Introduction to Volume 4

The purpose of this publication is to provide participating schools with guidance on how to request, disburse, manage and report on the use of Federal Student Aid funds.

Here, we provide a summary of the changes and clarifications presented in greater detail in the chapters that follow. **Alone, the text herein does not provide schools with the guidance needed to satisfactorily administer the Title IV, HEA programs.** For more complete guidance, you should refer to the text in the chapters cited, the Code of Federal Regulations (CFR) and the Higher Education Assistance Act (HEA) as amended:

Throughout this volume, new information is indicated with the following symbol:

When the text represents a clarification rather than a change, it is indicated with this symbol:

When we believe that historically there might be some misunderstanding of a requirement, we indicate that with:

or

Finally, if we want to point out a bit of helpful information we indicate it with:

Major Changes

On February 8, 2006, the president signed The Higher Education Reconciliation Act of 2005 (HERA). Effective July 1, 2006, HERA established two new types of grants for certain Pell Grant-eligible college students:

1. The Academic Competitiveness Grant (ACG), and
2. The National Science and Mathematics Access to Retain Talent Grant (National SMART grant).

In addition, the HERA created a new category of eligible PLUS loan borrowers – graduate and professional students.

Chapter 1 – The MPN and the Stafford/PLUS Loan Process

- ☛ We explain that as a result of the HERA, for loans certified or originated on or after July 1, 2006, graduate and professional students are now eligible to borrow under the PLUS Loan Program in both the FFEL and Direct Loan programs.
- ☛ We have added a section explaining the processing of PLUS loans for graduate and professional students.
- ☛ We note the limitations on using the multi-year feature of the PLUS MPN at foreign schools.
- ☛ We explain what graduate/professional students must do in order to be eligible to apply for PLUS Loans.

Chapter 2 — Disbursing Federal Student Aid Funds

- ☛ We remind schools that a student begins earning Title IV funds on his or her first day of attendance, and that even if a student withdraws before a school's census date, the school must perform a Return calculation using the number of days or the number of scheduled clock hours the student attended class as the numerator in STEP 2, Part H.
- ☛ We remind schools that they must return funds disbursed to a student who failed to begin attendance immediately after discovering that he or she failed to begin attendance, and that a school may not ignore information available to any office at the school indicating that a student failed to begin attendance.
- ☛ We explain that the statutory provisions providing schools with low default rates leeway in disbursing Stafford loans have been restored.
- ☛ We explain what information a school must provide when it contacts a student before making a late disbursement of Title IV funds.
- ☛ We describe the flexibility schools have in contacting students before making late disbursements.

Chapter 3 – Requesting and Managing FSA Funds

No major changes.

The MPN and the Stafford/ PLUS Loan Process

CHAPTER 1

In this chapter, we'll cover the process of making a loan, describing the actions and information required of the borrower, parent, and school. The order of the elements that we list below may vary from school to school or between the FFEL and Direct Loan programs, but each of the elements is required to make a loan.

The Higher Education Act of 2005 (HERA) made a number of changes to the terms and conditions of Stafford and PLUS loans. Until revised Stafford and PLUS Master Promissory Notes (MPNs) reflecting the changes made by the HERA are developed, promissory note addenda explaining the HERA changes must be used with the current Stafford and PLUS MPNs. In addition, the Stafford and PLUS Plain Language Disclosures (PLDs) have been revised to explain the HERA changes to borrowers receiving loans made under previously signed MPNs.

For additional information on the use of the promissory note addenda and revised PLDs, as well as copies of these documents, refer to DCL FP-06-05 for the FFEL Program, and to the Electronic Announcement posted on 05/19/2006 that can be found at

<http://www.ifap.ed.gov/eannouncements/0519HERAOPSGUIDEPNOTE.html>

STUDENT APPLIES FOR AID & COMPLETES MPN

A student who wishes to receive a Stafford Loan must complete a Free Application for Federal Student Aid (FAFSA) and a Master Promissory Note (MPN). Depending on the lending program, a student may obtain an MPN from a school, a lender, guaranty agency or the Department. Because an MPN can be used to make multiple loans for multiple years of borrowing, the loan amount and loan period are not reported on the MPN.

In the traditional paper process, a Stafford MPN might be completed at the school by the student and submitted to the lender or school. In other cases, the school certifies or originates the loan based on the student's acceptance of the aid package, and the lender, the school or ED sends the MPN to the student for his or her signature. Regardless of the method used, the *Borrowers' Rights and Responsibilities Statement* must be provided to the student with the MPN.

Paper copies of MPN

Copies of the Master Promissory Note are provided to borrowers and schools by lenders and guarantors (for FFEL) or the Department (for Direct Loans). Ordering instructions for Direct Loan schools are posted under "Publications and How to Order" on the Schools Portal (fsa4schools.ed.gov).

Cites
 FFEL: 34 CFR 682.401(d)
 DL: 34 CFR 685.402(f) and definition of *Master Promissory Note* 34 CFR 685.102.

For your reference, sample copies of the MPN and related materials are available online :

FFEL Stafford Loan

 Direct Stafford and PLUS loans
<http://www.ed.gov/DirectLoan/mpn.html>
 DL MPN on the Web
<http://dlenote.ed.gov>

Power of Attorney completing the MPN

A third party with *power of attorney* for the borrower may sign the promissory note if the borrower is unable to sign. Use of a power of attorney when signing an MPN limits the use of the MPN to one loan. If the borrower submits his or her MPN through the school, the school must retain a copy of the original power of attorney and submit a copy of the power of attorney with the MPN to the loan holder. A photocopy or a fax of the power of attorney is acceptable.

If the note is signed with a power of attorney, the student must authorize the school in writing to credit the loan funds to his or her account at the school. In addition, the school must pay any remaining balance to the student for living expenses.

See Chapter 3 for further discussion of ED approval needed to use a power of attorney for disbursements.

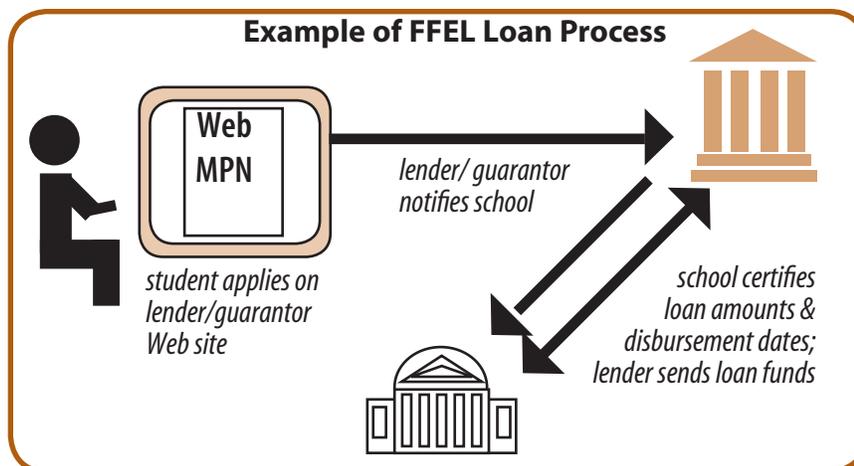

Schools may also offer borrowers the option of completing and signing an electronic MPN. (Note, however, that schools may not require borrowers to use an electronic MPN. A borrower who wishes to complete a paper MPN must be given that option.) In most cases, the promissory note will be completed through a Web site, and the organization operating the site will be responsible for authenticating the borrower and obtaining the borrower's electronic signature. In the Direct Loan program, you can notify ED if you want it to accept electronic promissory notes for your school, and whether you want ED to only accept electronic promissory notes for borrowers who have an origination record from your school. Student and parent borrowers can log onto the Web and complete the MPN for Direct Stafford and PLUS loans at

<http://dlenote.ed.gov>.

If your school participates in the FFEL program, you should make arrangements with participating lenders or another intermediary (such as a guarantor Web site or ELM) for the receipt of electronic documents.

In the FFEL program, electronic completion of the MPN does not always include electronic signatures. A school or borrower could require/insist upon "wet" signature even if the MPN is otherwise completed electronically. In the Direct Loan Program, a borrower who wishes to complete an electronic MPN must sign the MPN electronically. If a school or borrower does not want an MPN signed electronically, a paper MPN must be completed.

If a borrower is completing and signing the promissory note at a Web site, using the Department's PIN or an alternate signature process provided by the intermediary's Web site, the *Borrowers' Rights and Responsibilities* statement must be incorporated into the electronic process. In most cases, the intermediary operating the Web site will notify you when a student completes the promissory note online and designates your school.

Required borrower information on MPN

The MPN collects identifying information for the borrower, including name, permanent address, date of birth, Social Security Number, driver's license number and two references with U.S. addresses. Some of this information may be preprinted on the MPN. The borrower must read, sign, **and date** the MPN.

In completing the FFEL MPN, the borrower must also provide the name of a lender. As a convenience, many schools give their borrowers a list of lenders who have made loans to students at the school. However, a **borrower has the right to choose his or her lender, even if that lender is not one that the school has previously used and a school may not refuse to certify a loan based on a borrower's choice of lender or guarantor.** (Section 432(m)(1)(B) of the HEA.)

Using the MPN for multiple loans within an academic year

Note that the MPN may be used to make multiple loans within the same academic year. Even schools that are not authorized or choose not to use the multi-year feature of the MPN can make more than one loan under an MPN within the same academic year.

Important

Special notes about Direct PLUS MPNs for graduate/professional borrowers:

Graduate and professional borrowers completing a Direct PLUS master promissory note (MPN) electronically should select **Complete New MPN for Student Loans** on the left-hand side of the page on the Direct Loan eMPN Web site (www.dlennote.ed.gov) then choose the Graduate PLUS option.

Graduate and professional borrowers completing a paper Direct PLUS MPN do not have to complete the U.S. Citizenship Status box, Question 7, in Section A of the form.

MULTI-YEAR USE OF THE MPN & WHEN A NEW MPN IS REQUIRED

The MPN, when used as a multi-year document, enables student and parent borrowers to get additional loans without having to sign a new MPN.

There are several circumstances that require a borrower to complete a new MPN. A new MPN is required if the borrower's lender (for an FFEL) changes, unless the lender changes as a result of a merger or acquisition. A new MPN is also required in certain transfer situations where:

- the borrower transfers to a school that is not eligible to use, or chooses not to use, the multi-year feature of the MPN.
- the borrower transfers from an FFEL school to a Direct Loan school, and there's no valid Direct Loan MPN on file with ED. Similarly, a borrower would need a new MPN if transferring from a Direct Loan to an FFEL school, unless there is a valid MPN on file with the lender that the borrower uses. (New MPNs would also be required if the school itself changes from using DL to FFEL or vice versa.)

Lender of Last Resort

A student who is otherwise eligible for a subsidized Stafford loan and, after not more than two rejections, who has been unable to find an FFEL lender willing to make such a loan, should contact the guaranty agency in his state of residence or the guaranty agency in the state in which his school is located. The guaranty agency either must designate an eligible lender to serve as a lender of last resort (LLR) or must itself serve in that capacity and must respond to the student within 60 days. An LLR cannot make a loan that exceeds the borrower's need, and it is not required to make a loan for an amount less than \$200. The LLR, as with any other lender, may refuse to make the loan if the borrower fails to meet the lender's credit standards.

Each guaranty agency is required to develop rules and procedures for its LLR program.

- a school's lender requests that a school no longer use the multi-year feature of the MPN.

Also, borrowers may request their MPN be an annual MPN, or may request that no additional loans be made using their current multi-year MPN. Requests that no additional loans be made using current multi-year MPNs must be in writing.

In some cases, a new MPN will have to be executed because the maximum period for use of the MPN has expired. At Direct Loan schools, additional loans may no longer be made under an MPN after the earlier of:

1. the date ED or the school receives the borrower's written notification that no further loans may be made;
2. if no disbursement is made during the 12-month period, one year after the date ED received the MPN; or
3. ten years after the date ED received the MPN. If a portion of a loan is made on or before the 10-year limit, remaining disbursements of that loan can be made.

Lender of last resort cite

34 CFR 682.401(c)

Note: Although the Direct Loan Program regulations allow the second and third expiration conditions to be based either on the date the borrower signed the MPN or the date COD receives the MPN, COD currently uses the date the MPN is received.

Declining the use of the multi-year MPN

Schools are not required to use the multi-year feature of the MPN. You may decide that you want some or all of the borrowers at your school to sign a new MPN each year. If this is the case, you should notify your lenders. (Also note that lenders have the option to require a new MPN for each loan.) If you're at a Direct Loan school and don't want to use the multi-year feature for any of your students, contact the COD School Relations Center. See Direct Loan Bulletin DLB-03-02.

Student loan borrowers may decline to use the multi-year feature of the MPN. Borrowers may also cancel authorization for subsequent loans to be made under an MPN after the first loan is made by notifying the school or lender (for FFEL) in writing. Direct Loan borrowers may send their written notification to the Direct Loan Servicing Center (DLSC) or to their school to forward to COD. The effective date is the date the school, lender, COD, or DLSC receives the written cancellation request. If the borrower cancels the multi-year authorization on a loan that has not been completely disbursed, the school may make remaining disbursements on existing loans, unless the borrower tells the school to cancel or adjust the disbursements. To obtain additional loans, the borrower will need to complete a new MPN.

At FFEL Program schools, additional loans may no longer be made under an MPN after the earlier of:

1. the date the lender receives the borrower's written notification that no further loans may be made;
2. if no disbursement is made during the 12-month period, one year after the date the borrower signed the MPN; or
3. ten years from the date the student signs the MPN. If a portion of a loan is made on or before the 10-year limit, remaining disbursements of that loan can be made.

A crucial step in multi-year use of the MPN is the confirmation process. Confirmation helps the student or parent maintain control over the borrowing process. The confirmation process will be discussed in the next chapter, along with other notifications and authorizations associated with disbursing FSA funds. Schools (DL) or schools and lenders (FFEL) must develop and document a confirmation process to ensure that the borrower wants subsequent loans. The confirmation process may be designed to be part of the required notices and disclosures that already exist, or it may be a separate process that supplements those notices and disclosures.

To help ensure student borrower control over the borrowing process, a student borrower must accept, either actively or passively, the loan amount offered.

- **Active confirmation** — the school does not disburse the loan until the borrower either affirmatively requests or accepts the proposed loan type and amount or requests changes to the proposed loan package.
- **Passive confirmation** — the school does not disburse the loan until the borrower is notified of the proposed loan package and the time given to the borrower to respond has elapsed. (The notification can come from the school, lender and/or guarantor.) The borrower only needs to take action if he or she wants to decline the loan or make adjustments to the type or amount of the loan.

For example, your school's award letter may be used as part of either an active or passive confirmation process. For active confirmation, the borrower would be asked to confirm the loan amount offered by responding to your school's offer. For passive confirmation, the borrower would be asked to respond only if he or she wanted to cancel or reduce the loan amount offered.

Consumer information for the borrower

Borrowers need to be fully advised on the costs and responsibilities of borrowing.

Accordingly, the law requires that the borrower receive the following information:

1. At the same time as the MPN, a **Borrower's Rights and Responsibilities Statement**.
2. At or prior to the first disbursement, a disclosure statement with specific information about that borrower's loans (usually provided by the lender or by COD).
3. For any subsequent loans provided under an existing MPN, a **Plain Language Disclosure** (PLD) provided by the lender or ED. (The PLD is an abbreviated version of the **Borrower's Rights and Responsibilities Statement** that was provided along with the MPN.)

Some of this information should be reviewed with the borrower as a part of entrance and exit counseling (see *Volume 2, School Eligibility and Operations*).

ESTABLISHING A CONFIRMATION PROCESS FOR YOUR STUDENTS

As long as regulatory requirements and the Department's guidelines are met, schools, lenders, and guarantors are free to establish their own confirmation process — for example, a process that combines elements of active and passive confirmation and/or a shared responsibility among the school, lender and/or guarantor. Schools and the lending community have considerable discretion in setting up these processes, including the timing of confirmation, provided the goals of the confirmation process are accomplished.

For example, confirmation could take place when students apply for aid, when aid is packaged, when loan funds are disbursed or at some other appropriate time. The confirmation process could cover the entire loan for the academic year or loan period or, instead, could require that the student confirm each loan disbursement. DCL GEN 98-25 provides examples of each of these confirmation approaches.

The most effective processes will likely vary among schools. Participants are encouraged to use and test various technologies in this process. Some technologies suggested include the Internet, email, card technologies and voice response.

Generally, schools (in both the Direct Loan and FFEL programs) should use the same confirmation process for all borrowers. However, in some cases, a school may want to establish more than one confirmation process to accommodate existing administrative procedures, or because the school believes that it can best inform borrowers of their loan obligations if it uses different confirmation processes for different groups of students. For example, a school could have a policy that requires active confirmation for undergraduate students and passive confirmation for graduate students.

Regardless of the process(es) used, schools and FFEL lenders must document their confirmation procedures. A school (and lenders in the FFEL Program) must retain a description of the process(es) in effect for each academic year in which it makes second or subsequent loans under MPNs. The documentation of the process may be kept in paper or electronic format and need not be kept in individual borrower files. The documentation must be kept indefinitely, because it must be submitted to the Department, upon request, if a borrower challenges the enforceability of a loan.

We recommend that schools include a description of the confirmation process in their student consumer information just as they do for other school policies, such as refunds and academic progress.

Changes due to the HERA

As a result of the HERA, for loans certified or originated on or after July 1, 2006, graduate and professional students are now eligible to borrow under the PLUS Loan Program in both the FFEL and Direct Loan programs. Note that the HERA did not create a new loan program, it made a new group of borrowers eligible to participate in the existing loan program.

Note on terminology

Unless otherwise noted, the terms **PLUS** and **PLUS borrower** refers to both parent and graduate/professional PLUS borrowers.

PLUS MPN

Parents and graduate/professional students applying for a PLUS loan must complete a PLUS Application and Master Promissory Note. All student PLUS borrowers must complete a FAFSA. A parent borrower must complete a FAFSA if required by their child's school. All PLUS borrowers must receive the *Borrowers' Rights and Responsibilities Statement* with the loan application.

Note: Loan counseling requirements do not apply to PLUS borrowers.

At U.S. domestic schools a parent may obtain additional loans for the same dependent student based on the original MPN for up to 10 years after the date the parent first signed it under the same conditions discussed for the Stafford Loan MPN under *Multi-year use of the MPN* and *When a new MPN is required*. A separate PLUS MPN is required for each dependent student, or if both parents want to borrow individually on behalf of the same student. A new PLUS MPN would also be required under the same conditions discussed for the Stafford Loan MPN under *Multi-year use of the MPN* and *When a new MPN is required*. A graduate or professional student PLUS borrower may also obtain additional loans under the original MPN for up to 10 years after the date the MPN was signed.

If a graduate or professional student PLUS borrower is also a parent who is borrowing a PLUS Loan for one or more dependent students, the borrower must sign one PLUS MPN to borrow for himself/herself and a separate PLUS MPN to borrow for each dependent student. As with parent PLUS borrowers, a student PLUS borrower may choose to sign a new PLUS MPN for each new PLUS loan even if that would not otherwise be required. A school or lender may also require a new PLUS MPN for each new PLUS loan.

PLUS MPN approval for foreign schools

Foreign schools must get approval from ED to be able to use the multi-year feature of the PLUS MPN. If the foreign school does not have this approval, the parent will have to sign a new PLUS MPN for each new loan period.

Grad PLUS MPN at foreign schools

A graduate or professional student attending an eligible foreign institution will only be able to use the multi-year feature of the PLUS MPN if the school has been expressly approved by the Department to have its student and parent borrowers do so. No eligible foreign institution is approved for this purpose at the current time. As a result, until the Department approves foreign institutions for this purpose, a graduate or professional student PLUS borrower attending an eligible foreign institution will need to sign a new PLUS MPN for each new loan period.

Establishing Grad/Professional Eligibility

The terms and conditions applicable to Parent PLUS Loans also apply to Graduate/Professional PLUS loans. These requirements include a determination that the applicant does not have an adverse credit history. In order to establish eligibility to apply for graduate/professional PLUS Loans students must also –

- complete a Free Application for Federal Student Aid (FAFSA); and
- apply for the annual loan maximum eligibility under the Federal Subsidized and Unsubsidized Stafford Loan Programs.

Note that a graduate or professional student is not required to receive Federal Stafford Loan funds as a condition for receiving a Federal PLUS Loan, and a school may not require a graduate or professional student to receive Federal Stafford Loan funds before the student may apply for a Federal PLUS Loan.

PLUS borrower certification

Because a parent or graduate/professional student may borrow up to the student's cost of attendance minus other estimated financial assistance for the loan period, it is especially important that the parent or student borrower specify the amount that he or she wants to borrow. Each school and lender must establish and document the process by which one of the parties will collect the requested loan amount from PLUS Loan borrowers. A PLUS loan may not be made for more than the amount the borrower requests.

Your school must collect this information before certifying the PLUS Loan and may use various means such as the PLUS Certification form (for FFEL – see sidebar), a borrower response section on your financial aid award letter, a separate PLUS form, documented telephone or electronic requests or other means. If your school participates in the FFEL program, you may also make arrangements with FFEL lenders for them to collect this information from PLUS borrowers before approving the loan.

Whether your school or the lender collects the information, you must establish and document how the PLUS borrower's loan amount request will be collected. You (or the lender) also must maintain a record of any requests by the borrower (in writing, by phone or electronically) for any adjustment to the loan amount.

For parent PLUS applicants, before certifying the loan, you must determine the Title IV eligibility of the dependent student on whose behalf the parent is borrowing. Moreover, because a parent may not borrow on behalf of a student who is ineligible for Title IV aid, for a parent PLUS

PLUS Certification Form (FFEL only)

The Department has developed a paper *Federal PLUS Loan Information and School Certification* (PLUS Certification form) to be used by FFEL schools that do not complete loan certification electronically. This form was approved as part of the PLUS MPN documents package and is printed and distributed by lenders and guaranty agencies.

The PLUS Certification form includes a *Borrower and Student Information* section. If you elect to secure the loan information and initiate the process, you may send the Certification form to the borrower for completion of the borrower/student information. Alternatively, if the lender or guarantor secures this information, the borrower/student section would be pre-filled and you would only secure the borrower's signature and provide the school certification data.

Loan, you must not certify the application until you have obtained the dependent student's complete financial aid history. Also, when certifying a parent PLUS loan, you must certify the dependent student's enrollment status and anticipated completion/graduation date.

Your school must confirm the student's dependency status when determining whether a parent is eligible to borrow under the PLUS Program or the dependent student is eligible for additional unsubsidized Stafford loan limits.

If your school participates in the FFEL program and is eligible to use the multi-year PLUS MPN, the borrower's PLUS Loan request for subsequent years is sufficient documentation to make additional loans—there is no separate confirmation process for PLUS loans—but the PLUS borrower's PLUS Loan amount request must be secured for each loan made using an MPN. Direct Loan schools using the PLUS Loan MPN as a multi-year note are required to have an active confirmation process.

Adverse credit history & use of endorser

To borrow a PLUS Loan, the applicant must not have an adverse credit history. Adverse credit is defined in the regulations as the applicant being 90 days or more delinquent on a debt or having been subject in the last five years to a default determination, bankruptcy discharge, foreclosure, repossession, tax lien, wage garnishment or write-off of an FSA debt. The absence of any credit history is not considered adverse credit. FFEL lenders may establish more restrictive credit standards for determining adverse credit.

When determining whether a PLUS borrower is ineligible for a PLUS Loan based on an adverse credit history, the lender, or the Department for Direct Loans, must obtain a credit report on the parent from at least one national credit bureau. To provide a more accurate determination of adverse credit, the report must be obtained within a timeframe reasonably related to the loan period. If the PLUS borrower requests additional funds for an existing loan period (resulting in a loan amount adjustment, not a new loan), the lender is not required to obtain a new credit report, but may elect to do so.

If a PLUS borrower has an adverse credit history, the applicant has the option of receiving a PLUS Loan using an endorser who does not have an adverse credit history. If an endorser will be used, a separate Endorser Addendum is required for each PLUS Loan. Any loan that requires an endorser must be made under a new PLUS MPN, with a new Endorser Addendum, because the endorser is liable only for the specific loan or loans he or she has agreed to endorse. The Endorser Addendum includes the requested loan amount. Any increase in the requested loan amount by the parent borrower must be approved by the Endorser and requires a new MPN and Endorser Addendum.

Additional eligibility for dependent students whose parents cannot borrow PLUS

If a dependent student's parents have not been able to borrow a PLUS loan, the student may be eligible for higher unsubsidized Stafford borrowing limits. See *Volume 3, Chapter 4*.

SCHOOL CERTIFIES/ORIGINATES A STAFFORD LOAN

School Responsibilities

Certifying an FFEL:
34 CFR 682.603
Originating a Direct Loan:
34 CFR 685.301

The school's primary responsibility in the loan application process is to certify that the borrower is eligible for the loan amounts requested based on annual and aggregate loan limits. In addition, if your school initiates or receives an MPN, it must ensure the completeness and accuracy of the MPN based on information it has available to it.

In Direct Loans, the certification information is part of the loan origination record sent electronically through COD. An FFEL school may submit the certification to the lender electronically or on the paper Federal Stafford Loan School Certification form. You must provide this certification each time you make a loan under an MPN.

Certifying eligibility

You must certify that a student is an eligible borrower (see *Volume 1—Student Eligibility*). The school's certification also includes the borrower's grade level, loan period and the amounts of the disbursements (using the rules described in *Volume 3, Chapter 4*), as well as the borrower's enrollment status and anticipated completion/graduation date.

For Stafford loans, if a student previously attended another college, check the student's financial aid history on NSLDS before disbursing funds to ensure that the student has remaining eligibility under the maximum loan limits. (See the discussion of annual and aggregate loan limits in *Volume 3, Chapter 4*.)

Schools are no longer required to provide need analysis information to the lender. However, you must document the student's cost of attendance, Expected Family Contribution and estimated financial assistance in the student's file. This information must be made available to the lender, the guarantor or the Department upon request.

You may not certify a loan for more than the:

- amount the borrower requests,
- borrower's unmet financial need (see *Packaging* in *Volume 3, Chapter 6*),
- borrower's cost of attendance, or
- borrower's maximum borrowing limit (as discussed in *Volume 3, Chapter 4*).

Certification Options During Verification

If you have reason to believe that the information included on the FAFSA is inaccurate, you may not certify, originate or disburse a Stafford Loan for the student until he or she verifies or corrects the information.

If you have no reason to believe that the information included on an application is inaccurate prior to verification, regardless of whether ED-selected or school-selected, you have the option of certifying or originating a Stafford Loan, but the loan funds may not be disbursed until verification has been completed.

Cite
34 CFR 668.58

If a subsidized Stafford Loan applicant has been selected for verification, whether by ED or the school, you may wait until verification has been completed to certify/originate the Stafford Loan, or you may certify/originate if there is no information that conflicts with that provided by the applicant. If you choose to certify/originate the loan without waiting for verification, you may not credit the loan funds to the borrower's account or pay the borrower directly until verification has been completed.

Refusing to originate or certify a loan

On a case-by-case basis, you may refuse to certify/originate the loan for a borrower. Similarly, you may certify/originate a loan for an amount less than the borrower's maximum eligibility. However, you must ensure that these decisions are made on a case-by-case basis, and don't constitute a pattern or practice that denies access to borrowers because of race, sex, color, income, religion, national origin, age, handicapped status or selection of a particular lender or guarantor. Also note that your school cannot engage in a practice of certifying Stafford loans only in the amount needed to cover the school charges, or to limit unsubsidized Stafford borrowing by independent students.

When you make a decision not to certify/originate a loan or to reduce the amount of the loan, you must document the reasons and provide the explanation to the student in writing.

A financial aid administrator should be aware of the responsibility incurred in certifying/originating a loan. **The school, not the lender, determines the student's or parent's eligibility for a Stafford or PLUS Loan.** (An eligible foreign school is also responsible for determining eligibility, although such schools may contract with a guaranty agency or a consultant for assistance.) Schools that certify/originate loans for ineligible borrowers, or for loan amounts that exceed loan limits or the borrowers's need, are subject to administrative actions such as a fine, limitation, suspension and termination, as well as liabilities such as repayment to the government of interest and special allowance costs it has paid on the ineligible loans.

**Authority to refuse to originate/
certify a loan cite**

FFEL 34 CFR 682.603(e)

Direct Loans 34 CFR 685.301(a)(7)

Checklist for Loan Certification

For all Stafford and PLUS Loan applications, the school must:

- confirm that the student (and parent) meet the definition of eligible borrower, including –
 - ✓ determining the student’s enrollment status and satisfactory academic progress status,
 - ✓ reviewing the NSLDS information on the ISIR to ensure that the student (or both the student and parent in the case of a PLUS Loan) is not in default on any FSA loan and does not owe a refund on any FSA grant or scholarship and will not exceed the annual or aggregate loan limits applicable to the borrower,
- ensure that the amount of the loan, in combination with other aid, will not exceed the student’s financial need or the annual or aggregate loan limit.

For a Stafford Loan, the school must also:

- determine the student’s Pell Grant eligibility (for a subsidized Stafford Loan, the need analysis must use an official EFC calculated by the Department to determine the student’s financial need), and if eligible, include the grant in the student’s aid package,
- for an unsubsidized Stafford Loan, first determine the student’s eligibility for a subsidized Stafford Loan,
- prorate the Stafford annual loan limit for an undergraduate enrolled in a program of study that is shorter than an academic year, or a remaining period of study that is less than an academic year in length, and
- ensure that the loan disbursement dates meet the cash management and disbursement requirements for Stafford Loans.

Pushed cash schools must return funds

In general, a school may use the federal cash it draws down for any eligible student. However, all cash that ED sends to a school through the pushed cash method are student specific. They are intended solely for disbursement to the students specified on the *Funded Disbursement Listing* report.

If you do not disburse the funds to the intended recipients (on the *Funded Disbursement Listing Report*), you must return those funds as excess cash to ED.

SCHEDULING LOAN DISBURSEMENTS

Time frame for disbursing or returning loan funds

Though based on different regulatory requirements, when a school receives Direct Loan cash from the Department or FFEL cash through electronic funds transfer (EFT) the school must disburse the funds within three days or return the funds to the Department or the lender as appropriate.

Submission of Direct Loans award & disbursement data

Schools to which ED pushes cash do not request funds directly through GAPS. COD pushes funds (automatically sends electronic payments) through GAPS to these schools based on disbursement records submitted and accepted by COD. Similarly, schools on Reimbursement or Heightened Cash Management do not request funds directly through GAPS. These schools receive funds based on disbursement records accepted by COD and approved by a reimbursement analyst.

Schools that receive funds through the Advanced Payment method must request funds directly through GAPS. Advance Pay schools are not required to submit disbursements prior to requesting funds. These schools receive an initial Current Funding Level (CFL) against which they can draw funds. As these schools submit disbursement records that substantiate the school's drawdowns in a timely manner (within 30 days of the disbursement date) the school's CFL will increase to a level that should allow the school to request the funds it needs to make its scheduled Direct Loan disbursements.

In order to comply with the excess cash regulations, when requesting funds with which to make Direct Loan disbursements, schools must ensure they do not draw down more cash than they can disburse over the next three days.

Scheduling FFEL disbursements with a lender

The rules for when loan payments can be disbursed to borrowers are discussed in Chapter 2 of this volume. Once the anticipated dates of the disbursement to the borrower have been established, you can specify to the lender the dates on which you need to receive the loan funds. (In the certification process, the term “disbursement” usually refers to the transfer of funds from the lender to the school, but for purposes of the Handbook, we use the term when referring to the school's payment of funds to borrowers.)

In keeping with the standard 3-day turnaround time for payment of FSA funds to students, the Cash Management regulations stipulate that a school cannot ask the lender to provide the Stafford or PLUS loan funds via EFT or master check any sooner than 3 days before the earliest date that it is allowed to pay the funds to borrowers. Note that this rule parallels but is not the same as the excess cash rule at 34 CFR 668.166.

If you are requesting a check that requires the endorsement of a borrower, you may not ask the lender to provide the check any sooner than 30 days before it could be disbursed. (See sidebars.)

FFEL Lender/guarantor approval

The lender or guarantor will match the information included by the school on the certification (electronic or paper) to the MPN by comparing the borrower's identifying information. The lender or guarantor should check the permanent address information on the MPN to see if it has changed. The school must supply the borrower's cost of attendance, EFC and estimated financial assistance to the lender or guarantor upon request.

FFEL three-day rule

34 CFR 668.167(b)(2)

Requesting check from a Stafford lender that requires endorsement of the borrower

A school may not request a lender to provide it with Stafford loan funds earlier than:

- The first day of classes of the first payment period for a 1st-year, 1st-time Stafford borrower, or
- 30 days before the first day of classes for any subsequent payment period for a 1st-year, 1st-time Stafford borrower or for any payment period for all other Stafford borrowers.

PLUS: A school may not request a lender to provide it with PLUS loan funds earlier than 30 days before the first day of classes for any payment period.

Cite

(34 CFR 668.167)

Requesting EFT or master check from lender

Stafford: A school may not request a lender to provide it with Stafford loan funds earlier than:

- 27 days after the first day of classes of the first payment period for a 1st-year, 1st-time Stafford borrower, or
- 3 days before the 1st day of classes for any subsequent payment period for a 1st-year, 1st-time Stafford Loan Program borrower or for any payment period for all other Stafford borrowers.

PLUS: A school may not request a lender to provide it with PLUS loan funds earlier than 13 days before the first day of classes for any payment period.

(34 CFR 668.167)

Blanket Agreements for Guaranty Approval

A lender must receive guaranty agency approval for an FFEL in order for the lender to disburse the loan and, if applicable, be eligible for payment of federal interest benefits. Under the 1998 Amendments, a guaranty agency may offer eligible lenders participating in the agency's guaranty program a blanket guaranty that permits the lender to make loans without receiving prior approval from the guaranty agency for individual loans.

Cite
Section 428(n) of the HEA

The lender will also check to make sure that the school is eligible to use the multi-year feature of the MPN. If a borrower transfers to an eligible foreign school that is not eligible to participate in the multi-year process and continues to use the same lender, the lender is responsible for obtaining a new signed MPN for each loan at the new school.

An FFEL lender is prohibited from discriminating against an applicant on the basis of race, national origin, religion, sex, marital status, age or disabled status. However, a lender may decline to make loans to students who do not meet the lender's credit standards or to students at a particular school because of the school's default rate, or to students enrolled in a particular program of study. A lender may decline to make FFELs for less than a specified amount; for example, a lender could refuse to make a loan for less than \$500.

Once guaranty agency approval is obtained and the lender has determined that it has an active MPN for the borrower, the lender will send Stafford loan funds to your school in the appropriate amount for each disbursement to the borrower or parent. At the request of the borrower, the lender will send the funds directly to the borrower if he or she is enrolled in a foreign school. For a PLUS, loan funds are sent in at least two disbursements to the school by EFT or by a check made copayable to the school and the parent borrower.

Review of the Stafford MPN Process

The process for completing the MPN for a Stafford Loan and making the initial loan includes the following elements, though the process may be a bit different for the FFEL and Direct Loan Programs and some school and lender procedures may be in a slightly different order.

Student Applies for Aid.

The student fills out the FAFSA (or a renewal FAFSA) and an MPN for the initial loan.

School Determines Eligibility and Loan Amount.

The school confirms the student's eligibility for federal student aid, determines the loan period and loan amount and packages the loan(s) requested.

Certification/Origination.

For FFEL loans, the school certifies the student's loan eligibility. For Direct Loans, the school originates the loan

- In the FFEL Program, the loan is approved by the lender or guaranty agency.
- In the Direct Loan Program, the school submits an origination record to COD and receives an acknowledgment from COD.

Student completes MPN.

The student fills out an MPN for the initial loan.

- The Borrower's Rights and Responsibilities Statement must be given to the borrower with the MPN.

Disclosure & Entrance Counseling.

Either before or at the time of the first disbursement, the borrower must be given a disclosure statement with specific information about the types of loans the borrower is getting, anticipated disbursement amounts, anticipated disbursement dates and instructions on how to cancel the loans. (The disclosure is often provided by the lender or COD.)

- First-time Stafford borrowers must complete entrance counseling before a disbursement can be made. (See Volume 2, chapter 6.)

Disbursement to the Borrower.

The school (after checking that the borrower is still eligible) disburses the loan funds to the student's account or directly to the borrower, and notifies the borrower of each disbursement. (See chapter 2 of this Volume.)

☛ Making Subsequent Loans.

If the MPN is used as a multi-year note, a new MPN is not required for subsequent loans. However, your school must use a confirmation process (either active or passive) for subsequent loans, and the borrower must receive a Plain Language Disclosure, at or prior to the disbursement of any subsequent loans provided under an existing MPN. (The Plain Language Disclosure is usually sent to the borrower by the lender or COD.) If the MPN is not used as a multi-year note, a borrower completes a new MPN for each subsequent loan period.

Copies of the Master Promissory Note are provided by lenders, guarantors or the COD to borrowers and schools. For your reference, sample copies of the MPN and related materials are available online :

FFEL Stafford Loan MPN: <http://ifap.ed.gov/dpclatters/GEN0207.html>

Direct Stafford Loan MPN: <http://www.ed.gov/DirectLoan/mpn.html>

Disbursing Federal Student Aid Funds

CHAPTER 2

These rules apply to the following programs: Pell Grant, ACG, National SMART Grant, FSEOG, Perkins Loan, Direct Loan, FFEL. We have indicated when a rule applies to FWS. This chapter will discuss the rules for crediting Federal Student Aid (FSA) funds to the student's account and making direct disbursements to the student or to the parent (PLUS), with provisions for early disbursements, delayed disbursements and late disbursements.

NOTIFICATION OF DISBURSEMENT

A school must notify a student of the amount of funds the student and his or her parent can expect to receive from each FSA program, including FWS, and how and when those funds will be disbursed. This notification must be sent before the disbursement is made. If the funds include a Stafford Loan (whether Direct Loan or FFEL), the notice must indicate which funds are from subsidized loans and which are from unsubsidized loans. A school must provide the best information that it has regarding the amount of FSA program funds a student can expect to receive. Because the actual disbursements received by a student may differ slightly from the amount expected by the school (due to loan fees and rounding differences), you may include the gross amount of the loan disbursement or a close approximation of the net disbursement amount.

A school must also notify the student or parent in writing (in writing means on paper or electronically) when Perkins, Stafford or PLUS loan funds are being credited to a student's account. This notification must be sent no earlier than 30 days before and no later than 30 days after crediting the student's account. The notification must include the:

- date and amount of the disbursement,
- student's (or parent's) right to cancel all or part of the loan or disbursement, and
- procedures and the time by which the student (or parent) must notify the school that he or she wishes to cancel the loan or disbursement.

Note that in the case of FFEL loan funds received from a lender by a means other than EFT payment or master check, the notice to the student or parent need not include information on the right of the student or parent borrower to cancel all or a portion of the loan. This is because

CHAPTER 2 HIGHLIGHTS

- ❖ **Notifications & Authorizations**
 - notification of disbursement
 - required student/parent authorizations
 - notification/authorization by electronic means
- ❖ **Method of disbursement**
 - credit to student's account (school may hold credit balance if authorized)
 - disbursement directly to student or parent
- ❖ **Disbursement rules**
 - timing of multiple disbursements
 - FWS students must be paid at least once a month
 - funds may be disbursed up to 10 days before classes begin (in most cases)
 - disbursements to 1st-time, 1st-year Stafford borrowers must be delayed 30 days
 - requirement to successfully complete coursework in clock-hour and nonterm credit-hour and certain nonstandard term credit-hour programs
 - school may make unequal FSEOG/Perkins disbursements to meet uneven costs
 - under certain conditions, late disbursements must be made to students
- ❖ **Prompt disbursement rules**
 - usually 3 day timeframe for school to disburse to student/parent after receiving funds
 - exception: school may delay returning Stafford/PLUS funds to lender in some cases
 - exceptions in case of verification
- ❖ **Related topics**
 - See *Volume 3* and *Volume 5*, chapter 2 for information on Post-Withdrawal Disbursements
 - See *Volume 4*, chapter 1 for information on loan disclosure statement (usually provided by lender or COD)
 - See *Volume 5* for discussion of payment periods if student reenters a program after withdrawing.

A note on terminology

Traditionally, the FFEL regulations have referred to the lender's disbursement of funds to the school, and the school's "delivery of the loan proceeds" to the student. More recently, the Cash Management regulations have used the term disbursement to refer to the payment of FSA funds to the student or parent, including the payment of loan funds.

In this chapter, we will use disbursement in the sense of the Cash Management regulations, that is, payment to the borrower.

Borrower notification via email

If you are notifying the student of the next disbursement by electronic mail or other electronic means, you are encouraged to follow up on any electronic notice for which you receive an "undeliverable" message.

Proration of loan fees for returned FFEL funds

Anytime a school returns an FFEL disbursement or any portion of an FFEL disbursement to a lender, the origination fee and insurance premium are reduced in proportion to the amount returned.

If a student returns the full amount of a loan within 120 days of disbursement, the loan is cancelled and the origination fee and insurance premium are eliminated.

If a student borrower not in repayment returns an FFEL disbursement or any portion of an FFEL disbursement to the lender within 120 days after disbursement, the origination fee and insurance premium are reduced in proportion to the amount returned.

For information on how returning Direct Loans affects loan fees and accrued interest, see DLB-04-07.

FFEL 34 CFR 682.202(c)(7)(i);
682.209 DL 34 CFR 685.202(c)(4) & 685.211

a student or parent who receives a disbursement via check has the opportunity to refuse the funds by not endorsing the check or by returning it to the lender.

Your school may not use an in-person or telephonic conversation as the sole means of notification because these are not adequate and verifiable methods of providing notice. However, a school may use in-person and telephone notices in addition to those provided in writing.

If the student or parent borrower wishes to cancel all or a portion of a loan, he or she must inform the school. The school must honor a request if it receives the request before the start of the payment period, or if it receives the request within 14 days after it sent the notice to the borrower. If the school receives a student's or parent's request for cancellation after these dates, the school may, but is not required to, honor the request. Regardless of when the request is received, the school must inform the student or parent of the outcome of the request.

When acting upon a loan cancellation request, your school must return the loan proceeds and/or cancel the loan as appropriate. A school is not responsible for returning any portion of a loan that was disbursed to a student or parent directly before the request for cancellation was received. However, you are encouraged to take an active role in advising the borrower to return the funds already received.

REQUIRED STUDENT/PARENT AUTHORIZATIONS

Before your school can perform any of the following activities, you must obtain authorization from a student (or parent borrower):

- Disburse FSA funds (including FWS wages) by EFT to a bank account designated by the student or parent.
- Use FSA funds (including FWS) to pay for allowable charges other than tuition, fees and room and board if the student contracts with the school.
- Hold an FSA credit balance.
- Apply FSA funds to minor prior-year charges.

A school may not require or coerce the student or parent to provide the authorization and must clearly explain to the student or parent how to cancel or modify the authorization. The student or parent may cancel or modify the authorization at any time.

A cancellation or modification is not retroactive—it takes effect on the date that the school receives it from the student or parent. If a student or parent cancels an authorization to use FSA program funds to pay for allowable charges other than tuition, fees and room and board (if

Notices and Authorizations cite

34 CFR 668.165(a)

the student contracts with the school), or minor prior-year charges, the school may use FSA funds to pay any authorized charges incurred by the student before the notice was received by the school. If a student or parent cancels an authorization to hold excess funds, the funds must be paid directly to the student or parent as soon as possible, but no later than 14 days after the school receives the notice.

A school may include two or more of the items that require authorization in one statement. Each component and term in the authorization must be conspicuous to the reader, and a student (or parent borrower) must be informed that he or she may refuse to authorize any individual item on the statement.

An authorization must clearly explain how the school will carry out an activity, but it does not need to detail every aspect pertaining to the activity. However, a blanket authorization that only identifies the activities to be performed is not acceptable. For instance, an authorization permitting a school to use an FSA credit balance (discussed on the next page) must provide detail that is sufficient to give the student or parent a general idea of what the credit balance would be used to pay. A blanket statement that the credit balance would cover any charges is not acceptable.

Unless otherwise specified, a student or parent may authorize a school to carry out the activities for which authorization is provided for the entire period that the student is enrolled at the school. As mentioned above, a student or parent may cancel or modify an authorization at any time.

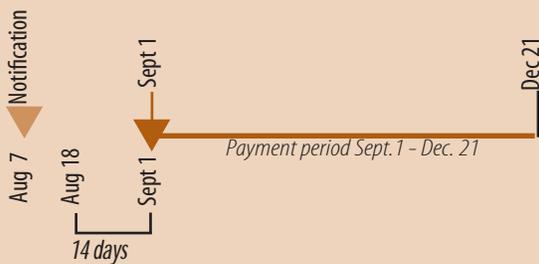

Self-Assessment Tool For Disbursement Procedures:

You can evaluate your Disbursement related procedures by referring to the Fiscal Management module of the FSA Assessments at:

<http://ifap.ed.gov/qahome/qaassessments/fiscalmanagement.html>

14-day cancellation period examples

Example 1

In the first example, the school notified the student that the loan was being disbursed 3 weeks before the payment period began. Since the notification was sent more than 14 days before the start of the loan period, the school must accept a loan cancellation request that is received anytime before the payment period begins.

Example 2

In the second example, the school did not send the notice until a week before the start of the payment period. Therefore, the school must cancel or reduce the loan if the student makes the request within 14 days (by September 9).

Defining the date of disbursement

(These rules apply to the FWS program as well)

It is important to define the date of disbursement because several regulatory requirements are based on that date. For instance, you must notify a student of a loan disbursement no sooner than 30 days before the date of disbursement and no later than 30 days after the date of disbursement.

The date of disbursement also determines when the student becomes an FSA recipient and has the rights and responsibilities of an FSA recipient. For example, when FSA loan funds are disbursed to a recipient, the student or parent assumes responsibility for the loan and has the right to cancel the loan.

A disbursement occurs when your school credits a student's account or pays a student or parent directly with:

- FSA program funds received from the Department or an FFEL lender, or
- School funds labeled as FSA program funds in advance of receiving actual FSA program funds (except as noted below).

When using school funds in place of FSA funds, there are two situations where the FSA disbursement is considered to have taken place on the earliest day that the student could have received FSA funds rather than the actual disbursement date:

- If a school credits a student's account with its own funds earlier than 10 days before the first day of classes of a payment period, that credit is not considered an FSA disbursement until the 10th day before the first day of classes (the earliest a school may disburse FSA funds).
- If a Stafford borrower is subject to the 30-day disbursement delay and a school credits the student's account with its own funds before the 30 days have elapsed, this is not counted as an FSA loan disbursement until the 30th day after the beginning of the payment period.

If your school simply makes a memo entry for billing purposes or credits a student's account and does not identify it as an FSA credit (for example, an estimated Federal Pell Grant), it is not a disbursement. For example, some schools prepare billing statements or invoices showing the estimated amount of FSA funds that students are eligible to receive. These estimated amounts are not FSA disbursements.

USING ELECTRONIC PROCESSES FOR NOTIFICATIONS & AUTHORIZATIONS

The Department continues to encourage and support schools' use of electronic recordkeeping and communications. So long as there are no regulations specifically requiring that a notification or authorization be sent via U.S. mail, a school may provide notices or receive authorizations electronically. You may also use an electronic process to provide required notices and make disclosures by directing students to a secure Web site that contains the required notifications and disclosures.

If you use an electronic process to provide notices, make disclosures and direct students to a secure Web site, you must provide direct individual notice to each student. You may provide the required notice through direct mailing to each individual through the U.S. Postal Service, campus mail or electronically directly to an email address.

The individual notice must —

- identify the information required to be disclosed;
- provide the inter- or intranet address where the information can be found;
- state that, upon request, individuals are entitled to a paper copy; and
- inform students how to request a paper copy.

Of course, any time a school uses an electronic process to record or transmit confidential information or obtain a student's confirmation, acknowledgment or approval, the school must adopt reasonable safeguards against possible fraud and abuse. Reasonable safeguards a school might take include:

- password protection,
- password changes at set intervals,
- access revocation for unsuccessful log-ins,
- user identification and entry-point tracking,
- random audit surveys, and
- security tests of the code access.

The Gramm-Leach-Bliley (GLB) Act

requires that schools have in place an information security program to ensure the security and confidentiality of customer information; protect against anticipated threats to the security or integrity of such information; and guard against the unauthorized access to or use of such information. (For information on the GLB Act, see *Volume 2, chapter 9*.)

THE E-SIGN ACT

E-Sign Act

The Electronic Signatures in Global and National Commerce Act (E-Sign Act) was enacted on June 30, 2000. The E-Sign Act provides, in part, that a signature, contract or other record relating to a transaction may not be denied legal effect, validity or enforceability solely because it is in electronic form, or because an electronic signature or electronic record was used in its formation.

Section 2 of the Department's *Standards for Electronic Signatures in Electronic Student Loan Transactions* provides some additional information on the applicability of electronic transactions to student loans.

You can find it at

<http://ifap.ed.gov/dpcletters/gen0106.html>.

The E-Sign Act permits lenders, guaranty agencies and schools to use electronic signatures and electronic records in place of traditional signatures and records that, under the HEA and underlying regulations, otherwise must be provided or maintained in hard-copy format.

The E-Sign Act provides specifically for the creation and retention of electronic records. Therefore, unless a statute or regulation specifically requires a school to provide or maintain a record or document on paper, your school may provide and maintain that record electronically. Similarly, unless a statute or regulation specifically requires schools to obtain a pen and paper signature, you may obtain the signature electronically as long as the electronic process complies with the E-Sign Act and all other applicable laws.

Before conducting electronic transactions that require financial information to be provided or made available in writing to a recipient of FSA funds, the recipient must affirmatively consent to the use of an electronic record in a manner that reasonably demonstrates that the individual is able to access the information to be provided in an electronic form. (For example, if you are going to send financial information by email, you could send a request for consent to the recipient via email, require the recipient to respond in a like manner, and maintain a record of that response.) The recipient's consent must be voluntary and based on accurate information about the transactions to be completed.

Voluntary Consent Required

Voluntary consent to participate in electronic transactions is required for all financial information provided or made available to student loan borrowers, and for all notices and authorizations to FSA recipients required under 34 CFR 668.165.

METHOD OF DISBURSEMENT

There are two ways to disburse FSA funds: by crediting the student's account for allowable charges at your school, or by paying the student or parent directly.

Credit to the student's account

When a school disburses FSA program funds to a student by crediting a student's account, it may do so only for allowable charges.

Allowable charges include:

- current charges for tuition and fees as defined in *Volume 3, chapter 2* and room and board (if the student contracts with the school); and
- other current charges that a student has incurred for educationally-related activities if you obtain the student's written authorization or the parent's written authorization – in the case of PLUS loan funds).

If an educationally related charge does not meet the definition of tuition and fees as described in Section 472 of the HEA (with the exception of contracted room and board charges), the school must obtain the student's permission (or parent's, if applicable) to use FSA program funds to pay for the charge.

In general, FSA funds may only be used to pay for the student's costs for the period for which the funds are provided. However, you may credit a student's account to pay minor prior-year school charges if you get the student's or parent's written authorization to pay the prior-year charges. If the prior-year charges are \$100 or more, you must determine that disbursement would not prevent the student from paying for his or her current educational expenses (including both school charges and any other costs of attendance).

FSA funds may not be used to repay a student's loan. Loan payments are not part of the cost of attendance for the period of enrollment.

Method of disbursement cites

- Credit to students account: 34 CFR 668.164(c)
- Direct disbursements: 34 CFR 668.164(c)
- Releasing a Pell check: 34 CFR 690.78(c)
- Direct Loans credited to student charges before other costs: 34 CFR 668.164(d)(3)
- Cost of attendance: Section 472 of the HEA
- Prior-year charges: 34 CFR 668.164(d)

Current charges

Charges assessed by the school for the current award year or the loan period for which the school certified or originated an FFEL or Direct Loan.

Tuition and fees cite

Section 472 of the HEA

When disbursing FSA funds

to students enrolled in programs equal to or less than one year in which students do not receive grades or credits until the end of the program your school must –

1. have an SAP standard as described in Volumes 1 and 2 of the *FSA Handbook*;
2. measure a student's standing vis-a-vis SAP by the time the student has completed one-half of the program; and
3. not make second disbursements of FSA funds to a student who is not making satisfactory academic progress.

For programs greater than one year in length in which students do not receive grades or credits until the end of the program, your school must –

1. have an SAP standard as described in Volumes 1 and 2 of the *FSA Handbook*;
2. measure a student's standing vis-a-vis SAP at least once a year; and
3. not award FSA funds for any additional period to a student to a student who is not making satisfactory academic progress.

Crediting Direct Loan funds to student charges first

Direct Loan funds credited to a student's account must first be used to pay for current charges.

Direct disbursement to the student

Direct payments cite

34 CFR 668.164(c)

Self-assessment tool for disbursement procedures

You can evaluate your school's procedures by referring to *Disbursing Aid* in the *Managing Funds* module of *FSA Assessments*.

<http://ifap.ed.gov/qamodule/DisbursingAid/AssessmentE.html>

FWS Disbursements cite

34 CFR 675.16.

You may also disburse FSA funds directly to the student or parent. Most schools choose to first credit FSA funds to the student's account at the school, and then disburse the credit balance to the student or parent.

There are four ways that a school may disburse FSA funds directly to the student or parent:

1. *Issuing a check or other instrument* payable to and requiring the endorsement or certification of the student or parent (a check is issued if the school releases or mails the check to a student or parent, or notifies the student or parent that the check is available for immediate pickup).
2. Initiating an *electronic funds transfer* (EFT) to a bank account designated by the student or parent (after fulfilling the requirement specified earlier under Required Student/Parent Authorizations).

We include transferring funds to stored-value cards and debit cards to disburse FSA funds under this method of direct disbursement. For more information on stored-value and debit cards, please see the discussion under Credit Balances later in this chapter.

3. Disbursing to the student in *cash*, provided that your school obtains a signed receipt from the student or parent, or
4. *Releasing a FFEL check* sent by a lender. A school may receive a borrower's Stafford Loan funds from a lender in the form of an individual bank check made payable to the borrower or co-payable to the borrower and the school. In the case of a co-payable check, the school and the borrower must endorse the check.

Co-payable PLUS Loan checks must be sent directly to a school by a lender. A school must disburse PLUS proceeds to a parent borrower within 30 days of receiving a check. However, a school is not required to endorse a PLUS check before sending it to a parent borrower. The school may require the parent borrower to endorse the check and return it to the school for the school's endorsement. The school then endorses the check, deposits it and disburses the funds.

Paying Pass-through Charges

The law allows a school to credit a student's account with FSA funds only to pay for institutionally provided housing. However, it is not necessary that the school actually own the student housing. The school may enter into a contract with a third party to provide the institutional housing.

If a school enters into a contract with a third party to provide institutional housing, the school may credit FSA funds to a student's account to pay for housing provided by a third party.

Keep in mind that other FSA requirements apply to both the funds used for the housing payment and to the physical location of the housing. For instance –

1. A school must include the cost of housing as an institutional charge in any Return calculation required when an eligible recipient ceases to be enrolled prior to the end of the payment period or period of enrollment. (See *Volume 5, chapter 2.*)
2. The school is required to report statistics concerning the occurrence of crimes in the third party housing. (See *Volume 2, chapter 6.*)
3. The third party must comply with the civil rights and privacy requirements contained in the school's Program Participation Agreement. (See *Volume 2, chapter 3.*)

Credit balances cite

34 CFR 668.164(e)

Note: FSA regulations refer to the amount of aid that exceeds the allowable charges as a credit balance. School administrators sometimes refer to this as a refund; however, it is not the same thing as a refund under the school's refund policy or a Post-withdrawal Disbursement given to a student under the Return of Title IV Funds rules.

Credit balances under \$1

A school is not required to pay a credit balance that is less than \$1.00.

Delivery of FSA funds must be cost-free

Schools are prohibited from charging students a fee for delivering FSA funds. If a school delivers FSA funds to students by crediting funds to a school-issued debit or smart card, the school may not charge students a fee for making withdrawals of FSA program funds from that card. However, the school may charge for a replacement card.

CREDIT BALANCES

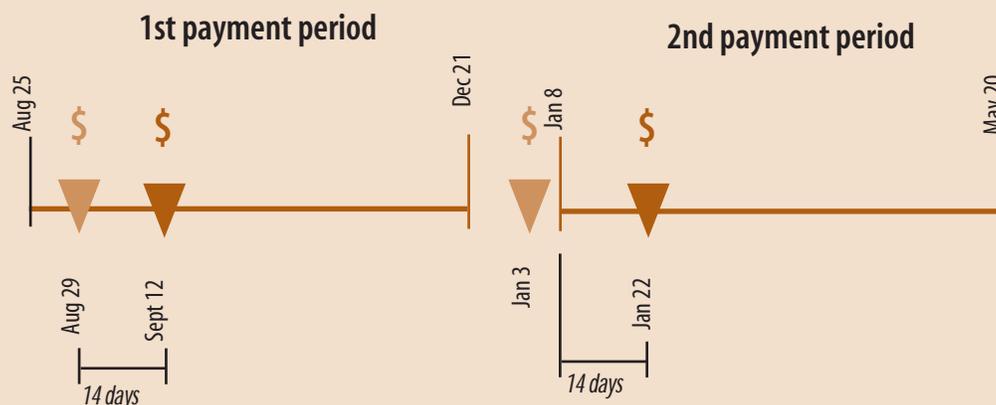

An FSA credit balance occurs whenever your school credits FSA program funds to a student's account and the total amount of those FSA funds exceeds the student's allowable charges.

Paying credit balances

If FSA disbursements to the student's account at the school creates an FSA credit balance, you must pay the credit balance directly to the student or parent as soon as possible, but no later than 14 days after:

- the date the balance occurred on the student's account, if the balance occurred after the first day of class of a payment period, or
- the first day of classes of the payment period if the credit balance occurred on or before the first day of class of that payment period.

14-day timeframe for paying credit balances

In the first payment period above, the school disburses FSA funds to incoming students after the students have started classes, so it has 14 days from that date to pay the credit balance to the student (or parent, in the case of PLUS).

In the second payment period, the school disburses FSA funds before classes start, so the school has 14 days from the beginning of classes to pay the credit balance.

The law requires that any excess PLUS Loan funds be returned to the parent. Therefore, if PLUS Loan funds create a credit balance, the credit balance would have to be given to the parent. However, the parent may authorize your school (in writing) to transfer the proceeds of a PLUS Loan to a student directly or to a bank account in the student's name.

You have the latitude to determine which FSA program funds create an FSA credit balance. At this time, the Department does not specify how a school must determine which FSA program funds create an FSA credit balance, except to say that Direct Loan funds must be applied to unpaid institutional charges before they can be applied to other charges or disbursed to the student.

Please see *Volume 5* for a discussion of credit balances when a student withdraws.

FSA credit balance example

An FSA credit balance occurs only if the total amount of FSA program funds exceeds allowable charges

For example, Ms. Inu Nagar enrolls at Eaglewood Technical Institute as a computer student, and her total allowable charges for the fall term amount to \$1,500. ETI credits \$2,000 to her account, comprising \$1,000 in FSEOG, \$500 in private scholarship funds, and \$500 in Pell Grant funds. Although there is an excess of \$500 on the account, this does not constitute an FSA credit balance because the total amount of FSA funds (\$1,500) does not by itself exceed the amount of allowable charges (\$1,500).

If, in this example, ETI credited \$600 of Pell Grant funds, rather than \$500, an FSA credit balance of \$100 would be created because the total FSA funds credited to the account (\$1,600) would exceed the allowable charges (\$1,500). The order in which these funds were credited does not matter.

Stored-Value and Prepaid Debit Cards (DCL GEN 05-16)

A stored-value card is a prepaid debit card that can be used to withdraw cash from an automated teller machine (ATM) or to purchase goods from a merchant. We distinguish a stored-value card from a traditional debit card in this discussion by defining a stored-value card as not being linked to a checking or savings account.

Typically, a school enters into an agreement with a bank under which the bank issues stored-value cards directly to students identified by the school. In a payroll or credit balance transaction, the school electronically transfers funds to the bank on behalf of a student and the bank makes those funds available to the student by increasing the value of the card. Since the funds are transferred from the school's account to the bank, so long as the school cannot recall those funds to pay other charges for the student without the student's written permission, the transaction would be equivalent to paying the funds directly to the student.

Under the following conditions, a school may use stored-value cards as a way to make direct payments to students (such as credit balances and Federal Work Study (FWS) wages).

1. A school must obtain a student's authorization to use a stored-value card for paying credit balances or FWS wages, in the same way a school must obtain authorization before making an electronic funds transfer to a student's checking account.
2. The value of the card must be convertible to cash (e.g., a student must be able to use it at an ATM to make a cash withdrawal). In some cases, the cards are branded with the VISA or MasterCard logo, so the card may also be used to buy goods and services. We would not expect a school to limit the use of the card to specific vendors.
3. A student should not incur any fees for using the card to withdraw the disbursement over a reasonable period of time.

It would appear to be reasonable for an issuing bank to allow ATM withdrawals from it to be free, or to provide several free withdrawals per month. So long as ATMs from the issuing bank are conveniently located for a student, it would also appear to be reasonable for a fee to be charged if the student chooses to use an ATM that is not affiliated with the issuing bank.
4. A student should not be charged by either a school or the affiliated bank for issuing a stored-value card, but it would be reasonable if a student was charged for a replacement card.
5. In order to minimize any risks with disbursing funds to a stored-value card account set up for a student, the account at the bank must be Federal Deposit Insurance Corporation (FDIC) insured. This means that there has to be an individual account for each student that is FDIC insured.
6. In order for the disbursements to the stored-value card to be treated as payments made to a student, a school cannot make any claims against the funds on the card without the written permission of the student, except to correct an error in transferring the funds to the bank under existing banking rules.
7. Since the stored-value card is being set up to disburse Federal Student Aid funds to a student, the account should not be marketed or portrayed as a credit card account and should not be structured to be converted into a credit card at any time after it is issued.

A bank may wish to use its relationship with a student to offer other banking services such as checking accounts, savings accounts, or credit cards, but those should not link to the stored-value card account.
8. A school must inform a student of any terms and conditions associated with accepting and using the stored-value card.
9. A school must ensure that its stored-value card process meets all regulatory time frames. (For example, a student must have access via the card to any credit balance within the 14-day time frames in 34 CFR 668.164, or to any FWS wages at least once per month.)¹
10. A student's access to the funds on the stored-value card should not be conditioned upon the student's continued enrollment, academic status or financial standing with the institution.

1. If a school fails to obtain a student's authorization, the school must have an alternative means of ensuring the student has access to his or her FSA credit balance within the time allowed by regulations, and at no cost to the student.

When a school uses third-party servicers to disburse FSA funds

Schools are increasingly changing the way they disburse funds to students by moving away from issuing checks to transferring funds electronically. In response to this trend, several companies are offering services that include:

- obtaining the student’s authorization to perform electronic transfers;
- transferring the funds electronically to the student’s bank account;
- opening a bank account for the student; and
- issuing debit cards in conjunction with a participating bank.

Companies that contract with schools to provide these types of services in some instances become third-party servicers.

Additionally, in the contract between the school and the servicer, both parties must agree to comply with all statutory and regulatory provisions governing the FSA programs, and agree to be jointly and severally liable for any violation by the servicer of these provisions. Also, unless a third-party servicer has only one client, the servicer must submit an annual audit of the activities it performs on behalf of the school to the Department.

A third-party servicer is an entity that contracts with a school to administer any aspect of its FSA programs. Thus, if a school contracts with a company to perform activities that are the school’s responsibilities under the FSA programs, the company is a third-party servicer.

So long as a school cannot recall or receive a payment from an account that is not specifically initiated or authorized in writing by the student, the Department considers the electronic transfer of funds to a bank account a servicer opens on behalf of a student to be the equivalent of a school’s transfer of funds to a student’s account and the equivalent of making a direct payment to a student.

Schools are ultimately responsible

A school that enters into a contract with a third-party servicer to provide debit, demand or smart cards through which Title IV credit balances are paid to students must have a system to ensure compliance with all regulatory timeframes including having access to any credit balance within the 14-days, and to any FWS wages at least once per month.

Important

Additional elements of a third-party agreement cite

34 CFR 668.25 (c).

Third-party servicer audits cite

34 CFR 668.23(c)

ED may prohibit holding credit balance

If the Department has placed a school on reimbursement or determines that the school has failed to meet financial responsibility standards, it may choose to prohibit the school from holding a credit balance for any student.

School-issued stored-value cards

When a school pays an FSA credit balance to a student by making those funds available through a **school-issued** stored-value card **over which the school exercises control**, the school is, in effect, holding a student’s FSA credit balance. Therefore, all of the conditions on holding credit balances apply.

Holding credit balances

A school is permitted to hold credit balances if it obtains a voluntary authorization from the student (or parent, in the case of PLUS). If your school has the authorization to hold the credit balance, it must identify the amount of funds that it holds for the student or parent in a subsidiary ledger account designated for that purpose. Your school also must maintain, at all times, cash in its bank account at least equal to the amount that it holds for students.

Because FSA funds are awarded to students to pay current year charges, notwithstanding any authorization from the student or parent, you must pay:

- any remaining balance on FSA loan funds by the end of the loan period, and
- any other remaining FSA program funds by the end of the last payment period in the award year for which they were awarded.

If your school has lost contact with a student who is due a credit balance, you must use all reasonable means to locate the student. If you still cannot find the student, your school must return the credit balance to the appropriate FSA program(s) and/or lender. The FSA regulations do not set specific rules for determining which funds created a credit balance. However, we encourage schools to return FSA funds to loan programs first to reduce the borrower’s loan balance.

Important

The school is permitted to retain any interest earned on the student’s credit balance funds.

Escheating prohibited—unclaimed funds

A school must take all reasonable measures to locate a student in order to deliver the student’s Title IV credit balance. When the student cannot be located, the school must ensure that FSA funds do not escheat to the state or revert to the school or any other party. For instance, if a check containing FSA funds is not cashed by the expiration date, the FSA funds must be restored to the applicable FSA program(s).

Undelivered Perkins funds

If a portion of the undelivered credit balance consists of Perkins funds, the school must reimburse its Perkins Loan fund for that amount and report those funds as other income on line 24, Part III, Section A of the FISAP.

A school must have a process through which it identifies a credit balance that remains on a student's account beyond the payment deadline or is undelivered to the student (or parent, if applicable) and returns those funds to the FSA programs on behalf of the student. The search for the student should end and the refund/return to the Department (or lender in the case of FFEL funds) should be completed prior to the date the funds would otherwise escheat, but no later than a few days after a check to the student would cease to be negotiable (usually 180 days).

POWER OF ATTORNEY

Power of attorney in disbursing FWS and Perkins

A school may not obtain a student's power of attorney to authorize FWS disbursements unless the Department has granted prior approval (contact your Case Team). Your school must be able to demonstrate that there is no one else (such as a relative, landlord or member of the clergy, for example) who could act on behalf of the student.

Similarly, a school official may not use a student's power of attorney to endorse any Perkins Loan disbursement check or to sign for any Perkins loan advance unless the Department has granted prior approval. Approval may be granted only if:

- the student is not available to sign the promissory note and there is no one else (such as a relative, landlord or member of the clergy) who could act on behalf of the student,
- the school shows that the funds cannot be directly deposited or electronically transferred,
- the power of attorney is not granted to a school official or any other official who has an interest in the loan, and
- the power of attorney meets all legal requirements under the law of the state in which the school is located and the school retains the original document granting power of attorney in its files.

Power of attorney for foreign study (Stafford/PLUS)

If a student who is enrolled at a foreign school requests it, the lender may disburse Stafford and PLUS funds directly to an eligible foreign school, or to a domestic (home) school in the case of a study-abroad arrangement. The borrower (the student or the parent, in the case of PLUS) must provide power-of-attorney to an individual not affiliated with the school to endorse the check or complete an electronic funds transfer authorization.

Power of attorney

Perkins: 34 CFR 674.16(h)

FWS: 34 CFR 675.16(d)

FFEL: 34 CFR 682.207(b)(1)(v)(C)(2) and (D)(2)

CHECKING ELIGIBILITY AT THE TIME OF DISBURSEMENT

Reminder

Interim disbursements to students selected for verification

A school can make an interim disbursement of certain types of FSA funds to a student who is selected for verification (including a student selected for verification by the school rather than the CPS). If the school has any conflicting documentation or other reason to believe that it does not have a valid output document, it may not make such a disbursement. See the *Application and Verification Guide*, chapter 3, for more details.

Disbursements to students on leave of absence

A school **may** disburse Pell, FSEOG, Perkins funds to a student on a leave of absence. However, a school must not disburse FFEL/Direct funds to a student on a leave of absence.

Because FSA credit balance funds are funds that have already been disbursed, a school must pay an FSA credit balance to a student on leave of absence in accordance with 34 CFR 682.604(c)(4).

Liability for incorrect payments

A school is liable for any incorrect payments made to the student due to school error. A school official is subject to a \$10,000 fine, a prison sentence, or both if he or she knowingly makes false or misleading statements.

Before you awarded funds to a student, you confirmed that he or she was an eligible student and was making satisfactory academic progress (See *Volume 1, Student Eligibility*). However, before disbursing FSA funds, you must determine and document that a student remains eligible to receive them. That is, you must confirm that:

- the student is enrolled for classes for the period;
- a student enrolled in a non-term program has completed the previous period (credits and weeks or clock hours);
- if the disbursement occurs on or after the first day of classes, that the student has begun attendance;
- for loans, the student is enrolled at least half time;
- for all ACG Grants, the student is enrolled full time;
- for second year ACG Grants, at the end of the first academic year, the student has at least a 3.0 cumulative GPA on a 4.0 scale; and
- for National SMART Grants, the student –
 - a) is enrolled full time;
 - b) has at least a 3.0 cumulative GPA on a 4.0 scale, and
 - c) is enrolled in an eligible major.

In the case of Stafford and PLUS loans, you have already certified that the student is eligible when you sent the loan information to the lender (see chapter 1). However, you must also ensure that the student has maintained continuous eligibility before you disburse the loan. The most common change that would make a student ineligible for a Stafford or PLUS disbursement is if the student has dropped below half time, so it is important that your office have a system to check the student's enrollment status at the time of disbursement.

If the student has dropped below half time temporarily, you may still make a Stafford or PLUS disbursement after the student resumes at least half time enrollment. However, you must make sure that the student continues to qualify for the entire amount of the loan—the change in enrollment may have resulted in a significantly lower cost of attendance. The aid administrator must document this review in the student's file.

Also remember that, as we'll discuss at the end of this chapter, your school cannot retain the loan funds indefinitely.

TIMING OF DISBURSEMENTS

We've already described how disbursements are calculated in *Volume 3*; now we'll discuss the timing of disbursements. Schools disburse FSA program funds by payment period or at the beginning and calendar midpoint of a loan period. Typically, the amounts that you award to a student for an academic year are divided into lesser amounts among the payment periods or other subdivisions.

The timing of disbursements is especially important for Pell Grant and Stafford/PLUS loan funds, because you must schedule disbursement dates with the Department and/or private lenders. (See Chapters 1 and 2 for information on reporting Pell disbursements to COD and certifying/originating a Stafford/PLUS loan.)

Basic rules for early & delayed disbursements

The earliest that a school may disburse FSA funds by crediting the student's account or by paying directly to the student or parent is 10 days before the first day of classes for that payment period. For clock-hour and credit-hour nonterm or nonstandard term programs, the earliest that a school may disburse FSA funds (other than FWS wages) by crediting the student's account or disbursing directly to the student or parent is the later of 10 days before the first day of classes for that payment period or the date the student completed the previous payment period for which he or she received FSA funds. In some cases, as we'll discuss, other restrictions apply.

If a student is in the first year of an undergraduate program and is a first-time Stafford borrower, your school may not disburse the first installment of the Stafford loan until 30 calendar days after the student's program of study begins.

Exceptions to disbursement rules for schools with low default rates

Effective for any disbursement made on or after February 8, 2006, the exemption of institutions with low cohort default rates from certain multiple disbursement requirements has been reinstated in the law. Institutions with cohort default rates of less than 10 percent for each of the three most recent fiscal years for which data are available, including eligible foreign institutions, may once again disburse, in a single installment, loans that are made for one semester, one trimester, one quarter or a four-month period. Such institutions also are no longer required to delay the delivery or disbursement of a first disbursement of a loan for 30 days for first-time, first-year undergraduate borrowers.

- Paying prior to student beginning attendance: 34 CFR 674.16(f) and 674.16(d)

Low cohort default rate exemptions cite

Section 428G(a)(3) and (b)(1) of the HEA

Disbursement rules for terms made up of modules

When a student is attending a modular program, but won't attend the first module, the date when classes begin for making disbursements is the starting date of the first module that the student will actually attend.

The earliest the school can pay a student who is scheduled to begin attendance in the second of three 5-week modules that make up the payment period is 10 days before the first day of the second module. (Or 30 days after the second module begins, if the student is a first-time, first-year borrower and the school does not meet the requirements for a waiver in 34 CFR 6882.604(c) (5) and 34 CFR 685.303(b)(4).)

For example, if the student is enrolled in the first semester (running from September 1, 2005 to December 14, 2005) of a program that is made up of three 5-week modules, but the student is not enrolled in the first two modules of that semester, the school has to wait until 30 days after classes from the third module begins to disburse the funds.

Special rules for Pell and FSEOG Disbursements to students in correspondence courses

Generally, Federal Pell Grant Program and FSEOG Program disbursements can be made up to 10 days before the first day of classes for a payment period. However, there are special rules for students enrolled in correspondence study programs.

FSEOG Program

A correspondence student must submit his or her first completed lesson before receiving an FSEOG payment.

FSEOG Program disbursements cite

34 CFR 676.16(f)

Federal Pell Grant Program

For a non-term-based correspondence portion of a program of study the school must make the –

- first payment to a student for an academic year after the student submits 25% of the lessons, or otherwise completes 25% of the work scheduled for the program or the academic year, whichever occurs last; and
- second payment after the student submits 75% of the lessons, or otherwise completes 75% of the work scheduled for the program or the academic year, whichever occurs last.

For a term-based correspondence portion of a program of study the school must make the payment to a student for a payment period after the student completes 50% of the lessons or otherwise completes 50% of the work scheduled for the term, whichever occurs last.

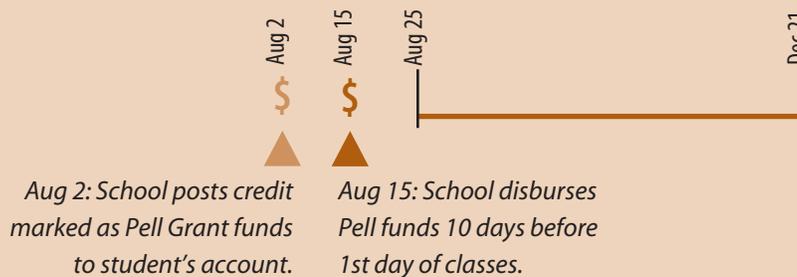

Federal Pell Grant Program disbursements cite

34 CFR 690.66

Timing of Pell disbursements

34 CFR 690.76

Early disbursement & advance credit to account

The earliest that a school may disburse Pell funds is 10 calendar days before the first day of class in the term or payment period.

Some schools post a credit to the student's account before this date, but the date the Pell is considered to be disbursed for FSA purposes is the actual date Pell funds are applied to the student's charges (August 15 in this example).

Returning funds for students who do not register or fail to begin attendance

34 CFR 690.78(b)(1)&(2)
34 CFR 674.16(f)(1)&(2)
34 CFR 676.16(d)(1)&(2)
34 CFR 682.604(d)(3)&(4)
34 CFR 685.303(b)(3)

Recalculating Pell eligibility when a student fails to begin attendance in all classes

34 CFR 690.80(b)(ii)

Reminder

Important

When a student fails to begin attendance

If your school disburses Pell, Perkins or FSEOG funds, but the student never actually begins attending any classes, you must return the disbursed amounts to the respective programs. If the student begins attending some but not all of his or her classes, you will have to recalculate the student's Pell Grant award based on the student's actual enrollment status—see *Volume 3, chapter 3*.

If your school disburses Stafford or PLUS funds but the student does not register for the period of enrollment for which the loan was made, or a registered student withdraws or is expelled prior to the first day of classes of the period of enrollment for which the loan is made, you must return the loan funds that the school has to the lender.

If your school disburses Stafford or PLUS funds but the student doesn't begin attendance or you cannot document that the student ever began attendance, you must return any loan funds that were credited to the student's account, as well as the amount of any payments that the student made to your school. (The total amount to be returned is limited to the original amount of the Stafford and PLUS disbursements.)

All schools must return¹ funds disbursed to a student who failed to begin attendance immediately after discovering that the student failed to begin attendance. Moreover, a school may not ignore information available to any office at the school indicating that a student failed to begin attendance.

At a school that is required to take attendance, it would be reasonable to expect the school to return disbursed funds immediately following the 14-day period the school is allowed to determine that a student is not attending classes.

At a school that is not required to take attendance but that has a census date on which it reports its enrollment levels to a state, local jurisdiction or outside agency, it would be reasonable to expect the school to return funds immediately following the census date.

At all schools, after the start of classes, Title IV funds should not be disbursed without schools confirming that students have begun attendance.

-
1. A school may satisfy this requirement either by redepositing the funds in its federal funds account and disbursing them within three days to another eligible student, or by returning them to the appropriate Title IV program using the refund function in GAPS.

When students whose home schools are low default rate schools are enrolled in study abroad programs

A school can make a loan disbursement to a first-year borrower within the normal time frame (without waiting 30 days) if the borrower is enrolled in a study-abroad program approved for credit by the home school and the home school had a Stafford loan default rate of less than 5% in the single most recent fiscal year for which data is available (34 CFR 682.604(c)(5)(ii) and 34 CFR 685.303(b)(4)(i)(B)).

For disbursements made after February 8, 2006, a school (including an eligible foreign school) can make a loan disbursement to a first-time, first-year borrower within the normal time frame (without waiting 30 days) if the school had a Stafford loan default rate less than 10% in the three most recent fiscal years for which data is available (34 CFR 682.604(c)(5)(i) and 34 CFR 685.303(b)(4)(i)(a)).

After February 8, 2006, if a borrower is enrolled in a study-abroad program approved for credit by the home school and the home school had a Stafford loan default rate less than 5% in the single most recent fiscal year for which data is available, AND the loan is for one semester, one trimester, one quarter or a four-month period, the school may make a single disbursement of the loan proceeds (34 CFR 682.604(c)(10)(ii) and 34 CFR 685.301(b)(8)(i)(B)).

In addition, after February 8, 2006, if a borrower is enrolled at a school that had a Stafford loan default rate less than 10% for the three most recent fiscal years for which data is available AND the loan is for one semester, one trimester, one quarter or a four-month period, the school may make a single disbursement of the loan proceeds (34 CFR 682.604(c)(10) and 34 CFR 685.301(b)(8)(i)(A)).

Effective for loans disbursed on or after July 1, 2006, if a borrower is enrolled in a study-abroad program approved for credit by the home school and the **borrower** requests it, after the lender or guarantee agency has verified the borrower's enrollment, the lender may disburse a Stafford loan directly to the borrower (34 CFR 668.207(b)(1)(v)(C)(1)).

Effective for loans disbursed on or after July 1, 2006, if a borrower is enrolled at an eligible foreign school and the foreign school requests it, after the lender or guarantee agency has verified the borrower's enrollment, the lender may disburse a Stafford loan directly to the student (34 CFR 682.207(b)(1)(v)(D)).

For more information, please refer to the *Cohort Default Rate Guide* on the IFAP Web site.

<http://ifap.ed.gov/drmaterials/finalcdrg.html>

Note: Effective February 8, 2006, eligible foreign schools are no longer exempt from making multiple disbursements of Title IV loan proceeds.

Multiple disbursements within a payment period

When scheduling loan disbursements, you can request multiple disbursements of a loan within a payment period or loan period, as long as the disbursements are substantially equal installments (see Section 428G(c)(3) of the HEA).

Schools that use payment periods as the basis for their return of funds calculations should note that making multiple disbursements within a payment period does not create a new or additional payment period. See *Volume 5* to see how withdrawal calculations handle multiple disbursements.

Credit bureau reporting

Schools must report the date and amount of each disbursement of a Federal Perkins Loan to at least one national credit agency. (Please see *Volume 2* for more information about credit bureau reporting.)

Loan disbursements when credits aren't awarded as work is completed

In some programs, it may not be possible to determine when the credit hours are earned, and thus it may be difficult to tell when a student is eligible to receive the next disbursement. For example, in some programs, credits are only awarded after the student has completed the entire program. In such cases, the student is eligible to receive their next loan disbursement on the later of —

- the date your school identifies as the point when the student has successfully completed half of the academic coursework in the program, academic year, or the remainder of the program, or loan period, or
- the calendar midpoint between the first and last scheduled days of class of the program, academic year, or the remainder of the program, or loan period.

FFEL: 34 CFR 682.604(c)(7)
DL: 34 CFR 685.301(b)(5)

Number of Stafford/PLUS disbursements: standard terms and substantially equal nonstandard terms

If the program uses *standard academic terms* (semesters, trimesters, or quarters) or it has *nonstandard terms of substantially equal length*, at least one disbursement is made for each term in the loan period. A program is considered to have substantially equal terms if no term in the loan period is more than 2 calendar weeks longer than any other term in the loan period.

- *If there is more than one term in the loan period*, the loan must be disbursed over all terms of the loan period. For example, if a loan period includes all three quarters of an academic year, the loan must be disbursed in three substantially equal disbursements.
- *If there is only one term in the loan period*, the loan must be disbursed in equal amounts at the beginning of the term and at the term's calendar midpoint.

Number of Stafford/PLUS disbursements: 1) credit-hour programs without terms, 2) credit-hour programs with non-standard terms that are not substantially equal in length and 3) clock-hour programs

Loan periods for Stafford/PLUS loans are described in *Volume 3, chapter 4*. If the program is one academic year or shorter, the loan period is usually the length of the program. If the program is longer than an academic year, there will usually be another loan period for any subsequent academic year or remaining portion of an academic year. For each loan period in these programs —

- The loan must be disbursed in at least two substantially equal amounts, with the first disbursement generally disbursed at or near the beginning of the loan period; and
- The second half of the loan proceeds may not be disbursed until the later of the:
 - a) calendar midpoint between the first and last scheduled days of class of the loan period, or
 - b) date the student successfully completes half the clock hours in the loan period or, for credit hours, successfully completes half the credit hours. In programs where the student cannot earn the credit hours until the end of the loan period, the institution must determine when the student has completed half the coursework for the loan period.

Timing of Pell Grant disbursement within a payment period

You must time the disbursement of Pell funds for a payment period to best meet the needs of students at your school. For instance, some schools credit the student accounts for school charges as soon as is permissible, and then pay the credit balance to students when they begin classes. Other schools wait until the end of the add/drop period to disburse funds, or pay students in monthly installments to help meet living expenses throughout the payment period. (If as opposed to making multiple disbursements within the payment period, your school rations disbursements to students by crediting the entire disbursement for the payment period to the student's account and making periodic disbursements to the student from these funds, it must have the student's voluntary written authorization.)

Disbursing FSEOG & Perkins

A school that is awarding an FSEOG or a Perkins Loan for a full academic year must advance a portion of the grant or loan during each payment period.

In general, to determine the amount of each disbursement, a school will divide this award amount by the number of payment periods the student will attend.

A school may advance funds within a payment period in whatever installments it determines will best meet the student's needs. However, if the total FSEOG or Perkins award is less than \$501 for an academic year, only one disbursement is necessary.

If the student incurs uneven costs or receives uneven resources during the year and needs extra funds in a particular payment period, your school may advance the additional FSEOG or Perkins amounts to the student in whatever manner best meets the student's needs.

Retroactive disbursements for completed periods

Your school must pay a student retroactively for any completed payment periods within the award year if the student was eligible for payment in those periods. Thus, in the case of a Pell Grant, if you don't receive a valid SAR/ISIR for a student until the spring term, but the student was also enrolled and eligible for a disbursement in the previous fall term, that student must be paid retroactively for the fall term. (See the discussion under Late Disbursements for disbursing funds to students who have lost eligibility.)

Stafford/PLUS multiple disbursements requirement & exceptions

There are two significant exceptions to this multiple disbursement requirement:

- If any payment period has elapsed before a lender makes a disbursement, a single disbursement may be made for all completed payment periods.
- You may pay a student in an eligible study-abroad program in one disbursement, regardless of the length of the loan period, if your school's most recently calculated Stafford loan default rate is less than 5% for the single most recent fiscal year for which data is available.

For more information, please refer to the **Cohort Default Rate Guide** on the IFAP Web site.

Cites

34 CFR 682.207(c-e) and
34 CFR 685.301(b)

Uneven costs example

Dan is enrolling in a one-year program at Ingram Technical College and must spend \$300 for books and supplies at the beginning of the program. ITC has awarded Dan a \$1,000 Perkins Loan. Rather than simply dividing the award in half, ITC may pay Dan a larger amount in the first payment period to meet the onetime cost for books and supplies.

To determine the first payment, the aid administrator at ITC subtracts the extra amount (in this case, \$300) from the total loan (\$1,000) and divides the remainder (\$700) by the number of payment periods (in this case, 2). The aid administrator then adds the regular amount for one payment period (\$350) to determine the initial payment ($\$650 = \$300 + \$350$). The remaining amount (\$350) is then disbursed during the second payment period for a total loan of \$1,000.

If you are paying a Pell grant for a completed term in which no Pell disbursement has been made, the Pell grant must be based on the hours completed by the student for that term. If the student had enrolled full time at the beginning of the fall term but dropped to half time status by the end of the term, the retroactive disbursement must be based on half time status. At a term school, all completed coursework counts towards enrollment status, including earned F's and incompletes that have not converted to "F" grades because the student failed to complete the course work. (This Pell requirement does not apply to any other FSA program.)

To include an earlier period of eligibility when certifying a Stafford Loan, the student would have had to complete at least a half time course-load in that period. For instance, you could include the Fall term and its costs when certifying a loan for the student in the Spring, if your school's half time standard is 6 credit hours and the student received a "B" and an incomplete in two 3-hour courses taken that Fall.

In the case of loans disbursed on a payment period basis, if a student attended the previous payment period but did not maintain eligibility for a Stafford loan, you may not include the previous payment period or its costs in the loan period.

A school can make any retroactive disbursements in one lump sum.

PROMPT DISBURSEMENT RULES

In general, schools that are not receiving federal cash from the Department through one of the heightened cash monitoring payment methods must make disbursements as soon as administratively feasible but no later than 3 business days after receiving funds from the Department. (For a discussion of payment methods, see chapter 3.) The disbursements may be credited to the student's account or made directly to the student or parent, as discussed earlier. There is a similar requirement for schools receiving FFEL funds.

Note that these timeframes for disbursing to the student's account (or directly to the student/parent) are different than those for paying FSA credit balances to the student or parent. As we discussed earlier, a school generally has 14 days to pay an FSA credit balance to the student or parent, unless it has written permission to hold the credit balance.

Submitting Disbursement Records

An institution must submit Federal Pell Grant, ACG, National SMART Grant and Direct Loan disbursement records no later than 30 days after making a disbursement or becoming aware of the need to adjust a student's disbursement.

An institution's failure to submit disbursement records within the required 30-day timeframe may result in an audit or program review finding. In addition, the Department may initiate an adverse action, such as a fine or other penalty for such failure.

DISBURSING FWS WAGES

Your school may use any type of payroll period it chooses, provided students are paid at least monthly. It is a good idea to have the FWS payroll correspond to other similar payrolls at the school. Unless you are paying the student with noncash contributions (see below), you must pay the nonfederal share to the student at the same time you pay the federal share.

FWS wages are earned when the student performs the work. A school may pay the student after the last day of attendance for FWS wages earned while he or she was still in school. However, when a student has withdrawn from school and is not planning to return, FWS funds may not be used to pay for work performed after the student withdrew. A correspondence student must submit the first completed lesson before receiving a disbursement under the FWS Program.

Crossover payment periods

When a payment period is in two award years (that is, when it begins before and ends after July 1), the student is paid for compensation earned through June 30 with funds allocated for the first award year and for compensation earned beginning July 1 with funds allocated for the following award year. (See *Volume 6* for a discussion of carrying back funds for summer employment.)

Disbursing to students from the correct award year is important; schools have been held liable when students were paid from the wrong FWS authorization. For audit and program review purposes, your school must have documentation (e.g., canceled checks, bank statements) showing that students received disbursements in the amount charged to the FWS Program.

Holding FWS funds on behalf of the student

With written authorization from a student, a school may hold, on behalf of the student, FWS funds that would otherwise be paid directly to the student (unless this is prohibited by the terms of a reimbursement payment method). The restrictions for such an authorization are the same as those that apply to written authorizations for disbursements to student accounts. If your school holds FWS funds on behalf of students, it must:

- identify the amount of FWS funds held for each student in a designated subsidiary ledger account,
- maintain cash in its bank account that is always at a minimum equal to the FWS funds being held for students, and
- disburse any remaining balance by the end of the school's final FWS payroll period for the award period.

Paying FWS wages

- 34 CFR 675.16
- also see *Volume 6* for rules regarding school contribution and eligible FWS employment.

Noncash contribution

Your school also has the option of paying its share of a student's FWS wages in the form of a noncash contribution of services or equipment — for example, tuition and fees, room and board, and books and supplies. However, you may not count forgiveness of a charge such as a parking fine or library fine against a student who is employed under FWS as part of the school's noncash contribution to the student.

Noncash payments (tuition, fees, services or equipment) must be made before the student's final payroll period of the award period. If the school pays its share for a forthcoming academic period in the form of prepaid tuition, fees, services or equipment, it must give the student — again, before the end of the student's final payroll period — a statement of the amount of the noncash contribution earned.

Garnishment of wages

A student's FWS wages may be garnished only to pay any costs of attendance that the student owes the school or that will become due and payable during the period of the award. Schools must oppose any garnishment order they receive for any other type of debt; by law, FSA funds may only be used for educational purposes. If your school is not the employer in an off-campus employment arrangement, it must have an effective procedure to notify off-campus employers that garnishment of FWS wages for any debt other than a cost of attendance is not permissible.

COMPLETION OF COURSEWORK REQUIREMENTS

Completion of coursework cites

- Pell Grants: 34 CFR 690.75(a)(3)
- FFEL: 34 CFR 682.604(c)(8) and (c)(9)
- Direct Loans:
34 CFR 685.301(b)(5) and (b)(6)
- Excused absences: 34 CFR 668.164(b)(3)

Example: coursework completion requirement in a modular program

A 1-year program with no terms awards 24 credit hours, which are taught in a series of six 4-hour modules. The school groups the modules into two 12-hour payment periods. The first payment period takes 15 weeks to complete. The student cannot progress to the second payment period until the student successfully completes 12 credit hours and the 15 weeks of instruction have elapsed. If the student fails the first 4-hour module, he or she will still need to successfully complete three modules (for a total of 12 credits) to progress to the next payment period.

Terms with clock hours

The payment periods for clock-hour term programs are determined in the same way as for nonterm clock-hour programs. The student must successfully complete all the clock hours in the payment period before receiving any more Pell funds. If a student doesn't complete all the hours scheduled for a term, each payment period still contains the number of clock hours originally scheduled, even if this means that none of the student's succeeding payment periods coincide with the terms.

Pell Grants

For a student enrolled in a credit-hour program without terms or a clock-hour program, a school may disburse a Federal Pell Grant to an eligible student only after it determines that the student has successfully completed the credits or clock hours and weeks of instructional time in the prior payment period as defined in *Volume 3, chapter 1* for which he or she has been paid a Federal Pell Grant.

Stafford and PLUS loans in clock-hour programs

If an educational program measures academic progress in clock hours, the school may not deliver the second half of the loan proceeds until the later of the calendar midpoint between the first and last scheduled days of class of the loan period; or the date, as determined by the school, that the student has successfully completed half of the clock hours in the loan period. The school must deliver loan proceeds in substantially equal installments, and no installment may exceed one-half of the loan.

Stafford and PLUS loans in credit-hour programs without terms and credit-hour programs with nonstandard terms that are not substantially equal in length

If the program is one academic year or shorter, the loan period is usually the length of the program. If the program is longer than an academic year, there will usually be another loan period for any subsequent academic year or remaining portion of an academic year. For each loan period in these programs, the second half of the loan proceeds may not be disbursed until the later of: the calendar midpoint between the first and last scheduled days of class of the loan period, or the date the student successfully completes half the credit hours in the loan period. In programs where the student cannot earn the credit hours until the end of the loan period, the school must determine when the student has completed half the coursework for the loan period.

For credit-hour term-based programs there is no requirement that a student successfully complete all of the coursework to receive payment in the next term except when nonstandard terms are not substantially equal in length. For instance, a student could receive a Stafford disbursement in the Spring term after failing several courses in the Fall term, provided that the student was still making satisfactory progress under the school's policy.

Excused absences

In a clock-hour program, you are allowed to count a limited number of excused absences when deciding whether the student has completed the hours in a payment period. An excused absence may only be counted if the student is excused from hours that were actually scheduled, were missed and do not have to be made up for the student to receive the degree or certificate for the program.

For instance, a student in a program that has 450-clock-hour payment periods might miss 20 clock hours and only have attended 430 clock hours at the point where 450 clock hours of instruction had been given. If your school has an excused absences policy, and the hours missed are considered excused, this student could be paid the next disbursement.

To be counted for FSA purposes, excused absences must be permitted in your school's written policies. Under FSA regulations, no more than 10% of the clock hours in a payment period may be considered excused absences. If your school's *accrediting agency* or the *state agency that legally authorizes your school to operate* allows fewer hours to be counted as excused absences, you must follow the stricter standard rather than the FSA standard.

RETAKEING COURSEWORK

Term-based credit-hour programs

In general, students at term-based credit-hour schools may receive FSA funds for retaking coursework and the credits may be included in the total number of credits that the student is taking when determining enrollment status as long as he or she is considered to be making satisfactory academic progress and as long as the school is allowing the student to receive credit for the repeated course. Generally, schools do not give a student credit for repeating a course to earn a better grade unless the student failed the course the first time and received no credit.

For satisfactory academic progress purposes, each time a course is taken counts as an attempt; only the first time a passing grade is received is counted as a completion.

If a student who received an incomplete in a course in the prior term is completing the coursework in the subsequent term to erase the incomplete in the prior term, the student is not considered to be enrolled in the course for the subsequent term. Therefore, the hours in the course do not count toward the student's enrollment status for the subsequent term, and the student may not receive FSA funds for retaking the course.

However, if a student who received an incomplete in a course in the prior term is retaking the entire course for credit in the subsequent term, the hours in the course count toward the student's enrollment status and the student may receive FSA funds for retaking the course.

Clock-hour and nonterm credit-hour programs

Withdrawal and reentry within 180 days

When a student withdraws from a clock-hour program or nonterm credit-hour program during a payment period or period of enrollment and then reenters the same program within 180 days, the student is put back into the same payment period, and any FSA funds that the school or student returned to FSA are repaid to the student. The student may not be paid additional FSA funds for repeating coursework. Correspondingly, a student who ceases attendance between payment period or periods of enrollment but returns within 180 days may not be paid for repeating coursework.

Withdrawal and reentry after 180 days

A student who withdraws from a clock-hour program or nonterm credit-hour program and then reenters the same program after 180 days is treated in the same manner as a student who transfers into the program from another school; i.e., the student immediately begins a new payment period or period of enrollment. In this circumstance, the student may be paid for repeating coursework as the student is receiving credit for the repeated course. A student who ceases attendance between payment periods or periods of enrollment but returns to the same program after 180 days may also be paid for repeating coursework.

Take, for example, a student who withdraws after completing 302 clock hours of a 900-clock-hour program, so there are 148 hours in the payment period that the student did not complete. The student reenrolls after 180 days in the same program and receives credit for 100 hours. The program length for purposes of determining the new payment periods and period of enrollment is 800 clock hours (the remainder of the student's program), so the new payment periods are 400 hours and 400 hours. The FSA payments would be for 400 hours for both payment periods, not limited to 148 hours for a payment period. If the student in this example received no credit for previously completed hours, the student's program length for purposes of determining the payment periods would be 900 clock hours.

Pell Grant Disbursements for Reentering Students

Grant disbursements in the award year, if a student enrolled in a clock-hour or nonterm credit-hour educational program reenters the institution within 180 days after initially withdrawing and a deadline set by the Secretary in the Federal Register (September 15, 2006 for the 2005-2006 award year), an institution may request administrative relief to disburse the student's Pell Grant by the earlier of 30 days after the student reenrolls or a deadline set by the Secretary in the Federal Register (May 1, 2007 for the 2005-2006 award year).

For more information on the treatment of FSA funds when a student reenters a program, including the effect on awarding FSA funds, see *Volume 5, chapter 2*.

Repeating after program completion

Any student who completes an entire nonterm credit-hour or clock-hour program, and later reenrolls to take that same program again or to take another program may be paid for repeating coursework regardless of the amount of time between completion of the first program and beginning the program or another program again.

LATE DISBURSEMENTS

Generally, an otherwise eligible student or parent becomes ineligible to receive FSA funds on the date that the student:

- for a loan made under the FFEL or Direct Loan program, is no longer enrolled at least half time; or
- for purposes of the Pell Grant, FSEOG, and Perkins Loan programs, the student is no longer enrolled at the school for the payment period or period of enrollment as applicable.

However, if certain conditions are met, students must be considered for a disbursement after the date they became ineligible. These disbursements are called “late disbursements.”

Conditions for a late disbursement

A student must be considered for a late disbursement as long as the Department has processed a SAR/ISIR with an official EFC before the student became ineligible. Therefore, a school must review its records to see if a student who did not receive a disbursement of FSA funds before becoming ineligible is eligible for a late disbursement. Generally, this condition is easy for a school to document, since each ISIR record includes the date the Department processed the application and created the SAR/ISIR. In addition, for an FFEL or Direct Loan program loan, the loan must be certified or originated, as applicable, prior to the date the student became ineligible. Similarly, for an FSEOG or a Federal Perkins Loan, the school must have made the award to the student prior to the date the student became ineligible.

Late disbursements that must be made vs. late disbursements that may be made

If a student who qualifies for a late disbursement completes the payment period or period of enrollment, or withdraws during the payment period or period of enrollment, a school **must** make or offer as appropriate, the late disbursement. A late disbursement for a student who has withdrawn during the payment period or period of enrollment is called a post-withdrawal disbursement.

SAR documenting eligibility for late disbursement

In some cases the student may have a SAR/ISIR with an official EFC processed while the student is enrolled, but the school is not listed. When the school receives an ISIR listing the school after the student ceases to be enrolled, it will have a processing date subsequent to the date the student ceases to be enrolled. In this circumstance the student’s eligibility is documented by obtaining a copy of the SAR processed while the student was enrolled and eligible.

Processed Date

The applicable dates on an ISIR or SAR that are the processing dates for purposes of determining eligibility for a late disbursement are: for an ISIR, the field labeled *Processed Date*; for a SAR, the date above the EFC on the first page; and for a SAR Acknowledgment, the date labeled “transaction process date” in the School Use box.

Pell Grant disbursements

If the school receives a valid SAR or valid ISIR within the applicable deadlines, it must disburse the student’s Pell Grant.

Cite

34 CFR 690.61(a)

Late disbursement of a PLUS loan

A school does not have to rely upon a SAR/ISIR to determine if a parent qualifies for a late disbursement of a PLUS loan. However, in cases where a school does not have a SAR/ISIR, it may not certify or originate a PLUS loan until it documents that the student for whom the loan is intended meets all the applicable eligibility requirements (e.g., the student is not in default, does not owe an overpayment, is a citizen or eligible noncitizen, etc.).

Paying or offering amounts not credited to a student's account

A student or parent is never required to accept a late disbursement payment. For example, a student may decline a late disbursement of a loan to avoid taking on debt. In cases where a late disbursement is declined, a school has met the late disbursement requirements by offering the late disbursement funds.

Post-withdrawal disbursements

A post-withdrawal disbursement, a type of late disbursement, is Title IV aid that was not disbursed before a student withdrew, but which the student has earned based on a Return of Title IV Funds calculation. The conditions and limitations for a post-withdrawal disbursement are the same as for all other late disbursements. However, the requirements for paying a post-withdrawal disbursement are made in accordance with the regulations.

Cite
34 CFR 668.22(a)(4).

If a student did not withdraw or complete the payment period or period of enrollment but ceased to be enrolled as at least a half time student, a school **may** make a late disbursement of a loan under the FFEL or Direct Loan programs.

A student who withdraws and subsequently signs a promissory note in time for the institution to include the loan funds in the Return of Title IV Aid calculation may receive a late (post withdrawal) disbursement of the applicable amount of his or her loan funds (see *Volume 5* for more information). In addition, a student who loses eligibility for a reason other than his or her withdrawal and subsequently signs a promissory note may receive a late disbursement of the applicable amount of his or her loan funds.

Limitations on making a late disbursement

The regulations prohibit a school from making a late disbursement in certain situations, even if a student otherwise meets the conditions for a late disbursement. An institution is prohibited from making:

- a late second or subsequent disbursement of FFEL or Direct Loan funds unless the student has graduated or successfully completed the loan period (34 CFR 668.164(g)(4)(ii));
- a late disbursement of FFEL or Direct Loan funds to a first-year, first-time borrower who withdraws before the 30th day of the student's program of study (34 CFR 668.164(g)(4)(iii)) (unless the school meets the requirements for a waiver in 34 CFR 6882.604(c) (5) and 34 CFR 685.303(b)(4)); and
- a late disbursement of Federal Pell Grant funds to a student for whom the school did not have a valid SAR/ISIR by the deadline established by ED.

In addition, a school may not make a late disbursement later than 120 days after the date the student becomes ineligible. (Note that for an FFEL that was certified prior to the student becoming ineligible, the funds would have to be disbursed to the school by the lender in sufficient time for the school to deliver the funds to the student within 120 days of the date the student became ineligible.)

However, on an exception basis, the Department may approve a school's request to make a late disbursement after 120 days if the reason the disbursement was not made during the 120-day period was not the fault of the student or parent.

Conditions and Limitations on Late Disbursements

These Conditions Must Be Met Before a Student Loses Eligibility in Order for the Student to Receive a Late Disbursement (34 CFR 668.164(g)(2))		
Program		
Pell Grant	For all Programs, the Department processed a SAR/ISIR with an Official EFC.	No additional requirements.
FSEOG		Student is awarded a grant.
FFEL		A loan application is certified.
Direct Loans		An origination record is created.
Perkins Loans		Student is awarded the loan.
These Additional Limitations Must Be Satisfied Before a School May Make a Late Disbursement (34 CFR 668.164 (g)(4))*		
Program		
Pell Grant	School received a valid SAR/ISIR by the date established by ED.	
FSEOG	No additional limitations.	
FFEL	1 For a first-time, first-year borrower, student completed 30 days of the program. (Subject to waivers discussed earlier under <i>Timing of Disbursements</i> .) 2 For a second disbursement, student graduated or completed the period for which the loan was intended.	
Direct Loans		
Perkins Loans	No additional limitations.	

* For all programs, unless approved by ED, the late disbursement is made no later than 120 days after the date of the institution's determination that the student withdrew. Or, for a student who did not withdraw, 120 days after the student became ineligible.

Paying a late disbursement

If a student has completed the payment period or period of enrollment, a school must pay or offer the late disbursement to the student or parent.

For a post-withdrawal disbursement to a student who withdrew during a payment period or period of enrollment, a school must follow the rules for paying and/or offering a post-withdrawal disbursement in regulations governing the Return of Title IV Funds (see *Volume 5*).

If a school chooses to make a late disbursement of an FFEL or Direct Loan to a student who ceases to be enrolled as at least a half-time student, the school determines the amount of the late disbursement of the FFEL or Direct Loan it will offer the student by determining the educational costs the student incurred for the period of instruction during which the student was enrolled at least half time..

Flexibility in contacting students

In order to avoid having to contact a student multiple times, a school may use one contact to –

- counsel a borrower about his or her loan repayment obligations;
- obtain permission to credit loan funds to a student's account to cover unpaid institutional charges;
- obtain permission to make a late disbursement of grant or loan funds for other than institutional charges;
- obtain permission to make a late disbursement of grant or loan funds directly to a student; and
- confirm that a student wishes the school to receive as a direct disbursement any grant or loan funds the student is due as a late disbursement.

A student's response to an offer of Title IV funds from late disbursement does not have to be in writing. However, a school must document the student's response.

A school must contact a student prior to making ANY late disbursement of Title IV loan funds, and explain to the student his or her obligation to repay the loan funds if they are disbursed. The information provided in this notification must include the information necessary for the student or parent to make an informed decision about whether the student or parent would like to accept any disbursement of the loan funds. In addition, the school must confirm that the loan funds are still needed by the student, and that the student wishes the school to make the disbursement.

A school is permitted to credit a student's account with a late disbursement of Title IV grant funds without the student's permission for current charges for tuition, fees and room and board (if the student contracts with the school) up to the amount of outstanding charges. An institution must obtain a student's authorization to credit a student's account with Title IV grant funds for charges other than current charges.

If a student due a late disbursement of Title IV grant funds has no outstanding charges on his or her account, or if grant or loan funds remain to be disbursed from a late disbursement after the outstanding charges on the student's account have been satisfied, the school must offer the funds in writing to the student, and may not disburse the funds directly to the student without first having obtained the student's authorization.

Requirements and Procedures for Requesting Approval to Make a Late Disbursement Beyond 120 Days

1. Requests for approval to make a late disbursement after the 120-day late disbursement period must be made directly by a school or its third-party servicer. A lender, guaranty agency or other entity may not submit a request on behalf of a school, regardless of the reason the funds were not disbursed.
2. The school must fax its request on school (or school servicer) letterhead to the Federal Student Aid Support Team at (202) 275-5522. The fax cover sheet should be addressed to:
ATTN: Federal Student Aid Support Team, "Late" Late Disbursement Approval Requests.
3. A separate request must be submitted for each student or parent.
4. A separate request must be submitted for each Title IV program. However a single request may be submitted for a student who has both subsidized and unsubsidized Stafford loans for the same loan period.
5. Each faxed request must include the information listed below. Failure to provide all of the required information will delay consideration of the request. It is particularly important to explain why the disbursement could not be made before the end of the 120 day late disbursement period allowed by the regulations.

All requests must include:

- Date of request
- School's name
- School's OPE ID
- Contact person's name, title, phone number, fax number and email address
- Student's (and parent's, for PLUS loans) name and social security number
- Type of aid (Pell Grant, FFEL, Direct Loan, FSEOG, Perkins Loan)
- Amount to be disbursed (gross amount for FFEL and Direct Loan requests)
- A clear and concise explanation as to why the disbursement was not made while the student was still enrolled for the payment period or loan period or during the 120 day late disbursement period allowed by the regulations.

Pell Grant, FSEOG and Perkins Loan requests must include:

- Award year
- Payment period beginning and ending dates
- Answers to the following questions:
 - ✓ Did the student complete the payment period?
 - ✓ If the student did not complete the payment period, on what date did the student cease to be enrolled?
- Date the award was made to the student (FSEOG and Perkins Loan requests only)

FFEL and Direct Loan requests must include:

- Loan type (subsidized, unsubsidized, PLUS)
- Loan certification date (FFEL) or origination date (Direct Loan)
- Loan period beginning and ending dates
- Lender's name (FFEL requests only)
- Award ID (Direct Loan requests only)
- Answers to the following questions:
 - ✓ Did the student complete the loan period?
 - ✓ If the student did not complete the loan period, when did the student cease to be enrolled at least half time?
 - ✓ Does the request involve a late first disbursement of the loan or a late second or subsequent disbursement of the loan?

Requesting and Managing Federal Student Aid Funds

CHAPTER 3

Except for funds received as an administrative cost allowance (ACA), FSA program funds received by a school are held in trust by the school for students, the Department and, in the case of FFEL program funds, for lenders and guaranty agencies. The cash management regulations discussed in this chapter establish rules and procedures that a school must follow in requesting and managing funds for the Pell Grant, ACG, National SMART Grant, FSEOG, Perkins Loan, FWS, Direct Loan and FFEL programs. These rules and procedures also apply to third-party servicers.

DRAWING DOWN FEDERAL STUDENT AID FUNDS

Current Funding Level & GAPS

A school's Authorization (Current Funding Level (CFL) in Pell, ACG, National SMART Grant, and DL) is the level of funding for a school for the year in question. The school's available balance is the amount of cash available for a school to draw down from the Grants Administration and Payments System (GAPS). A separate Authorization is maintained for each program by award year. Schools operating under advance payment receive an initial CFL against which they can draw funds. Schools operating under reimbursement do not receive an initial CFL.

GAPS is a delivery system that supports program award and payment administration (see sidebar for Web and contact information). Schools may use GAPS to request payments, adjust drawdowns and report expenditures. It also provides continuous access to current grant and payment information, such as authorized amounts, cumulative drawdowns, current award balances and payment histories.

The advance payment method

Under the advance payment method, a school may submit a request for Pell Grant, Direct Loan and Campus-Based program funds through GAPS at any time — prior to or after disbursing aid to eligible students and parents. If GAPS accepts a school's request for funds, it will make an electronic funds transfer (EFT) of the amount requested to a bank account designated by the school.

CHAPTER 3 HIGHLIGHTS

❖ Drawing down FSA funds

- schools use the Department's GAPS payment system
- most schools use the Advance Payment or Just-in-Time payment methods
- some schools with administrative deficiencies are placed on Reimbursement or Cash Monitoring

❖ Maintaining & accounting for funds

- bank account notification requirements rules for maintaining federal funds in separate or commingled accounts
- rules for treatment of interest earned on federal funds

❖ Excess cash

- allowable tolerances

❖ Escheating prohibited

Purpose of cash management regulations

- promote sound cash management of FSA program funds by schools
- minimize the costs to the government of making FSA program funds available to students and schools
- minimize the costs to students who receive FSA loans.

Funding methods

Currently, there are four funding methods under which a school requests funds from the Department:

- the advance payment method,
- the Just-in-Time payment method,
- the reimbursement payment method; and
- the cash monitoring payment method.

The Department has sole discretion in determining the funding method a school uses to request FSA program funds.

Self-assessment tool for fiscal management procedures

You can evaluate your school's procedures by referring to "Fiscal Management" in the *Managing Funds* module of FSA Assessments.

<http://ifap.ed.gov/qamodule/FiscalManagement/FiscalManagementModule.html>

Advance requests for Perkins funds

Before requesting funds from its Perkins FCC, a school should compare its anticipated available Perkins funds (cash on hand + expected collections + expected interest + expected reimbursements for cancellations) against its anticipated Perkins disbursements. A school should take into account all sources of Perkins funds when determining whether it needs to draw down any additional amounts to cover disbursement.

Pushed Cash

For Direct Loans, a school may receive funds under the Pushed Cash method, a form of the advance payment method. The Department automatically deposits cash in the school's bank account based on disbursements that are submitted timely and accepted. Under the Pushed Cash method, the Department accepts a disbursement for a student only after accepting an origination and Master Promissory Note for that student. For further information see the *2005-2006 Common Origination and Disbursement (COD) Technical Reference*.

A school may not request more funds than it needs immediately for disbursements the school has made or will make to eligible students and parents. Therefore, a school must make the disbursements as soon as administratively feasible, but no later than three business days following the date the school receives those funds.

GAPS does not automatically accept a request for funds from a school under the advance payment method. For example, the Department may reject a request if the amount of the request exceeds the amount of funds the school is authorized to draw down.

Just-in-time payment method

As currently implemented by the Department in the Federal Pell Grant Program, under the Just-in-Time payment method, a school submits a disbursement record (which is both a report of a disbursement and a request for funds) no earlier than seven days before the school disburses funds to a student. For each disbursement the Department accepts, the appropriate amount of funds is deposited directly into the school's bank account.

Schools participating in the Just-in-Time pilot are exempt from the following regulatory requirements with respect to Federal Pell Grant funds:

- the 3-day-use rule discussed previously in Chapter 2 of this Volume,
- the determination of student eligibility at the time of disbursement (a school may rely on its determination at the time it submits the disbursement record for Federal Pell Grant funds),
- the requirement that a school maintain Federal Pell Grant funds in an interest-bearing bank account (see the discussion under *Maintaining and accounting for funds*), and
- the excess-cash rules (see the discussion under Excess cash).

Reimbursement & cash monitoring payment methods

Under these payment methods the Department releases funds to the school after the school has made the disbursement to the student (or parent borrower). Since relatively few schools are required to use these methods, we'll discuss them separately (see boxed text)

Reimbursement payment method

The Department places a school on reimbursement if it determines there is a need to monitor strictly the school's participation in the FSA programs. The school must first disburse Pell Grant, ACG, national SMART Grant, Direct Loan and Campus-Based program funds to eligible students and parents before it can request those funds from the Department. As part of its request, the school must:

- identify the students and parents for whom it is seeking reimbursement; and
- submit documentation demonstrating that each student and parent included in the request was eligible to receive, and received, FSA program funds.

The school's reimbursement request is approved if the Department determines that each student and parent included in the request was eligible for, and received, the proper type and amount of FSA program funds. After the reimbursement request is approved, the Department transfers electronically the appropriate amount of FSA funds to the bank account in which the school maintains its federal funds.

Cash monitoring payment method

The cash monitoring payment method works the same way as the reimbursement payment method – a school must first make disbursements to eligible students and parents before requesting FSA funds – but has less onerous documentation requirements. Unlike the reimbursement payment method where a school must provide detailed documentation for each student to whom it made a disbursement, the Department may relax the documentation requirements and provide funds to a school in one of two ways:

1. **Heightened Cash Monitoring 1 (HCM1).** After a school makes disbursements to eligible students, it draws down FSA funds to cover those disbursements in the same way as a school on the advance payment method.
2. **Heightened Cash Monitoring 2 (HCM2).** After a school makes disbursements to eligible students, it submits only the documentation specified by the Department. The Department may tailor the documentation requirements for schools on a case-by-case basis.

If the Department determines that a school should be placed on reimbursement, HCM1 or HCM2, it notifies the school. In the notice, the Department explains why it is taking this action, describes how the payment method works, identifies the documentation (if any) that the school must submit, and may provide other instructions to the school.

In addition, if a school is placed on reimbursement, HCM1 or HCM2 either because it is not financially responsible, or qualifies as a financially responsible school under the Zone Alternative in 34 CFR 668.175(d), its administration of the reimbursement or cash monitoring payment method must be audited every year. The independent auditor engaged by the school to conduct its annual compliance audit must express an opinion in the audit report regarding the school's compliance with the reimbursement or cash monitoring requirements, as applicable.

Limitations on the use of FFEL funds for schools on reimbursement or cash monitoring

A school that is placed on reimbursement or cash monitoring:

- may not disburse FFEL program funds to a borrower until the Department approves a request from the school to disburse funds to that borrower, and
- if prohibited by the Department, may not certify a loan for a borrower until the Department approves a request from the school to make the certification for that borrower (this restriction becomes effective on the date that the Department notifies a school that it must obtain approval from the Department to certify loans).

The school must provide documentation demonstrating that each borrower included in the request is eligible to receive the disbursement or certification. The documentation must be provided to the Department or an entity approved by the Department for this purpose (for example, a certified public accountant, financial aid consultant or guaranty agency).

Until the Department approves a request, the school may be:

- prohibited from endorsing a master check or obtaining a borrower's endorsement of any loan check the school receives from a lender,
- required to maintain loan funds that it receives from a lender via EFT in a separate bank account, and
- prohibited from certifying a borrower's loan application.

Because of the additional time it takes the Department to review documentation submitted by the school, the school may delay returning for 30 days FFEL Program funds that were provided by a lender via EFT or master check.

Note: This delay provision is applicable only in the FFEL programs, see 34 CFR 668.167(c) and (d).

MAINTAINING AND ACCOUNTING FOR FUNDS

All schools must maintain a bank account into which the Department transfers, or the school deposits, FSA program funds. The account must be federally insured or secured by collateral of value reasonably equivalent to the amount of FSA program funds in the account. A school generally is not required to maintain a separate account for each FSA program unless the Department imposes this requirement as a result of a program review or other action.

A school is not required to maintain a separate bank account for FFEL program funds that the school receives from a lender by EFT. A school must maintain and account for FFEL program funds in the same manner required for other FSA program funds.

When a school does not maintain a separate account

A school has a fiduciary responsibility to segregate federal funds from all other funds and to ensure that federal funds are used only for the benefit of eligible students. Absent a separate bank account, the school must ensure that its accounting records clearly reflect that it segregates FSA funds. Under no circumstances may the school use federal funds for any other purpose, such as paying operating expenses, collateralizing or otherwise securing a loan, or earning interest or generating revenue in a manner that risks the loss of FSA funds or subjects FSA funds to liens or other attachments (such as would be the case with certain overnight investment arrangements or sweeps). Clearly, carrying out these fiduciary duties limits the ways the school can otherwise manage cash in an operating account, when that account contains FSA funds.

If a school does not maintain a separate account for FSA program funds, its accounting and internal control systems must:

- identify the balance for each FSA program that is included in the school's bank or investment account as readily as if those funds were in a separate account; and
- identify earnings on FSA program funds in the school's bank or investment account.

A school must maintain its financial records in accordance with the recordkeeping requirements described in *Volume 2, Chapter 9*.

Maintaining & accounting for funds

34 CFR 668.163

Recordkeeping requirements

34 CFR 668.24

Not applicable to some programs

The cash management requirements are not applicable to the state grant and scholarship programs. The Leveraging Educational Assistance Partnership Program (LEAP—formerly the State Student Incentive Grant [SSIG] Program), the Special Leveraging Educational Assistance Partnership (SLEAP), the Robert C. Byrd Honors Scholarship (Byrd) Program and, if a State is the grantee, the Gaining Early Awareness and Readiness for Undergraduate Programs (GEAR UP) are administered under rules established by the states.

Timely return of funds

Schools are required to make a timely return of any unearned funds after a student withdraws, as discussed in *Volume 5, chapter 2*. This discussion also defines **timely return of funds** for a school that maintains FSA program funds and general operating funds in the same bank account.

Bank notification via UCC-1 form

The requirement that a school file a UCC-1 statement when an account's name does not include the phrase federal funds was established to reduce the possibility that a school could misrepresent federal funds as its own funds to obtain a loan or secure credit. Because public institutions generally do not seek to obtain credit in the same manner as private institutions, they are exempt from the requirement.

Remitting Interest

The fastest, most efficient way to remit interest is through the GAPS web site at

<http://e-grants.ed.gov/gapsweb/>

A school with a user ID and password can go to the main menu and select "Refunds" then "Interest." They will be taken to the screens through which they can send ED interest.

Schools can also return excess interest income to ED by check. The check should be sent to:

**U.S. Department of Education
P.O. Box 979053
St. Louis, Missouri 63197-9000**

The school should note on the check the school's DUNS number and Document Award Number, and it should also indicate that the remittance is for interest earned.

Bank account notification requirements

For each account that contains FSA program funds, a school must identify that FSA program funds are maintained in the account by

- including the phrase *federal funds* in the name of the account, or
- notifying the bank or investment company of the accounts that contain FSA program funds and keeping a copy of this notice in its records and, except for public institutions, filing a Uniform Commercial Code Form (UCC-1) statement with the appropriate state or municipal government entity that discloses that an account contains federal funds.

The school must keep a copy of the UCC-1 statement in its records.

Interest-bearing or investment account

Direct Loan, Pell Grant, ACG, National SMART Grant, FSEOG and FWS program funds must be maintained in an interest-bearing account or an investment account unless:

- the school drew down less than \$3 million of these funds in the prior award year and anticipates that it will not draw down more than \$3 million in the current award year,
- the school can demonstrate that it would not earn over \$250 in interest on the funds it will draw down during the award year, or
- the school requests these funds under the Just-in-Time payment method.

An investment account must consist predominantly of low-risk income-producing securities. If a school chooses to maintain federal funds in an investment account, the school must maintain sufficient liquidity in that account to make required disbursements to students.

Any interest earned on Direct Loan, Pell Grant, ACG, National SMART Grant, FSEOG and FWS program funds maintained in an interest-bearing account or an investment account that exceeds \$250 per award year must be remitted to the Department by June 30 of that award year (see sidebar). A school may keep up to \$250 per year of the interest or investment revenue earned (other than that earned on Perkins Loan funds) to pay for the administrative expense of maintaining the account.

A school must retain any interest earned on Perkins Loan funds as part of the Perkins Loan Fund. If a school maintains an account where Perkins funds are commingled with other FSA program funds, the interest earned on the Perkins funds must be identified, and those funds must be retained for use in the school's Perkins program.

Perkins Loan funds

A school that participates in the Perkins Loan Program must always maintain an interest-bearing account or an investment account for Perkins Loan funds. An investment account must consist predominantly of low-risk, income producing securities such as obligations issued or guaranteed by the U.S. Government. The school must maintain sufficient liquidity in its Perkins fund to make all required distributions.

If a school is also required to maintain an interest-bearing account or investment account for other federal funds, the school may use one account for Perkins Loan funds and all other federal funds. However, if the school chooses to maintain one account, it must determine the amount of any interest earned on the Perkins Loan funds and retain those funds for use in the Perkins program. The interest earned on the school's Perkins funds is not included in the \$250 maximum award year interest the school is permitted to retain.

A school may deduct from the interest earned any bank or service charges incurred as a result of maintaining the fund assets in an interest-bearing account, and deposit only the net earnings.

If a collection agency or third-party servicer receives funds directly from Perkins borrowers, it must immediately deposit those funds in an institutional trust account. The agency or servicer may open and maintain the account, but the funds in it belong to the institution. If the funds will be held for more than 45 days, the account must be interest bearing.

EXCESS CASH

As mentioned earlier, under the advanced payment method a school must disburse funds no later than three business days following the date the school receives them. *Excess cash* is any amount of program funds that the school does not disburse to students by the end of the third business day. However, this definition does not include funds received under the Just-in-Time payment method (see the discussion under the *Just-in-Time payment method* earlier in this chapter). Excess cash must be returned to the Department immediately.

Excess cash

34 CFR 668.166

Three-day rule

A school must disburse FSA funds as soon as administratively feasible but no later than three business days following the date the school received those funds.

Cite

34 CFR 668.162(b)(3)

Sometimes a school cannot disburse funds in the required 3 days because of circumstances outside the school’s control. For example, a school may not have been able to disburse funds because of a change in a student’s enrollment status, a student’s failure to attend classes as scheduled or a change in a student’s award as a result of verification. In view of these circumstances, a school may maintain some excess cash for up to seven additional days.

Allowable excess cash tolerances

During a period of peak enrollment, a school may maintain excess cash if the amount is less than 3% of the school’s total prior-year draw-downs. The school is required to eliminate the excess cash balance within the next seven days by disbursing program funds to students for at least the amount of that excess cash balance.

For any period other than a period of peak enrollment, the school can maintain the excess cash balance if the excess cash balance is less than 1% of the school’s prior-year drawdowns. In this case also, the school is required to eliminate the excess cash balance within the next seven days by disbursing program funds to students for at least the amount of that balance.

The Department reviews schools to determine where excess cash balances have been improperly maintained. Upon a finding that a school has maintained an excess cash balance in excess of allowable tolerances, a school is required to reimburse the Department for the costs that the government incurred in making those excess funds available to the school.

Where excess cash balances are disproportionately large or where they represent a continuing problem with the school’s ability to responsibly administer the FSA programs, the Department may initiate a proceeding to fine, limit, suspend or terminate the school’s participation in one or more of the FSA programs. For more on fines and other actions against schools, see *Volume 2 – School Eligibility and Operations*.

Generally, a check is issued when the school releases, distributes or makes available the check by mailing the check to the student or parent, or by notifying the student or parent expeditiously that the check is available for immediate pickup. However, upon finding that a school has maintained excess cash balances, the Department considers the school to have issued a check on the date that check cleared the school’s bank account, unless the school demonstrates to the satisfaction of the Department that it issued the check to the student shortly after the school wrote that check.

Period of peak enrollment

34 CFR 668.166(b)(2) defines a period of peak enrollment as a period when at least 25% of the school’s students start classes during a given 30-day period. A school identifies these periods of peak enrollment in advance, based on data from the prior award year:

Number of students who started classes in the comparable 30-day period in the prior award year

Total number of students who started classes during the entire prior award year

Excess cash rules

In general, excess cash is any FSA funds other than Perkins that are not disbursed by the end of the 3rd business day after funds are received from the Department (34 CFR 668.166).

The cash management regulations allow a school to hold FFEL funds for up to 10 days if the student is expected to become eligible in that time (34 CFR 668.167(b) and (c)).

The verification regulations provide a 45-day exception for holding FFEL loan funds.

Cite34
CFR 668.58(c)

Holding FFEL funds if student is temporarily ineligible

When a school receives FFEL Program funds from the lender by EFT or master check, it usually must disburse the funds within 3 business days. If the FFEL lender provided the loan funds through a check requiring the endorsement of the student or parent, the school must credit the student's account or issue a direct disbursement to the eligible student (or parent borrower) no later than 30 calendar days after the school receives the funds.

In some cases, your school may receive the loan funds at a point when the student is temporarily not eligible for a disbursement—for instance, if the student needs to complete the clock hours or credit hours in the first half of the loan period (for an academic program without terms). If you expect such a student to become eligible for disbursement in the immediate future, your school has an additional 10 business days to disburse the funds. In effect, this means that your school can wait 13 days after receipt of the EFT or master check (40 days for a check requiring endorsement) to make a disbursement to a student who is expected to regain eligibility during this 10-day window.

A school must return FFEL Program funds that it does not disburse by the end of the initial or conditional period, as applicable, promptly but no later than 10 business days from the last day allowed for disbursement. However, if a student becomes eligible to receive FFEL Program funds during the return period, the school may disburse those funds provided that the disbursement is made on or before the last day of the return period.

The requirement that a school return funds no later than a certain number of days means that a school must mail a check or initiate an EFT of FFEL funds to the lender by the close of business on the last day of that period.

Holding FFEL Stafford loan funds for verification

If you have certified an FFEL Stafford Loan for a student who was selected for verification, and the loan funds arrive before verification is completed, your school may hold the loan proceeds for up to 45 days. If the applicant does not complete the verification process within the 45-day period, your school must return the loan funds to the lender.

If the student's eligibility was reduced as a result of verification, you may make the full disbursement if the excess amount can be eliminated by reducing subsequent disbursements for the applicable loan period. (You must advise the lender to reduce the subsequent disbursements.) If the excess funds cannot be eliminated in subsequent disbursements for the applicable loan period, your school must return the excess funds to the lender.

FFEL three-day rule

34 CFR 668.167(b)(2)

Holding and returning FFEL funds

- Basic requirement to return FFEL funds
34 CFR 668.167(b)(1)
- Additional 10 days
34 CFR 668.167(b)(2)
- If the borrower did not complete the number of clock hours or credits in the previous payment period
34 CFR 668.167 (c)(1)(i)(A)&(B)
- if the student has not met all the FFEL eligibility requirements and the school expects the student to meet them within the 10 days
(34 CFR 668.167 (c)(1)(ii)(A)&(B))
- if the school is on heightened cash monitoring.
34 CFR 668.167(d)&(f)
- Verification delay
34 CFR 668.58(c)

Returning FFEL funds promptly

For purposes of the cash management regulations and this discussion, returning funds promptly means that a school may not delay its normal process for returning FFEL Program funds to lenders.

Cite

FFEL: 34 CFR 668.167

Example of a policy to prevent escheating

Typically, each state establishes the useful life of a check or bank draft used to disburse FSA program funds. After this established date, the check cannot be negotiated and the proceeds of an uncashed check normally escheat to an unintended third-party (the state or the institution).

In state A, a bank check has a useful life of 180 days. In order to prevent FSA funds from escheating to a third-party, the Business Office at School A, at the end of each month, identifies all outstanding uncashed checks containing FSA funds. Prior to the 180th day, the Business Office voids the uncashed checks and restores the funds back to the applicable FSA program.

PROHIBITION ON ESCHEATING OF FSA FUNDS

Because program funds are awarded to a student to pay current year charges, notwithstanding any authorization obtained by a school from a student or parent, the school must pay:

- any remaining balance from loan funds by the end of the loan period, and
- other remaining program funds by the end of the last payment period in the award year for which they were awarded.

A school that fails to disburse funds by those dates is in violation of the Department's cash management regulations. If a school pays credit balances by check, and if a school cannot locate a student to whom an FSA credit balance must be paid, the school must exercise its fiduciary responsibility to the student and the FSA programs, and return the credit balance to the programs.

A school has a fiduciary responsibility to –

- safeguard FSA funds,
- ensure FSA funds are used only for the purposes intended,
- act on the student's behalf to repay a student's FSA education loan debt when the school is unable to pay a credit balance directly to the student, and
- return to the Department any FSA funds that cannot be used as intended.

Under this process, FSA funds would never escheat to a state, or revert to the school or any other third party. A failure to have such a process in place would call into question a school's administrative capability, its fiscal responsibility and its system of internal controls required under the Department's regulations.

RETURNING FUNDS

There are a number of reasons why a school may have to return funds to the Department including –

1. the return of FSA funds required when a school must correct an overaward or an overpayment, and the return of funds required when a student withdraws or otherwise ceases attendance during a payment period or period of enrollment (The return of funds under these circumstances is discussed in Volume 5.);
2. having FSA funds on hand with no expectation they can be disbursed to other eligible students within three days (excess cash);
3. owing the Department for expenditures disallowed during a program review or audit;
4. having earned interest on your federal funds (other than in your Perkins account) in excess of \$250.00; and
5. holding large Federal Perkins Loan cash balances on hand ((COH) balances on the FISAP).

GAPS allows Payees to return money to the Department (including excess interest) using the Electronic Refund Functionality in GAPS for up to 10 years following the end of the award year. For complete instructions on returning funds through GAPS, see The Blue Book and the GAPS Refund Manual.

Only in exceptional circumstances should a school return funds by sending a check instead of using the electronic refund functionality in GAPS.

Returning funds by depositing them in a federal funds account (34 CFR 668.173(b))

For funds obtained from the Department, a school meets the Return requirement if it deposits or transfers the funds into its federal account no later than 45 days after the school determined that a student withdrew or received an overpayment the school was responsible for returning.

If a school has not drawn down federal funds or has made disbursements that exceed the amount the school has drawn the school does not need to be deposit funds in its federal account. Of course, the school's accounting records must show that institutional funds were used to credit the student's account.

Returning Funds by Check

(These instructions do not apply to returning funds from an audit or program review.)

If exceptional circumstances require that you return Pell or Campus-Based funds by check you must –

1. use a separate check for each award year; and
2. note the school's D-U-N-S number and the appropriate Program Award Number (Pell Grant Award Number) on the check.

The GAPS lockbox address for Pell and Campus-Based funds is

U.S. Department of Education
P.O. Box 979053
St. Louis, Missouri 63197-9000

If exceptional circumstances require that you return Direct Loan funds by check, you must –

1. use a separate check for each award year;
2. note the school's D-U-N-S number, Direct Loan school code, and award year on each check; and
3. include a completed Direct Loans Return of Cash form with each check (see DLB 04-06).

The address for returning Direct Loan funds by check is:

U.S. Department of Education
Attention Refunds of Cash
P.O. Box 9001
Niagra Falls, New York 14302

Downward adjustments required

All Pell Grant funds, other than funds that are being returned to stay in compliance with the excess cash requirements, must be offset by downward reductions in students records in COD. Likewise, all Direct Loan funds, other than funds that are being returned to stay in compliance with the excess cash requirements, must be offset by downward reductions in borrowers' loans in COD.¹

All returns of Pell funds made by a school receiving funds under the Pushed Cash method must be offset by reductions in the student's Pell in COD.

All returns of Pell funds previously disbursed (unclaimed credit balances) must be offset by reductions in COD.

Returning funds from an audit or program review

If, as a result of a program review or audit, a school is required to repay FSA funds, a copy of its Final Audit Determination Letter (FADL) or Final Program Review Determination (FPRD) letter is sent to ED's Receivables and Cash Receipts Team (RCRT) where an account receivable is established for the school. The Department will then, through its billing agent, bill the school for the disallowed expenditures, accrued interest, and penalties, if any. Payment instructions will be included with the bill.

- If a school owes ED \$100,000 or more, it must remit payment through its financial institution by FEDWIRE.
- If a school owes ED less than \$100,000 it must remit payment by check to ED's billing agent.

A school may not reduce amounts reported as net drawdowns on its GAPS Activity Reports to account for expenditures disallowed as a result of an audit or program review. Any FSA funds returned for this purpose will not be credited to a school's GAPS account.

Unless otherwise directed by the FADL or FPRD letter, a school may not adjust its prior-year FISAPs or Federal Pell Grant processed payment information to reflect expenditures disallowed as a result of an audit or program review. Also, the school should send Stafford/PLUS repayments directly to any FFEL Program lender, or to the Direct Loan Servicing Center.

1. A school that has drawn down more funds than it can disburse due to changes in students' status between the drawdown and disbursement date would need to return the funds if they could not disburse them within the allowed timeframe. However, such returns would not be offset by reductions in the students' records in COD.
