# 2013-2014 SAR Comment Codes and Text

## Overview

The 2013-2014 SAR Comment Codes and Text document serves as a standalone guide, as well as a companion to the *2013-2014 Electronic Data Exchange (EDE) Technical Reference*.

Refer to this document for information on the 2013-2014 Student Aid Report (SAR) comment codes and text.

We have not included the Web versions of the SAR comment text in this guide, because they are very similar to the SAR comment text. (See the Reminder on page 3 for one exception.) The only differences are wording changes that make the comments relevant to the Web version of the SAR rather than to the paper form or printed (electronic) Institutional Student Information Record (ISIR). For example, the text for a SAR comment code may describe printed information, whereas the equivalent Web comment code describes a Web page displaying the information.

## How do the comment codes and text work?

The Central Processing System (CPS) adds comment codes and text to the student's transaction to provide information to the student and to you about the student's processed Free Application for Federal Student Aid (FAFSA).

The comment codes and text are printed on paper SARs and on ISIRs printed from EDExpress for Windows or other financial aid software you may use. Each comment code is three digits in length and can be found in positions 2721 to 2780 in the ISIR file.

# How do I use the 2013-2014 SAR Comment Text table?

The 2013-2014 SAR Comment Text table includes the following information:

- Column 1, SAR Comment Code:  This column lists the comment codes numerically.

- Column 2, SAR Comment Text Definition:  This column contains the text that is printed on SARs and on printed ISIRs.

- Column 3, Notes/Changes:  This column describes changes to the comment text.

- Column 4, Reason for the Comment:  This column describes the reason or conditions that caused this comment to appear in the student's record.

- Column 5, C Code:  This column indicates whether a C code is set.

  The CPS typically generates a C code when database match results require resolution by the school.  The CPS also generates a C code if an applicant's response to the FAFSA drug question (question 23) requires resolution or financial aid administrator action.

- Column 6, Reject Code:  This column indicates a reject number or letter if a reject code is associated with a comment code.

- Column 7, Action Needed:  The final column describes actions needed to resolve the C flag or reject associated with the comment.

  **Note:**  The resolution information is provided for you to use as a quick reference.  The *Federal Student Aid Handbook,* Volume 1–FSA Handbook:  Student Eligibility contains detailed information about student eligibility and the action needed to resolve discrepancies found in the data matches.  The handbook is located on the U.S. Department of Education's Information for Financial Aid Professionals (IFAP) Web site, located at ifap.ed.gov.

# Where can I find more information about ISIRs?

*The 2013-2014 ISIR Guide* is designed to assist financial aid administrators with interpreting student information from ISIRs.  The *2013-2014 ISIR Guide* is available on the IFAP Web site, as well as on the Federal Student Aid Download (FSAdownload) Web site, located at fsadownload.ed.gov.

# Changes to the Comment Codes

## SAR Comment Code Changes

You can review the changes to the comments in the Notes/Changes column of the following table. A summary of these changes is also provided in the *2013-2014 Summary of Changes for the Application Processing System* guide, posted later this fall on the IFAP and FSAdownload Web sites.

Comments with the first line indented are printed in the "Comments About Your Information" section on the SAR. Comments that are left-justified are printed with a checkbox in front of the comment and are printed in the "What You Must Do Now" section.

**Reminder:** As part of the 2008-2009 SAR Redesign process, we removed the text for comment codes 047, 050, 112, 149, 158, 159, 170, and 171 from the paper SAR comments section on page three and instead present the information contained in these comments as variable text in the appropriate section on the first page. Text associated with these comment codes is only displayed on the Web; the text is not displayed in the EDExpress software and is not printed on the EDExpress ISIR. **Note**, however, that the comment code numbers are included in the ISIR file and appear in the FAA Information section of the printed ISIR. Schools using EDExpress still have the ability to query their databases using these comment code numbers.

When viewing or printing an ISIR using FAA Access to CPS Online, or when a student is viewing or printing his or her SAR information on the Web, the text for the affected comments is printed. ISIRs printed from third-party software may not print the text for these comments, depending on how the software was programmed. We recommend consulting with your software vendor for more information.

**Note for users of this guide:** To assist you when reviewing a SAR or ISIR that contains these comment codes, we have provided the text for the Web comments in this guide. If the comment text is preceded with text referring to the Web, the comment text is printed on the ISIR from FAA Access to CPS Online and is displayed to the student on the Web.

In some cases, the text that was removed from the EDExpress software is the same as the Web text, and we note that where appropriate. In other cases, the text varies slightly from the Web version. We have also provided the SAR/ISIR text that was removed from EDExpress. Schools using their own software and third-party software providers may, at their discretion, program their systems to include the text on printed ISIRs.

See the March 20, 2008 electronic announcement regarding this change on the IFAP Web site.

# SAR C Code Changes

The SAR C code is set on a student's record based on his or her eligibility conditions. The following is a complete list of 2013-2014 comments that are associated with the SAR C code:

The Anti-Drug Abuse Act of 1988 includes provisions that authorize federal and state judges to deny certain federal benefits, including student aid, to persons convicted of drug trafficking or possession. The CPS maintains a hold file of those who have received such a judgment, and it checks applicants against that file to determine if they should be denied aid. This is separate from the check for a drug conviction via question 23; confirmation of a student in the drug abuse hold file will produce a rejected application and a separate comment from those associated with responses to question 23. |

If a correction is made to date of birth, SSN, first name, or last name, the record will be sent again for matching. Review subsequent transactions for updated match flag.  If the SSN is incorrect, the student can correct the SSN on the SAR/ISIR. If this is done, the student's original SAR ID [the ID that is used (with the incorrect SSN) to access the SAR/ISIR] will not change, but the current SSN reported in question 8 will be changed to reflect the corrected SSN.  Alternatively, the applicant can file a new FAFSA under the correct SSN. This FAFSA will be treated as an original application and will be sent through all of the matches as if another FAFSA was never completed. The SAR ID will be the same as the SSN reported on this application. |

If the SSN is correct, the applicant must contact the SSA at 1-800-772-1213 or www.socialsecurity.gov to resolve this problem. If the SSN is incorrect, the applicant must correct the SSN on a paper SAR or submit a new FAFSA online with the correct SSN. | | SSN Match Flag = 5 (SSN, name, and DOB match with date of death)  A successful SSN match with a record that belongs to deceased person | | 8 | **Resolution required.**  If the student's SSN is correct, he or she must contact SSA. After SSA corrects its records, the student can re-enter the name or date of birth and submit it as a SAR/ISIR correction so the transaction can go back to SSA for an updated match flag. ISIR records sent for rematching will continue to receive this match flag until SSA updates its database. Review subsequent transactions for updated match flag.  If the SSN is incorrect, the student can correct the SSN on the SAR/ISIR. If this is done, the student's original SAR ID [the ID that is used (with the incorrect SSN) to access the SAR/ISIR] will not change, but the current SSN reported in question 8 will be changed to reflect the corrected SSN.  Alternatively, to obtain a SAR with a SAR ID that matches the student's reported SSN, the applicant should file a new FAFSA under the correct SSN. This FAFSA will be treated as an original application and will be sent through all of the matches as if another FAFSA had never been completed. The SAR ID will be the same as the SSN reported on this application. |

If you believe you are or will be a qualifying veteran, contact your financial aid office and provide a copy of your DD214 (military separation form). If you are currently serving on active duty in the U.S. Armed Forces for purposes other than training, change your answer to Item 49 from "Yes" to "No" and answer "Yes" to Item 48. If you are not and will not be a veteran, you must change the answer to Item 49 from "Yes" to "No" and provide parental information, including the signature of at least one of your parents. | Updated year reference | VA Match Flag = 3 (record not found on VA database) Independent, record not found on VA database, and record is not independent for a reason other than veteran status | Y | | **Resolution required.** If the student believes the match results are in error, he or she can provide the DD214 form (military separation form). However, it is likely that the military branch or Department of Defense has not sent the data to the VA. The student should contact a regional VA office to have VA records updated. Until the information is corrected in the VA database, the match results will not change. While the student is resolving the discrepancy with the VA, the financial aid administrator can collect from the applicant the DD214 that clearly demonstrates that he or she is a veteran of the U.S. Armed Forces. If the documentation confirms that the student is a veteran, Title IV aid can then be disbursed to him or her. If the match results are correct and the student is not a qualifying veteran, he or she must submit a correction to change the answer to Item 55 from "Yes" to "No" and provide parental information, including the signature of at least one parent. |

| 254 | Based upon data provided by the National Student Loan Data System (NSLDS) and your grade level, we have determined that you may have received subsidized student loans in excess of loan limits established for the federal loan programs. You should review the information on Page 4. | | NSLDS Subsidized or Combined Loan Total has exceeded loan limits based on NSLDS Loan Limit Flags or Postscreening reason codes of 09 or 10 | Y | | **Resolution required.** In general, students who borrow in excess of aggregate loan limits are ineligible to receive further Title IV assistance. However, if the school determines that the student inadvertently borrowed in excess of the limits, the student may regain eligibility either by repaying the amount borrowed in excess of the aggregate limits or by making satisfactory (to the loan holder) repayment arrangements for the excess amount. See Section 668.35(b) (1) of the Federal Student Financial Aid Regulations and Dear Colleague Letter GEN 96-13, Q&A #17 for additional information. |

| 257 | Based upon data provided by the National Student Loan Data System (NSLDS) and your grade level, we have determined that you may have received a total amount of student loans (graduate and undergraduate) that is close to or equal to the loan limits established for the federal loan programs.  Therefore, your eligibility for additional student loans may be limited. You should review the information on Page 4. | | NSLDS Subsidized or Combined Loan Total is close to exceeding the loan limits based on NSLDS Loan Limit Flags Graduate close to loan limit | | | **No resolution required.** On the CPS 01 transaction, loan limits may already be exceeded.  However, the CPS would not detect it until NSLDS postscreening occurs.  Schools must check aggregate amounts to determine if loans to the student are close to, equal to, or exceeding loan limits.  If they are exceeding, see action needed for comment 254.  If loan limits are close to or equal to the limits, caution should be used to ensure that the student does not exceed his or her loan limits with subsequent Title IV loans. |

Before you can receive additional federal student loans, you must contact the financial aid office at your school. | | NSLDS Identity Theft loan | | | **No resolution required.** SAR comment code 259 was originally developed in 2008-2009 to be added to the record of an innocent student who was the victim of identity theft. However, we subsequently determined the comment was unnecessary as the student would simply have his or her identifiers removed from the fraudulently received loan. This comment will never appear on a student's record. |

# Database Match Results

## How to Use the Charts

The information in this section is provided for you to use as a quick reference. The *Federal Student Aid Handbook,* Volume 1–FSA Handbook: Student Eligibility contains detailed information about student eligibility and the action needed to resolve discrepancies found in the data matches. The handbook can be found on the IFAP Web site, located at ifap.ed.gov.

A flag of **C** is an indicator that institutional resolution is required. The C Flag is printed on the SAR next to the EFC if any of the conditions described in the chart are met.

**Note**: Some of these data match results generate rejected records. Comments associated with a match results reject do not generate SAR C codes. However, a SAR C code could be generated by another match result comment and is printed on a SAR rejected for other than match results reasons. An EFC is not provided on any rejected records.

An asterisk (*) in the Match Flag column of this chart indicates that a match flag value is not generated for cases that could not be sent to the matching agency.

# DHS Secondary Confirmation Match

CPS waits for three compute days to receive results from Secondary Confirmation instead of processing ISIRs with results from Primary Verification only.

After three days, if DHS does not return a response, CPS generates the ISIR, which shows that Secondary Confirmation is still in progress.

| SAR C Code/ Reject | Match Flag | Comment Number |
|---|---|---|
| | P = Pending results of secondary confirmation | No comment |
| | Y = Citizenship status confirmed by DHS | 120 |
| C code | C = DHS has not yet confirmed eligible noncitizen status | 105 |
| C code | N = DHS did not confirm eligible noncitizen status | 046 |
| C code | X = DHS did not have enough information to confirm eligible noncitizen status | 109 |

## *Notes about the paper (G-845) Secondary Confirmation Process*

- Before sending copies of documentation to DHS, the school should confirm that the student identifiers on the ISIR are accurate, especially Alien Registration Number and Date of Birth. If application data is incorrect, submit corrections to the CPS instead of paper Secondary Confirmation.

- Be sure to enter the student's 15 digit DHS Verification Number on the G-845 form. It can be found in the Match Flags section of the ISIR.

- In all cases, if a school does not receive a response to a paper Secondary Confirmation request within 15 days, student is eligible for aid if documentation appears to support claim of eligible noncitizen.

# Appendix

## Overview

This Appendix is updated each time change pages are issued for the SAR Comment Codes and Text. The tracking log is added for each set of change pages as they are issued, providing you with a cumulative list of the updates made to the document.

New text additions in SAR Comment Codes and Text change pages are identified with ***bold italic*** text. Text deletions are marked with ~~strikethrough~~.

When the SAR Comment Codes and Text is modified through a change page release, the footer is updated to reflect the month that the change pages were issued. For example, if a change is made to page 105 in December 2011, the footer will show "December 2011." Use the corresponding tracking log to identify that specific month's change page posting.
