## Printing ISIRs

The following information will assist the institution or state agency in printing the data on a received Institutional Student Information Record (ISIR):

- Assumed Values
- Correction Flags
- Highlight Flags
- Rejected ISIRs
- Comments
- Field Types

### Printing Assumed Values

“Assumed Values” reflect suppositions made by the Central Processing System (CPS) in determining the applicant’s Expected Family Contribution (EFC). Assumptions are made when certain information is not reported that is necessary for the EFC calculation or when reported information is inconsistent. (Some unreported information will result in a rejected transaction rather than assumptions.) The CPS uses the assumed value in place of the reported value when calculating the EFC.

For certain fields, the only assumption ever made by the CPS is zero. The ISIR will contain zeros for these assumption fields. (For example, ISIR field 247, Assumed Student’s U.S. Tax Paid.) On the ISIR, an asterisk (\*) must print to the left of the field title indicating an assumption was made. The assumed value must print in place of the reported value. If a field is both assumed and highlighted, an asterisk (\*) must be printed to the left of the field title. Positions 1311-1408 of the ISIR all contain CPS assumption fields.

## Printing Correction Flags

“Correction Flags” on the ISIR (positions 633-752 on the ISIR layout) indicate changes to FAFSA data processed by the CPS (refer to the SAR/ISIR Correction Flag table format). These fields are correctable and provide a comparison reference between the SAR question number and ISIR field positions. Any field containing a correction flag will have a value of 1. All other correction flag fields will each have a value of zero. A zero will always be carried on those fields that are not correctable. On the ISIR, a pound sign (#) must print to the right of the field variable that was corrected. Correction flags are cumulative (i.e., the flag will be carried on all subsequent transactions).

## Printing Highlight Flags

“Highlight Flags” on the ISIR (positions 753-872 on the ISIR layout) indicate data highlighted in bold face on the Student Aid Report (SAR), based on FAFSA data processed by the CPS (refer to the SAR/ISIR Correction/Highlight fields table format). These fields are highlighted and provide a comparison reference between the SAR question number and ISIR field positions. Any field containing a highlight flag will have a value of 1. All other highlight flag fields will each have a value of zero. On the ISIR, the letter ‘h’ must print to the left of the field title that was highlighted. If the field is both highlighted and assumed, an asterisk (\*) must print to the left of the field title.

## Rejected ISIRs

Applications and corrections submitted to the CPS, regardless of the input type or source, can be rejected for incomplete, illogical, or inconsistent data. An EFC will not be computed for a rejected application transaction. Transactions can be rejected for multiple reasons. Up to seven two-digit reject reason codes are carried on the ISIR. The reject reason codes and resolution in response to each reject reason are described in a table in the Processing Codes/System Requirements Section.

## Comments

Up to 20 three-digit numbers can appear on the ISIR record, indicating which comments would appear on Part One of a SAR from any paper application processor. Some comments contain critical information regarding the student’s status. The comment text and associated three-digit comment codes appear in the Processing Codes/System Requirements Section.

## Field Types

Fields can contain one of three types of data: character, numeric (N), or signed numeric (S/N). All 9s in a field indicate that the reported or calculated value is greater than or equal to the value of all 9s. Blanks are allowable in some S/N and N fields. With signed numeric fields, the sign is always implied in the right most character of the field. For example, if the Student's Adjusted Gross Income field contains a value of negative 3507, it would appear as 00350P. The following chart explains the conversion of the sign and the number:

Signed Numeric Fields:

{	+0	E	+5	}	-0	N	-5
A	+1	F	+6	J	-1	O	-6
B	+2	G	+7	K	-2	P	-7
C	+3	H	+8	L	-3	Q	-8
D	+4	I	+9	M	-4	R	-9

## Printing the ISIR

An ISIR must be printed according to the ED-specified format. You may develop your own software to print ISIRs. The ED-specified format and printing specifications are found on the following pages. One format will be printed per selected applicant, regardless of the student's dependency status.

The printed ISIR is two pages. Specifications for printing the ISIR follow the format. For each relevant data element, the specifications identify how codes on the record should be translated for printing on the ISIR. For example, if the Citizenship Status code on the ISIR record equals 1, "U.S. CITIZEN" must be printed for Citizenship Status.

---

**Note:** All signed fields will have an extra byte printed.

## Printing the Renewal Application

EDEExpress provides institutions with the ability to print Renewal Applications for returning students based upon 1999-2000 Renewal Application Data (RAD) received from the CPS. Institutions, however, may choose to develop their own software to print Renewal Applications.

The required format for the Renewal Application are provided to software developers and are found at the conclusion of this section. Specifications for printing the Renewal Application follow the format. For each relevant data element, the specifications identify how codes on the RAD record should be translated for printing on the Renewal Application. For example, if the Student's Marital Status code on the RAD record equals 2, "MARRIED" must be printed for the Student's Marital Status.

With two exceptions, all data printed on the Renewal Application will originate from the RAD file requested by the user from the CPS. The institution must print (1) its own name and (2) the Federal School Code in the upper left corner of the first page of the Renewal Application.

If an assumption was made during the 1999-2000 processing, the assumed value will be carried on the 2000-2001 RAD file and printed on the Renewal Application. There are 10 fields that can have an assumed value. Each of the 10 fields will have a one-position flag on the RAD record. If a flag is set to 1, an asterisk (\*) must print to the left of the appropriate field value on the Renewal Application, indicating the printed value was assumed. The 10 fields are noted on the print specifications that follow.

One format will be printed per selected applicant, regardless of the student's dependency status. The Renewal Application is four pages in length. Pages one through three display RAD from 1999-2000 and collect updates for 2000-2001. Page four is the Certification and Signature page.

Read this letter carefully and review each item on this Institutional Student Information Record (ISIR). You may submit corrections to the information by following the instructions given to you by your Financial Aid Administrator (FAA).

We need you to give us more information so that we can determine your eligibility for Federal student aid. REVIEW ALL OF THE INFORMATION on this Institutional Student Information Record (ISIR) and respond to each of the items that we marked with an "h" or an "\*". After making all necessary corrections, you and your spouse must return all documentation to your school. Your Financial Aid Administrator (FAA) will receive a new ISIR.

If you need help correcting your ISIR, contact your FAA for assistance, or call the Federal Student Aid Information Center at 1-800-4-FED-AID (1-800-433-3243).

Sort and print NSLDS Loan Detail information in ascending order by NSLDS Loan Sequence Number (01 through 12). Repeat the format shown in the following table for each NSLDS loan. Print this information for up to twelve NSLDS loans. Skip one line before printing the data for each NSLDS Loan. Print only five loans on the first NSLDS page.

If the entire Loan Detail Section does not fit on the first page, print the details for the loans that fit on the first page (keep the data for each loan together/print the details for each loan in groups of three lines). Then go to the next page and print the Loan Detail Section column headings (shown in the above table) under the header, skip a line, then print the remaining NSLDS loan data. Continue to skip a line between each loan.
