COD News

Record Submission Due Date For 2002-2003 Closeout [06/25/04 (Updated 07/30/04)]

COD would like to remind schools that the closeout processing deadline for the 2002-2003 Direct Loan Program Year is **July 30, 2004--Today!**

To meet the closeout deadline, all records must be submitted to COD no later than 8:00 P.M. (ET) on Friday, July 30, 2004. (Note: all submitted records subsequently must be accepted by COD in order to be included in your school's final Ending Cash Balance for 2002-2003.)

To be considered successfully closed out, schools must have an Ending Cash Balance of \$0 and Total Net Unbooked Disbursements of \$0, as reflected on the School Account Statement (SAS) Report.

For more detailed information about closeout, also refer to:

- DLB-04-15 (<http://www.ifap.ed.gov/dlbulletins/DLB0415.html/>),
- DLB-04-18 (<http://www.ifap.ed.gov/dlbulletins/DLB0418.html/>),
- DLB 04-19 (<http://www.ifap.ed.gov/dlbulletins/DLB0419.html/>), and
- DLB 04-21 (<http://www.ifap.ed.gov/dlbulletins/DLB0421.html/>).

August 2004 Software Developers Conference [07/23/04 (Updated 07/29/04)]

The 2004 Software Developers Conference that was previously scheduled for Thursday, August 19, 2004 and Friday, August 20, 2004, will now be a one-day conference held on Thursday, August 19, 2004 in Arlington, VA. This year's conference is shortened due to the limited number of changes and updates. The conference registration deadline has not changed and remains Saturday, August 4, 2004.

As previously mentioned, the Software Developers Conference is targeted at mainframe institutions, third party servicers, and software developers and providers. This conference will provide the latest information available about changes and updates to our Federal student aid application and delivery services. Attendees will also have an opportunity to provide feedback on future service enhancements.

Further information regarding conference registration, hotel reservations, and the updated draft agenda is available at http://edeworkshop.ncspearson.com/swdAugust_04.htm - program/.

Additional System Functionality For 2004-2005 Award Year Implemented (07/27/04)

COD is pleased to announce the implementation of additional COD System functionality on July 23-24, 2004. These system changes support the processing of Pell Grants and Direct Loans for

COD Processing Update

the 2004-2005 Award Year. COD implemented all of the Direct Loan system changes described in the Electronic Announcement posted on the IFAP web site at <http://www.ifap.ed.gov/eannouncements/0714AddlCODSysImp0405.html/>.

This same information is posted on the IFAP web site at <http://ifap.ed.gov/eannouncements/0727CODSystemImpl0405.html/>.

Thank you for your understanding and patience while COD completed this important activity. If you have any questions about the system changes, contact the COD School Relations Center.

COD Web Messages (07/26/04)

COD posts messages on the COD web site that provide users with information about COD processing, maintenance, holiday schedules, and functionality. These messages are available on the Welcome to the Common Origination & Disbursement Web Site screen.

In order to view COD web messages, schools need to login to the COD web site. Detailed information regarding COD web site access is available on the IFAP web site at <http://www.ifap.ed.gov/eannouncements/0422CODWebsiteAccessSchools.html/>.

Previously, COD web messages remained on the COD web site for a period of 7 calendar days from the date posted. However, in response to recent feedback, web messages will now remain on the COD web site for a period of 14 calendar days from the date posted.

Resolved Issues

Funded Disbursement, Pending Disbursement, and SSN-Name-Date Of Birth Change Report Issues During March 2004 And May 15, 2004 Through June 3, 2004 [06/08/04 (07/15/04)]

Previously, COD identified the following issues with the Funded Disbursement List report:

1. The Funded Disbursement List report is sent each day to Pushed Cash schools via their SAIG mailboxes when an actual disbursement or adjustment (DRI=T) is submitted. However, some Pushed Cash schools reported sporadically not receiving a Funded Disbursement List Report in their SAIG mailboxes and/or via the COD web site during March 2004.
2. From May 15, 2004 through June 3, 2004 the Funded Disbursement List, Pending Disbursement List, and SSN-Name-Date of Birth Change reports were not sent to some schools' SAIG mailboxes.

For both issues 1 and 2 listed above, COD has sent all affected reports to the school's SAIG mailboxes. Additionally, the reports were placed on the COD web site.

COD Processing Update

Current Issues

Rejected Records Not Viewable On The COD Web Site (07/30/04)

Some schools are receiving an error message when attempting to view rejected records on the COD web site's Batch Detail Information screen. Clicking on the Rejected link in the Award No. column causes the following error message to display: "An unexpected error has occurred. Please contact your administrator if the problem persists."

COD is researching the cause of this issue and anticipates a resolution in August 2004. Updates will be provided as more information becomes available.

Duplicate Disbursement Information In COD [05/06/04 (Updated 07/30/04)]

COD has learned that duplicate disbursement numbers are displaying incorrectly on the COD web site's Award Disbursements Information screen. On this screen under the Disbursement Number column, disbursement numbers are appearing twice. However, when viewing the Disbursement Information screen, each disbursement displays a different status (Pending or Disbursed).

COD has made significant progress in analyzing the issue and anticipates a resolution in September 2004. Updates will be provided as more information becomes available.

Loans With Pending First Disbursement Failing To Book [03/23/04 (Updated 07/29/04)]

COD has identified an issue with booking notifications. For Direct Loan awards that have a pending first disbursement, and also have an actual 2nd, 3rd, 4th, or 5th disbursement, the award is failing to book. As a result, a booked date does not appear in COD, a booking notification is not generated, and the award is not being passed on to the Direct Loan Servicing System.

COD has implemented a code fix for Direct Loan Subsidized/Unsubsidized awards, and a clean up plan has been created for the affected awards. However, COD continues to research a code fix for the Direct Loan PLUS awards affected by this issue. Updates will be provided as more information becomes available.

30-Day Warning Report Issue [06/08/04 (Updated 07/22/04)]

On July 7, 2004 and July 8, 2004, the 30-Day Warning report was sent to schools' SAIG mailboxes. However, the reports did not contain any information for the applicable award year.

Previously, COD informed schools that the affected reports were corrected and resent to their SAIG mailboxes. However, after further research COD has determined that these reports were not released. COD plans to resend these reports to schools' SAIG mailboxes and will notify schools when this is done. In the meantime, schools can view the report on the COD web site.

COD Processing Update

Direct Loan School Account Statement (SAS) Report Issues [02/03/04 (Updated 07/21/2004)]

Previously, COD notified schools of two issues that affect the SAS report. The issues are described below. Note that these issues are not affecting every school, so review your SAS carefully.

- In the past, several schools reported that disbursements were appearing multiple times on the SAS report under the same sequence number. On May 11, 2004, COD migrated a code fix that resolved this issue moving forward. Once analysis of existing issues is complete, a cleanup will be performed to correct the affected transactions.
- In some cases, the booked date was not listed for a disbursement when the loan booked date was populated. This resulted in disbursement transactions appearing as unbooked when they are really booked.

The COD 3.0 release included a code change that corrected this issue for 2002-2003 SAS reports. However, subsequent analysis has shown this issue is affecting SAS reports for the 2003-2004 Award Year. COD is researching a fix for this issue and will provide further updates as more information becomes available.

COD understands that these issues may impact your ability to use the SAS; however, you still need to use this report to the best of your ability for reconciliation and substantiation. If you have any questions about your SAS report or reconciliation, contact the COD School Relations Center.

Funded Disbursement List Issues [06/08/04 (Updated 07/21/04)]

COD has identified the following issues with the Funded Disbursement List report:

1. Since the 2004-2005 system implementation that occurred the weekend of March 12-14, 2004, the Funded Disbursement List no longer appears on the COD web site for Advance Funded schools. This functionality is being evaluated at this time. In the meantime, Advance Funded schools can refer to the Student Account Statement (SAS) report for information on disbursements that have been funded.
2. On July 1, 2004, July 2, 2004, and July 9, 2004, the Funded Disbursement List was not sent to Pushed Cash schools' SAIG mailboxes. On July 19, 2004 the Funded Disbursement list for July 9, 2004 was sent to Pushed Cash schools' SAIG mailboxes. COD is planning to release the Funded Disbursement List for July 1, 2004 and July 2, 2004 to Pushed Cash schools. Updates will be provided once more information becomes available.
3. From July 7, 2004 through July 9, 2004 and July 16, 2004, the Funded Disbursement List was not placed on the COD web site for Pushed Cash schools to view. However, these reports were sent to schools' SAIG mailboxes. COD is planning to place these reports on the web for Pushed Cash schools and will continue to provide updates as more information becomes available.
4. On July 7, 2004 and July 8, 2004, the Funded Disbursement List report was sent to schools' SAIG mailboxes. However, the report was blank and did not contain any

COD Processing Update

information for the applicable award year. COD has sent a corrected Funded Disbursement List report to Pushed Cash schools.

Pending Disbursement List Issues [06/08/04 (Updated 07/16/04)]

COD has identified the following issues with the Pending Disbursement list:

1. From July 7, 2004 and July 8, 2004, the Pending Disbursement List was sent to schools' SAIG mailboxes. However, the report was blank and did not contain any information for the applicable award year. COD is planning to send a correct Pending Disbursement List to schools and will continue to provide updates as more information becomes available.
2. On July 10, 2004, the Pending Disbursement List report was not placed on the COD web site for schools to view. COD is researching the cause of this issue and will provide more information as it becomes available.

Duplicate Student Borrower Report Issues [06/18/04 (Updated 07/16/04)]

COD has identified the following issues with the Duplicate Student Borrower report:

1. On July 3, 2004, the Duplicate Student Borrower report was not sent to schools' SAIG mailboxes. COD is researching the cause of this issue and will provide more information as it becomes available. In the meantime, schools may view the report on the COD web site.
2. COD has identified some instances where the Duplicate Student Borrower report is sent listing student borrowers that never attended the school. COD is researching the cause of the inaccurate data in the report, and will provide more information as it becomes available.

Inactive Loans Report Issue (07/16/04)

On July 3, 2004, the Inactive Loans report was not sent to schools' SAIG mailboxes. COD is researching the cause of this issue and will provide more information as it becomes available. In the meantime, schools may view the report on the COD web site

COD Edit 116 Not Working Correctly [01/06/04 (Updated 07/15/04)]

COD has found that COD Edit 116 (SSN, Date of Birth and/or Last Name have not been updated in the COD System) is not working properly. This edit is a warning that is returned when changes to the Student Identifier information are submitted and the reported CPS Transaction Number and Award Year combination is not greater than the combination that currently exists in COD.

Because this edit is not working correctly schools are unable to submit new 2003-2004 originations or make online changes when previous award year information is different for a student in COD. COD is still testing the code fix for this issue and anticipate resolution by late August 2004. Updates will be provided as more information becomes available.

Schools Not Receiving Responses/Acknowledgements [06/15/04 (Updated 07/02/04)]

Full Participants and Phase-In Participants had previously reported to COD that they did not receive Responses/Acknowledgements for batches submitted to the COD System between

COD Processing Update

June 7, 2004 and June 15, 2004. The COD development team determined the cause of this issue and implemented a code fix to prevent it going forward.

At this time, COD is unable to identify all the batches that may have been affected by this issue. Any school that is still missing a Response/Acknowledgement for a batch submitted between June 7, 2004 and June 15, 2004 should contact the COD School Relations Center to report this information. COD will then send the Response/Acknowledgment to the school's SAIG mailbox.

Student Name And Date Of Birth Not Updated In COD [05/03/04 (Updated 06/30/04)]

COD notified schools of an issue where new 2003-2004 and 2004-2005 origination records are accepted in COD, however, the student's Name and Date of Birth (DOB) updates submitted by the school are not displaying on the COD web site's Person Information screen. The COD web site is reflecting the Name and DOB from the previous award year. Additionally, in some cases, changes to Name and DOB for previously accepted origination records are not displaying on the Person Information screen as well.

COD continues to research the cause of this issue and appreciates your patience. Updates will be provided as more information becomes available.

Disbursements Not Displaying On COD Web Site And/Or SAS [12/11/03 (Updated 06/28/04)]

COD has identified two issues where accepted disbursements/adjustments are being processed in COD, but are not appearing on certain COD web site screens. The issues are as follows:

- In some instances, disbursements/adjustments are not appearing on the Disbursement List screen. However, the accepted disbursements are appearing on the Batch screen and being acknowledged correctly to schools. Also in some cases, sequence numbers for the disbursements are not appearing on the Disbursement History Information screen.

COD has determined the cause of the problem. The data was not populated in the COD database correctly when the disbursements/adjustments were processed, resulting in the disbursements not appearing on the web site.

Several code fixes have been migrated to prevent this problem going forward. COD is now determining the cleanup plan for the affected records and will provide updates as more information becomes available.

- In some instances, disbursements/adjustments are not appearing on the Disbursement History Information screen. As a result, the disbursements/adjustments are not reflected on the school's SAS. However, the disbursements are appearing on the Batch screen and being acknowledged correctly to schools.

Currently, COD believes that this issue is affecting 2002-2003 Direct Loan records only. However, if you have other Direct Loan records or Pell Grant records affected by this issue, report the awards to the COD School Relations Center. COD is analyzing this issue and will provide updates as more information becomes available.

In the meantime, please be patient and do not resubmit the disbursements/adjustments for processing; these transactions have already been acknowledged.

COD Processing Update

Direct Loan Rebuild File [03/12/04 (Updated 06/23/04)]

As previously reported, COD is researching several issues related to incorrect data in the Direct Loan Rebuild file and put the production of the file on hold until the issues are resolved. Additionally, COD disabled the ability to request Direct Loan Rebuild files on the COD web site until further notice. COD apologizes for any inconvenience this may cause schools. COD is continuing to research the cause of the incorrect data in the file and will provide updates as more information becomes available.

2004-2005 Origination Records Rejecting For COD Edit 117 [05/28/04 (Updated 06/09/04)]

COD Edit 117 (Disbursement information is incomplete or rejected. Direct Loan award is not accepted) is returned to schools when a 2004-2005 Direct Loan origination record (DRI=F) is submitted with one of the following conditions:

- The sum of the disbursement amounts is *not* equal to the Award Amount submitted;
- A school that is eligible for a single disbursement submits a single disbursement less than the award amount;
- One or more of the disbursements on the origination are rejected; or
- A school that is not eligible for a single disbursement submits a single disbursement greater than, less than, or equal to the Award Amount.

COD has discovered that some 2004-2005 origination records are hitting this edit incorrectly when the sum of the disbursements *is* equal to the award amount submitted. The COD development team is researching the cause of this issue and a permanent code fix. In the meantime, schools may resubmit their records that previously rejected incorrectly for COD Edit 117. The records will be processed and a correct acknowledgment will be returned to the school.

COD Cash Activity Screen Inaccurate [02/19/04 (Updated 06/08/04)]

Previously, COD identified an issue where the COD web site's Cash Activity screen was not always displaying every drawdown that was reflected in the GAPS Activity Report. COD notified schools that this issue was resolved on April 5, 2004. However, after further research, it was determined that this issue is not resolved for all schools. COD continues to work on resolving this issue for the remaining schools affected and will provide updates as more information becomes available.

Additionally, COD previously discovered that other cash activities, such as Refunds of Cash and Disbursement Adjustments, were not displaying on the Cash Activity screen. The COD development team is working on multiple cleanups that will allow the Refunds of Cash and Disbursement Adjustments to display on the Cash Activity screen. Updates will be provided as more information becomes available.

Mixed Person Records In COD [03/02/04 (Updated 05/20/04)]

As you are aware, the COD System is based on the establishment of a person record and contains person records established as early as 1999-2000. COD has discovered that primarily due to inaccurate SSNs that have entered the COD System, approximately 300 records (out of approximately 14 million person records in the COD System) have mixed with other COD records. Since PLUS borrowers are not matched with CPS, the majority of the people affected by this issue are PLUS borrowers. COD has a dedicated team working to resolve the small number

COD Processing Update

of records that have been mixed. COD would like to assure you that if your data has been affected by this rare problem it is not lost in the COD System and it will be corrected.

Specifically, COD has identified two scenarios related to this issue. In the first scenario, one person appears twice within the COD System, with different awards under each profile. In the second scenario, two persons have the same SSN in the COD System with mixed profiles and awards. These problems usually occur when incorrect SSNs are submitted to COD and are compounded when the incorrect SSN matches another person's correct SSN.

COD continues to work on further detailed instructions that will assist you in avoiding these scenarios and, if necessary, in correcting them. If you have any questions, please contact the COD School Relations Center.

MPN Status Inaccurate On COD Web Site [10/30/03 (Updated 05/17/04)]

For the 2002-2003 and 2003-2004 Award Years, the COD web site is displaying an MPN Status of Active for MPNs that have expired when it should display as Inactive. Currently, COD believes this is only a display issue and does not impact data processing. Resources have focused on more critical issues. COD appreciates your patience and will provide updates as more information becomes available.

COD Issues From 2004-2005 System Implementation [03/17/04 (Updated 05/17/04)]

COD has discovered the following system issues related to the 2004-2005 system implementation that occurred the weekend of March 12-14, 2004.

- When performing an MPN Search using only the last name, not all of the results display on the web screen. Until this issue is resolved, users are encouraged to perform an MPN search using both the first and last names.
- When performing an MPN Search, the Academic Year start and end dates display for multi-year MPNs. The Academic Year dates should display only for single-year MPNs.
- When viewing the Direct Loan Disbursement list screen, the fee field displays as a negative number instead of a positive number for records in an active status.

The COD development team is developing the code fix for these issues. COD will provide further details once more information is available.

Changes To Award And Disbursement Amounts Not Processed Correctly [11/05/03 (Updated 05/06/04)]

COD had an issue where schools were attempting to reduce/zero an award with a pending or actual disbursement and while the award amounts were reduced the disbursements were still showing an amount in COD. This caused the pending disbursements to appear on the school's pending disbursement list. Additionally, schools may have had a reject for COD Edits 041 (Changed Award Amount is Less Than Total Disbursements) and 067 (Incorrect Disbursement Amount).

COD implemented a code fix in early January 2004 to allow award and disbursement changes to be processed correctly. However, after further research it was determined that the code fix was not working correctly. As a result, a new code fix was implemented. COD is researching a cleanup plan for the affected records. COD will provide updates as they become available.

COD Processing Update

COD Web Site Response Time [03/19/04 (Updated 04/22/04)]

COD has learned that COD web site users are experiencing poor response time and receiving log errors when performing searches between the hours of approximately 11:00 AM and 2:00 PM eastern time.

COD has identified several potential causes of the issue and is in the process of evaluating the causes. COD asks users to continue to be patient. In the meantime, please continue to e-mail screen shots of any error messages received while performing a search to the COD School Relations Center at CODSupport@acs-inc.com.

Direct Loan Servicing And COD System Interface Issues (03/25/04)

COD transmits a daily file to the Direct Loan Servicing System (DLSS) updating DLSS with Direct Loan booking information. Sometimes, not all of the information is processed correctly due to systematic rejects and interface issues between the systems. When this occurs, COD reviews the rejects and processes them accordingly. Additionally, COD implements code fixes and cleanups of incorrect data when necessary.

In some cases, the processing of rejected records and the related code fixes can take several weeks to complete. COD understands that it causes confusion when data does not match between the systems and works to resolve any discrepancies as quickly as possible.

COD Processing Update

Pell Grants

COD News

August 2004 Software Developers Conference [07/23/04 (Updated 07/29/04)]

The 2004 Software Developers Conference that was previously scheduled for Thursday, August 19, 2004 and Friday, August 20, 2004, will now be a one-day conference held on Thursday, August 19, 2004 in Arlington, VA. This year's conference is shortened due to the limited number of changes and updates. The conference registration deadline has not changed and remains Saturday, August 4, 2004.

As previously mentioned, the Software Developers Conference is targeted at mainframe institutions, third party servicers, and software developers and providers. This conference will provide the latest information available about changes and updates to our Federal student aid application and delivery services. Attendees will also have an opportunity to provide feedback on future service enhancements.

Further information regarding conference registration, hotel reservations, and the updated draft agenda is available at http://edeworkshop.ncspearson.com/swdAugust_04.htm - program/.

Additional System Functionality For 2004-2005 Award Year Implemented (07/27/04)

COD is pleased to announce the implementation of additional COD System functionality on July 23-24, 2004. These system changes support the processing of Pell Grants and Direct Loans for the 2004-2005 Award Year. COD implemented all of the Pell Grant system changes described in the Electronic Announcement posted on the IFAP web site at <http://www.ifap.ed.gov/eannouncements/0714AddlCODSysImp0405.html/>.

Note: COD is in the process of verifying the data in the three new Pell Grant reports. Upon completion, the SSN/Name/Date of Birth Change Report, the Pell POP Report, and the Pell Funded Disbursement List (Pushed Cash/Just-In-Time schools only) will be generated and pushed to schools' SAIG mailboxes. There will be a delay in pushing these reports to schools' COD newsboxes on the COD web site because we need to evaluate this functionality. COD expects to complete this evaluation and make the reports available on the COD web site in the very near future.

This same information is posted on the IFAP web site at <http://ifap.ed.gov/eannouncements/0727CODSystemImpl0405.html/>.

Thank you for your understanding and patience while COD completed this important activity. If you have any questions about the system changes, contact the COD School Relations Center.

COD Web Messages (07/26/04)

COD posts messages on the COD web site that provide users with information about COD processing, maintenance, holiday schedules, and functionality. These messages are available on the Welcome to the Common Origination & Disbursement Web Site screen.

COD Processing Update

In order to view COD web messages, schools need to login to the COD web site. Detailed information regarding COD web site access is available on the IFAP web site at <http://www.ifap.ed.gov/eannouncements/0422CODWebsiteAccessSchools.html/>.

Previously, COD web messages remained on the COD web site for a period of 7 calendar days from the date posted. However, in response to recent feedback, web messages will now remain on the COD web site for a period of 14 calendar days from the date posted.

Current Issues

Rejected Records Not Viewable On The COD Web Site (07/30/04)

Some schools are receiving an error message when attempting to view rejected records on the COD web site's Batch Detail Information screen. Clicking on the Rejected link in the Award No. column causes the following error message to display: "An unexpected error has occurred. Please contact your administrator if the problem persists."

COD is researching the cause of this issue and anticipates a resolution in August 2004. Updates will be provided as more information becomes available.

Duplicate Disbursement Information In COD [05/06/04 (Updated 07/30/04)]

COD has learned that duplicate disbursement numbers are displaying incorrectly on the COD web site's Award Disbursements Information screen. On this screen under the Disbursement Number column, disbursement numbers are appearing twice. However, when viewing the Disbursement Information screen, each disbursement displays a different status (Pending or Disbursed).

COD has made significant progress in analyzing the issue and anticipates a resolution in September 2004. Updates will be provided as more information becomes available.

Verification Status Report Issue [07/16/04 (Updated 07/21/04)]

On July 3, 2004, the Verification Status Report was not sent to schools' SAIG mailboxes. COD continues to research the cause of this issue and will provide more information as it becomes available. In the meantime, schools may view the report on the COD web site.

COD Edit 116 Not Working Correctly [01/06/04 (Updated 07/14/04)]

COD has found that COD Edit 116 (SSN, Date of Birth and/or Last Name have not been updated in the COD System) is not working properly. This edit is a warning that is returned when changes to the Student Identifier information are submitted and the reported CPS Transaction Number and Award Year combination is not greater than the combination that currently exists in COD.

Because this edit is not working correctly schools are unable to submit new 2003-2004 originations or make online changes when previous award year information is different for a student in COD. COD is still testing the code fix for this issue and anticipate resolution by late August 2004. Updates will be provided as more information becomes available.

COD Processing Update

Issue With Generating The Pell Grant Reconciliation Report For 2004-2005 (07/14/04)

Since July 10, 2004, the COD System has experienced an issue with generating the Pell Grant Reconciliation report for the 2004-2005 Award Year. As a result, schools that submit a data request for the Pell Grant Reconciliation report via batch or the COD web site will not receive this report in their SAIG mailboxes. COD is researching the cause of this issue and will provide more information as it becomes available.

Schools Not Receiving Responses/Acknowledgements [06/15/04 (Updated 07/02/04)]

Full Participants and Phase-In Participants had previously reported to COD that they did not receive Responses/Acknowledgements for batches submitted to the COD System between June 7, 2004 and June 15, 2004. The COD development team determined the cause of this issue and implemented a code fix to prevent it going forward.

At this time, COD is unable to identify all the batches that may have been affected by this issue. Any school that is still missing a Response/Acknowledgement for a batch submitted between June 7, 2004 and June 15, 2004 should contact the COD School Relations Center to report this information. COD will then send the Response/Acknowledgment to the school's SAIG mailbox.

Student Name And Date Of Birth Not Updated In COD [05/03/04 (Updated 06/30/04)]

COD notified schools of an issue where new 2003-2004 and 2004-2005 origination records are accepted in COD, however, the student's Name and Date of Birth (DOB) updates submitted by the school are not displaying on the COD web site's Person Information screen. The COD web site is reflecting the Name and DOB from the previous award year. Additionally, in some cases, changes to Name and DOB for previously accepted origination records are not displaying on the Person Information screen as well.

COD continues to research the cause of this issue and appreciates your patience. Updates will be provided as more information becomes available.

Disbursements Not Displaying On COD Web Site [12/11/03 (Updated 06/28/04)]

COD has identified an issue where disbursements/adjustments are being processed in COD, but are not appearing on the Disbursement List screen. However, the accepted disbursements are appearing on the Batch screen and being acknowledged correctly to schools. Also in some cases, sequence numbers for the disbursements are not appearing on the Disbursement History Information screen.

COD has determined the cause of the problem. The data was not populated in the COD database correctly when the disbursements/adjustments were processed, resulting in the disbursements not appearing on the web site.

Several code fixes have been migrated to prevent this problem going forward. COD is now determining the cleanup plan for the affected records and will provide updates as more information becomes available.

In the meantime, please be patient and do not resubmit the disbursements/adjustments for processing; these transactions have already been acknowledged back to schools.

COD Processing Update

Mixed Person Records In COD [03/02/04 (Updated 05/20/04)]

As you are aware, the COD System is based on the establishment of a person record and contains person records established as early as 1999-2000. COD has discovered that primarily due to inaccurate SSNs that have entered the COD System, approximately 300 records (out of approximately 14 million person records in the COD System) have mixed with other COD records. Since PLUS borrowers are not matched with CPS, the majority of the people affected by this issue are PLUS borrowers. COD has a dedicated team working to resolve the small number of records that have been mixed. COD would like to assure you that if your data has been affected by this rare problem it is not lost in the COD System and it will be corrected.

Specifically, COD has identified two scenarios related to this issue. In the first scenario, one person appears twice within the COD System, with different awards under each profile. In the second scenario, two persons have the same SSN in the COD System with mixed profiles and awards. These problems usually occur when incorrect SSNs are submitted to COD and are compounded when the incorrect SSN matches another person's correct SSN.

COD continues to work on further detailed instructions that will assist you in avoiding these scenarios and, if necessary, in correcting them. If you have any questions, please contact the COD School Relations Center.

COD Web Site Response Time [03/19/04 (Updated 04/22/04)]

COD has learned that COD web site users are experiencing poor response time and receiving log errors when performing searches between the hours of approximately 11:00 AM and 2:00 PM eastern time.

COD has identified several potential causes of the issue and is in the process of evaluating the causes. COD asks users to continue to be patient. In the meantime, please continue to e-mail screen shots of any error messages received while performing a search to the COD School Relations Center at CODSupport@acs-inc.com.
