 2007-2008 and prior years are sent to school's SAIG mailbox in the following format options. Not all reports are offered in all formats:
 - a. Comma-Delimited (CSV)
 - b. Pipe-Delimited
 - c. Preformatted Text file
 - i. Portrait
 - ii. Courier 10
 - iii. 78 characters per line
 - iv. 59 lines per page
 - d. Fixed-length File
 - e. Do Not Distribute - This is only available for specific reports (see the individual report Business Rules for more information). If this option is chosen, the report will not be generated and sent to a school's SAIG mailbox, although it will still be available for viewing on the COD website. Schools can select the Do Not Distribute option from the COD Website Report Selection screen at any time. Keep in mind that, if a school chooses not to receive a report, COD will not be able to send any missed reports via SAIG at a later time. If a school updates its options to begin

receiving a report, the school will only receive reports generated from that point forward.

3. Many Direct Loan Reports for 2007-2008 and prior years are viewable on the COD web site in the following format options:
 - a. PDF (These files are downloadable into Adobe)
 - b. Comma-Delimited (CSV)
4. Some report options are tailored to a specific report. These specific options are discussed under the appropriate report section.

Below is a summary of all Direct Loan Reports and available formats generated by the COD System.

School Account Statement (SAS)

The School Account Statement (SAS) is a monthly statement, similar to a bank statement, which summarizes the school's processing activity for each month. The SAS is the school's primary tool used in reconciliation and program year closeout, and should be compared to both financial aid and business office records. This report provides the Department's official ending cash balance as of the end date of the report, based on data submitted by the school. As such, all schools are required to receive the SAS on a monthly basis until they have officially closed out a program year.

Sections of the SAS:

- **Cash Summary** - This section of the SAS provides the Department's official Ending Cash Balance for the school for the reported period. The Cash Summary contains both a monthly and a year-to-date summary of cash and loan data processed at COD for that program year. This section can be compared to summary information on the school's internal systems. The comparison may then identify areas where further research is needed. For example, if the school determines their internal systems match the SAS Cash Summary information for Net Drawdowns/Payments but not for Total Net Booked or Total Net Unbooked, the school can target further research to loan detail only.
- **Disbursement Summary by Loan Type** - This section of the SAS provides monthly and year-to-date summary information by loan type for the reported period. It can be used to monitor loan volumes at the summary level (both booked and unbooked) for all loan types processed at COD.
- **Cash Detail** - This section of the SAS provides detail on cash transactions processed at COD during the reported period. This includes drawdowns, drawdown adjustments, pushed funds, or refunds of cash. If the monthly option is chosen, this section will only include cash transactions processed at COD during that month. This section will not include any cash transactions requested or sent during the month, but not processed on COD until after the last day of that month. If the Year-to-date option is chosen, the section will include cash transactions processed at COD from the start of the program year through the end date of the report.
- **Loan Detail, Loan Level** - This section of the SAS provides loan-level detail for disbursement transactions processed on COD through the end date of the report. Each transaction lists the total amount disbursed on that loan as of the end date of the report. This information can be used to perform an award-level comparison to your internal systems. This section is only available as year-to-date.
- **Loan Detail, Disbursement Activity Level** - This section of the SAS provides transaction-level detail for all disbursement and adjustment transactions processed on COD during the reported period. This section may have multiple transactions per award id (as applicable). This section is available as monthly, year-to-date, or both. The monthly version will only

show disbursements booked on COD during the reported month, but will include all unbooked disbursements (unbooked transactions are always year-to-date). The year-to-date version of the report will show all disbursements, booked and unbooked, on COD as of the end date of the report. This information can be used to do a transaction-level comparison to the school's internal records, for either that month, or year-to-date.

Business Rules:

1. The COD System generates the School Account Statement (SAS) on a monthly basis and automatically sends it to the school's SAIG mailbox.
2. Once a school has officially completed the closeout process for a specific program year, a school will no longer receive a SAS for that year.
3. The SAS is generated on the first full weekend of the month and includes all data through the last day of the previous month. If the first day of the month falls on a Sunday, the SAS will run the following weekend. For example, the October SAS report, containing all data through October 31, will be run the first weekend of November.
4. Schools have the option to customize the SAS in a number of ways on the COD web site.
 - a. The following options can be set for the SAS on the SAS Options page on the COD web site (Note: Each option is described in detail below):
 - i. Report Format
 - ii. Include Names of Borrowers
 - iii. Report Activity Type
 - iv. Sections of SAS to Receive
 - b. Schools may set or change their options at any time. Changes to SAS options will be applied to the next scheduled run of the report.
 - c. Schools new to the Direct Loan program or schools that have not changed their options on the COD web site are set to the default values. Note: Default values are noted in parentheses below.
 - d. These options are year-specific, so schools must update their options separately for each year to change the defaults. Schools should ensure that they are in the correct program year in the SAS Report Options screen before updating their options.
 - e. Schools may receive more than one report for an award year depending on which options are selected.
5. The **Report Format** option allows the school to select the format of the SAS Report that is delivered to its SAIG mailbox.
 - a. The choices for the Report Format option are:

- i. Fixed-length flat file (**Default**) (message class DSDF08OP – Disbursement level and DSLF08OP – Loan level)

 - 1. Schools have the option of receiving the SAS in Comma-Delimited format with or without headings
 - iii. Pipe-Delimited (message class DSDD08OP – Disbursement level and DSLD08OP – Loan Level)
 - 1. The Pipe-Delimited format of the SAS is not available with headings
- 6. The **Include Names of Borrowers** option allows the school to choose to have borrower names included in the detail portion of the SAS.
 - a. The choices for the Include Names of Borrowers option are:
 - i. Yes
 - ii. No (**Default**)

 - e. Borrower and Student First Name, Last Name, and Middle Initial are NOT provided in the Loan Detail, Disbursement Activity Level section of the Fixed-length report.
- 7. The **Report Activity Type** option allows the school to select whether to receive the Monthly, Year-to-Date, or Both for both the Cash and Loan detail sections of the SAS. Regardless of its choice, the school will receive the Monthly Cash Summary and the Year-to-Date Cash Summary.
 - a. The choices for the Report Activity Type option are:
 - i. Monthly (**Default**)
 - ii. Year-to-Date
 - iii. Both Monthly and Year-to-Date
 - b. The school's Report Activity Type selection will determine the choices available under the Sections of SAS to Receive option.

- i. If Monthly is selected,
 - 1. The school will receive the Monthly Cash Detail.
 - 2. The school will have the choice to receive or not receive the Monthly Disbursement Transaction Level Detail.

Pending Disbursement Listing Report

The Pending Disbursement Listing Report shows all pending/anticipated disbursements [with Disbursement Release Indicator (DRI) = false] from your school for the reported period and award year. The reported period is a 45-day window into the future from the date of the report, or any date in the past. This means that if a pending disbursement has a disbursement date less than or equal to 45 days from today, it will be included on the report.

The information displayed on this report can be used to:

1) Determine your school's future funding needs.

-Your school can identify pending disbursements on the report that fall within a period of immediate need (generally 3 business days), to calculate what amount to request in GAPS (Advance Funded schools only). Keep in mind that any downward disbursement adjustments made since the last drawdown that have not resulted in a refund of cash back to the Department must be included in your calculation of funds needed by your school.

2) To identify pending disbursements that should be reflected as actual disbursements (DRI = true).

-If there are pending disbursements on the report with disbursement dates in the past or the immediate future, you can compare this information to internal school records to determine if any of these should be reflected as actual disbursements. If so, submit a disbursement release indicator = "yes" to COD as soon as possible.

3) To identify awards or disbursements that need to be inactivated (reduced to \$0).

-If a disbursement is listed on the report and the associated award should have been inactivated or the individual disbursement needs to be reduced to \$0, submit updated records to COD as soon as possible.

Business Rules:

1. The Pending Disbursement Listing Report is automatically sent to the school's SAIG mailbox on a weekly basis.
2. The Pending Disbursement Listing Report is available via SAIG mailbox in the following formats, which can be selected via the COD website Report Selection screen under the "School" menu:
 - a. Comma-Delimited (message class DALC08OP)

- b. Pipe-Delimited (message class DALC08OP)

NOTE: The pipe-delimited report layout is the same as the comma-delimited report layout (except the comma-delimited report utilizes text qualifiers (“”) around each field). The commas (,) in the valid field content are replaced with pipes (|) in the pipe-delimited report.

- c. Preformatted Text file (message class DIAA08OP)
 - d. The default format is Preformatted Text file. Schools may change their default options via the COD web site.
 - e. Do Not Distribute - if this option is chosen, the Pending Disbursement Listing will not be generated and sent to your school's SAIG mailbox, although it will still be available for viewing on the COD website. You can select the Do Not Distribute option from the COD Website Report Selection screen at any time. Keep in mind that, if you choose not to receive a report, COD will not be able to send any missed reports for your school via SAIG at a later time. If you update your options to begin receiving a report, you will only receive reports generated from that point forward.
3. The Pending Disbursement Listing Report is available via COD web site in the following formats:
- a. PDF
 - b. Comma-Delimited (CSV)
 - c. The Pending Disbursement List available on the COD web site is the report most recently generated by COD.

Note: Previous versions of this report will also be available on the COD web site.

4. Although the Pending Disbursement Listing Report is generated weekly, if there is no data for the report on a given week, the report will not be sent to the schools' SAIG mailbox or made available via the COD web site.

Funded Disbursement Listing Report

The Funded Disbursement Listing Report is provided to Pushed Cash schools only. It shows all funded/actual disbursements [Disbursement Release Indicator (DRI) = true] accepted from your school for the reported date and award year, plus any previously reported downward adjustments that have not yet been netted against funding calculated for your school. The report also includes information regarding any refunds of cash received that may impact your funding calculations (where applicable), and the total payment your school should expect to receive for the reported date.

The information displayed on this report can be used to:

1) Verify actual disbursements made against funds received

- The report will show a list of actual (funded) disbursements that were used in your school's payment (cash receipt) calculation, which can be matched to school records.

- The report will also include any downward adjustments that were netted into the payment amount

- The total payment amount listed on the report can be matched against school financial records to verify these funds were received within applicable timeframes.

2) Reconcile school disbursement records to COD

- The funded disbursements listed on the report can be reconciled on a daily basis to an internal listing of disbursements made to student accounts and disbursements submitted to COD on that date.

- Any actual disbursements not accepted at COD and not reflected on the report should be corrected and resent (these may have been sent by your school on the reported date, but were not processed as accepted and funded disbursements on that date and therefore, are not reflected on the report).

Business Rules:

1. The Funded Disbursement Listing Report is automatically sent to Pushed Cash schools' SAIG mailbox on a daily basis.

30-Day Warning Report

The 30-Day Warning Report lists unbooked loans for which the COD System has not received the required elements for “booking” a loan. The items needed to book a Direct Loan are included in the Business Rules. These items must be submitted to the Department within 30 days of the initial actual disbursement date. Any missing items will result in the loan remaining unbooked, which may be in violation of this 30-day reporting requirement.

Unbooked awards are listed on the report if any activity occurred on the award (award, MPN, or initial actual disbursement are accepted) during the reported period. The reported period is a 90 day period beginning 120 days prior to the report run date, to allow for the 30-day reporting requirement. Awards remain on the report for 90 days, unless the award books or becomes inactive. For example, if an award is accepted on 10/15/2007 without a promissory note or a disbursement, it will not appear on the October 2007 30 Day Warning Report (30 days have not passed since the award was accepted), but it will appear on the November, December, and January reports if the award remains unbooked. Inactive loans (award amount and disbursements = \$0) will not appear on the report. Promissory notes listed on the report are unlinked as of the report end date.

The 30 Day Warning Report can be used to:

1) Identify the missing pieces necessary for booking the loan. This information is contained in the Loans Pending Booking section of the report.

-Fields listed on the report indicate which piece(s) of data are still needed by the Department to book the loan (any missing data will display a "Y" in the corresponding Data Needed column).

-For an award to be listed on the 30 Day Warning report, the award must be accepted on COD. Therefore, you will never see a "Y" in the Data Needed column under "Loan."

2) Identify MPNs awaiting awards. This information is included in the Promissory Notes Without Origination Records section of the report.

-The report will display all unlinked MPNs accepted by COD from your school during the reported period.

3) Reconcile to your school's internal records of unbooked awards.

-Schools can run internal reports of unbooked awards and match this against the 30 Day Warning Report. If there are awards on the 30 Day Warning showing as unbooked that are

booked in the school's internal records, the school should research the outstanding piece needed to book the loan, as listed on the 30 Day Warning report.

4) Monitor compliance with the 30 day reporting requirement.

-If an award is listed on the 30 Day Warning Report and there is an actual disbursement on file (data needed = N for Disb column), your school is out of compliance with the 30 day reporting requirement.

-If an award is listed on the report and there is not an actual disbursement on file (data needed = Y for Disb column), and internal school records show that there was an actual disbursement made on this award, submit the disbursement immediately to COD. If it is >30 days after the date the actual disbursement was made, your school is out of compliance.

NOTE: The 30 Day Warning Report does not provide any information regarding disbursement amounts or any subsequent disbursements made to a loan that also will need to book. For this type of information, you will need to consult school records or the School Account Statement (SAS). Also, since awards with actual disbursements will drop off the 30 Day Warning after 90 days, it is important to reference the SAS for a complete record of unbooked loans with actual disbursements accepted on COD.

Business Rules:

1. The 30-Day Warning report displays the missing components that are necessary for the loan to book. The necessary items for a loan to be booked are:
 - a. Accepted award/origination record
 - b. Accepted MPN
 - c. Accepted first disbursement record
 - d. Accepted credit decision (for PLUS only)
2. Loans with Award Amounts = \$0 do not display on this report.
3. Loans that display on this report without a promissory note accepted and an actual disbursement are removed from the report after 90 days.
4. The 30-Day Warning Report is automatically sent to the school's SAIG mailbox on a monthly basis.

5. The 30-Day Warning Report is available via SAIG mailbox in the following formats, which can be selected via the COD website Report Selection screen under the “School” menu:
 - a. Comma-Delimited (message class DIWC08OP)
 - b. Pipe-Delimited (message class DIWC08OP)

NOTE: The pipe-delimited report layout is the same as the comma-delimited report layout (except the comma-delimited report utilizes text qualifiers (“”) around each field). The commas (,) in the valid field content are replaced with pipes (|) in the pipe-delimited report.

- c. Preformatted Text file (message class DIWR08OP)
 - d. The default format is Preformatted Text file. Schools may change their default options on the COD web site.
 - e. Do Not Distribute - if this option is chosen, the 30 Day Warning Report will not be generated and sent to your school’s SAIG mailbox, although it will still be available for viewing on the COD website. You can select the Do Not Distribute option from the COD Website Report Selection screen at any time. Keep in mind that, if you choose not to receive a report, COD will not be able to send any missed reports for your school via SAIG at a later time. If you update your options to begin receiving a report, you will only receive reports generated from that point forward.
6. The 30-Day Warning Report is available via the COD web site in the following formats:
 - a. PDF
 - b. Comma-Delimited
 - c. The 30-Day Warning Report available on the COD web site is the report most recently generated by COD.

Note: Previous versions of this report will also be available on the COD web site.

7. For 2003-2004 and forward, the Batch ID under the section entitled “Pnotes Without Origination Records” is removed from the preformatted 30-Day Warning Report (DIWR08OP).
8. For 2003-2004 and forward, the Batch ID is replaced with filler in the delimited versions of the 30-day Warning Report (DIWC08OP).

9. Although the 30-Day Warning Report is generated monthly, if there is no data for the report on a given month, the report will not be sent to the schools' SAIG mailbox or made available via the COD web site.

Inactive Loans Report

The Inactive Loan Report lists all Direct Loan Awards that have been inactivated (the award and any pending or actual disbursements have been adjusted to \$0) by the school for the reporting period. The reported period is a 30 day period, as shown at the top of the report, and this will be the calendar month prior to the run date of the report.

This report can be used to:

1) Confirm that only the correct loans have been made inactive

-Schools can reconcile this report with internal school records to verify that all awards needing to be made inactive have been processed at COD.

2) Identify awards that may have dropped off the 30-Day Warning Report

-Loans will drop off the 30 Day Warning when they are inactivated.

-If you expect an award to be listed on the 30 Day Warning and it is not, you may want to research if it now appears on the Inactive Loans report, or if it has been booked since the last report.

Business Rules:

1. The Inactive Loans Report is automatically sent to the school's SAIG mailbox on a monthly basis.
2. The Inactive Loans Report is available via the SAIG mailbox in the following formats, which can be selected via the COD website Report Selection screen under the "School" menu:

Duplicate Student Borrower Report

The Duplicate Student Borrower Report lists the student borrowers for which the COD System has accepted multiple Direct Subsidized and/or Unsubsidized Award records with overlapping academic years within the same award year. This report assists in identifying subsequent award or disbursement records that may reject due to exceeding the annual loan limits. This report does NOT relieve the school of its responsibility to monitor all loan activity (including FFEL) for a student through the Financial Aid Transcript and NSLDS processes.

This information can be used to:

1) Identify potential overaward situations.

-Use data on the report to identify when multiple sub/unsub awards have been originated with overlapping academic years, which could result in an overaward situation.

-If any of the listed awards at your school will not be disbursed, or will only be partially disbursed, reduce the award by the applicable amount.

-Monitor remaining awards for students listed on the report and any associated disbursements for any rejects due to overaward situations.

Business Rules:

1. The Duplicate Student Borrower Report is automatically sent to the school's SAIG mailbox on a monthly basis.
2. The Duplicate Student Borrower Report is available via SAIG mailbox in the following formats, which can be selected via the COD website Report Selection screen under the "School" menu:

NOTE: The pipe-delimited report layout is the same as the comma-delimited report layout (except the comma-delimited report utilizes text qualifiers (") around each field). The commas (,) in the valid field content are replaced with pipes (|) in the pipe-delimited report.

- c. Preformatted Text file (message class DUPLPFOP)
- d. The default format is Preformatted Text file.

- e. The Duplicate Student Borrower Report lists student borrowers for which COD has accepted multiple Direct Subsidized and/or Unsubsidized common records. The list indicates other schools that have submitted a common record for the same borrower who may be attending your school. This report assists in identifying subsequent loan origination records that may reject due to exceeding the annual loan limits. This report does NOT relieve the school of its responsibility to monitor all loan activity (including FFEL) for a student through the Financial Aid Transcript and NSLDS processes.

SSN/Name/Date of Birth Change Report

The SSN/Name/Date of Birth Change Report lists students/borrowers who have had identifier changes (including changes to SSN, name, and date of birth) during the reporting period, which is 90 days prior to the report end date. A student/borrower with an identifier change will be included on your school's report if that person was associated with your school for any of the 3 most recent award years. The change may have been initiated by: a) your school, b) another school associated with that borrower, or c) Direct Loan Servicing (in the case of an SSN change only). The report detail provides information on the school submitting the change, the field changed, the old value, the new value, and the date the change was accepted, to assist your school with researching any related identifier issues.

The information on this report can be used to:

- 1) Confirm identifier changes sent by your school have been accepted properly on COD.
- 2) Update your records (where appropriate).

-Because your school may not have initiated the change, it is important to monitor the information on this report for any updated identifier information for your students and make changes to your records where appropriate. This will help you prevent future rejects based on old identifier information.

-If your school has more current information on the student's identifiers, you will need to ensure this information is properly documented and updated on COD.

Business Rules:

1. The SSN/Name/Date of Birth Change Report is automatically sent to the school's SAIG mailbox on a weekly basis, when a change is initiated.
2. The SSN/Name/Date of Birth Change Report is available via SAIG in the following formats, which can be selected via the COD website Report Selection screen under the "School" menu:
 - a. Comma-Delimited (message class SNDCCDOP)
 - b. Pipe-Delimited (message class SNDCCDOP)

NOTE: The pipe-delimited report layout is the same as the comma-delimited report layout (except the comma-delimited report utilizes text qualifiers (“”) around each field). The commas (,) in the valid field content are replaced with pipes (|) in the pipe-delimited report.

- c. Preformatted Text file (message class SNDCPFOP)
 - d. The default format is Preformatted Text file.
 - e. Do Not Distribute - if this option is chosen, the SSN/Name/Date of Birth Change Report will not be generated and sent to your school's SAIG mailbox, although it will still be available for viewing on the COD website. You can select the Do Not Distribute option from the COD Website Report Selection screen at any time. Keep in mind that, if you choose not to receive a report, COD will not be able to send any missed reports for your school via SAIG at a later time. If you update your options to begin receiving a report, you will only receive reports generated from that point forward.
3. The SSN/Name/Date of Birth Change Report is available via the COD web site in the following formats:
 - a. PDF
 - b. Comma-Delimited (CSV)
 - c. The SSN/Name/Date of Birth Change Report available on the COD web site is the report most recently generated by COD.

Note: Previous versions of this report will also be available on the COD web site.
4. Although the SSN/Name/Date of Birth Change Report is generated weekly, if there is no data for the report on a given week, the report will not be sent to the schools' SAIG mailbox or made available via the COD web site.

Direct Loan Rebuild File

An electronic rebuild file can be requested to rebuild a school's lost or corrupted Direct Loan Database or to recreate specific student records. This file is available only by request through the COD School Relations Center. It may be imported into Direct Loan Tools to rebuild an EDExpress database or into a school's vendor or mainframe system. For more information on the rebuild functionality in DL Tools, refer to Volume IV, Section 1 of this Technical Reference.

Business Rules:

1. The Direct Loan Rebuild File is provided in a fixed-length file format (message class CODRBFOP)
2. The Rebuild File for award years 2005-2006 and forward can only be requested through the COD School Relations Center.
3. A Rebuild File can be requested by a school for a specific:
 - a. Award Year (e.g. 2007-2008) – provides all the loan/disbursement information for the entire award year
 - b. Borrower/Student - provides loan(s)/disbursement(s) information for one particular borrower/student by Social Security Number
 - c. Award ID (Loan ID) - provides loan/disbursement information for a specific Award ID
 - d. Date Range – provides loan(s)/disbursement(s) information within a range of dates for a particular award year.

NOTE: The date range option selects awards accepted within the date range and provides all disbursement transactions, including disbursement adjustments, related to these loans.

MPN Discharge Report

The MPN Discharge Report contains data on MPNs that have become inactive within the last 30 days due to discharges for Death, Unauthorized Signature, or Identity Theft.

This report can be used to:

1) Identify when a new MPN is needed for an award at your school.

-If an MPN has been made inactive due to a discharge, it cannot be used for additional awards. If you expect to award and disburse additional funds to the affected borrower or student, verify that the individual is still eligible and obtain a new, signed promissory note.

Business Rules:

1. The MPN Discharge Report is sorted in the following order (with each field listed in ascending order):
 - a. Last Name
 - b. First Name
 - c. Middle Initial
 - d. SSN, and then
 - e. DOB
2. The MPN Discharge Report is available via SAIG in the following formats, which can be selected via the COD website Report Selection screen under the “School” menu:
 - a. Fixed-Length (default)
 - b. Pipe-delimited
 - c. Comma-delimited
3. The MPN Discharge Report is available via the COD web in only comma-delimited format.
4. The MPN Discharge Report (all format types) is sent from the COD System with non-award year specific message class MPNDISOP.

5. The MPN Discharge Report is transmitted to the Reporting School's SAIG mailbox and Newsbox on a weekly basis.
6. The MPN Discharge Report is transmitted to the following Attended School's Web Newsbox on a weekly basis:
 - a. All Attended Schools with loans linked to the MPNs in the report.
 - b. All Attended Schools that created the MPNs listed in the report regardless of whether or not an award was linked to the MPN.
7. Although the MPN Discharge Report is generated weekly, if there is no data for the report on a given week, the report will not be sent to the schools' SAIG mailbox or made available via the COD web site.

Note: Previous versions of this report will also be available on the COD web site.

Expired MPN Report

The Expired MPN Report contains data on MPNs that have expired (become inactive) within the last 30 days due to any of the following reasons:

1. No awards linked within a year of the date of receipt
2. No actual disbursements on a linked award within a year of the date of receipt
3. 10 years passing since the date of receipt
4. A PLUS loan linked with an Endorser.

MPNs will not appear on the Expired MPN Report if they have expired due to Disbursement inactivity more than 30 days prior to the date of the report generation.

This report can be used to:

1) Identify when a new MPN may be needed for an award at your school

-If an MPN has expired, you cannot use that MPN to link to a new, unlinked award at your school that will be disbursed after the expiration date. You must obtain a new, signed promissory note to book additional loans.

-If an MPN has expired that is already linked to an award at your school, no further action is necessary for that award. Any disbursements made to the linked award will book using the existing promissory note.

Business Rules:

ACG Year-to-Date Record (YTD)

A Year-to-Date (YTD) Record can be requested for one given student or for all ACG recipients at the school and contains detailed award and disbursement data at a transaction level. The YTD Record shows the number of recipients at the school; the number of award and disbursement records that were accepted and rejected; and, for certain edit codes, the number of times a school received that specific edit code on a response document. The YTD Record can be used to replace a corrupt database or to reconcile records with accepted data on COD.

Business Rules:

1. The Year-To-Date Record may be requested by the school via batch data request, or the COD web site.
2. The Year-To-Date Record is provided in fixed-length, flat file format.
3. The Year-To-Date Record is sent from the COD System with message class AGYR08OP.

202	203	2	N	Disbursement Sequence Number	The two-digit integer assigned to count the progression of disbursement adjustments for a given Disbursement Number. All disbursements either submitted by a school or generated by the COD System, must be included in the file. Each Disbursement transaction must be written to the file in the order that it appears in the database. For example: School submits Disb Sequence Numbers 01 and 02 for Disbursement Num 01. COD creates a system-generated Disb Sequence Number 66 and then school submits Disb Sequence Number 03. The transactions should appear in the record in the order: 01, 02, 66, and 03.

National SMART Year-to-Date Record (YTD)

A Year-to-Date (YTD) Record can be requested for one given student or for all National SMART recipients at the school and contains detailed award and disbursement data at a transaction level. The YTD Record shows the number of recipients at the school; the number of award and disbursement records that were accepted and rejected; and, for certain edit codes, the number of times a school received that specific edit code on a response document. The YTD Record can be used to replace a corrupt database or to reconcile records with accepted data on COD.

Business Rules:

1. The Year-To-Date Record may be requested by the school via batch data request, or the COD web site.
2. The Year-To-Date Record is provided in fixed-length, flat file format.
3. The Year-To-Date Record is sent from the COD System with message class SGYR08OP.
