

Volume V, Section 2 - COD Full Participant Test Cases

Introduction

All schools must now use the Common Record in XML format to submit Pell Grant and/or Direct Loan origination and disbursement data to the COD System over the Student Aid Internet Gateway (SAIG).

Schools should refer to *Volume II of the 2006-2007 COD Technical Reference* for record layouts and processes.

Schools that participate in COD School Testing can test with the structured test cases described in this guide and will receive receipt and response files from COD.

Test Data Sent from the Schools to the COD System

This section provides an overview of the records schools send to COD during the School Testing process. Each type of record and its general functionality are described. General test conditions are also discussed.

Common Record

The Common Origination and Disbursement Process utilizes one single record across programs for both originations and disbursements. Schools use the Common Record, which uses common data elements, definitions, edits, and structure for Pell Grants and Direct Loans. Although the record has the same layout for all programs, not all data elements are required for each transmission or for each program. This record layout relies on a new technology called XML.

For School Testing, the Common Record is submitted using the message class **CRTESTIN**.

Upon receipt of a Common Record in XML format, the COD System performs an immediate check to determine if the Common Record is readable. If the Common Record is readable and complies with the XML schema, the COD System returns a receipt. COD will not return a receipt or response for records that are not readable nor comply with the XML schema.

For School Testing, the receipt is returned using the message class **CRTESTOP**.

After the COD System confirms the Common Record is readable and complies with the XML schema, the COD System classifies the record to determine how it will be processed. The record is classified as either a new record or an update record.

A new record establishes a new student, award or disbursement on the COD System. There are three types of new records:

- *New Student with a New Award* - If the student identifier does not match any previously submitted to the COD System the record is considered a new student. A student cannot be established on the COD database until an award is accepted for the student.
- *New Award* - If the student identifier matches a person already established on the COD System, the system checks to determine if the award is already on file. If not, then the record is considered a new award.
- *New Disbursement* – If the person and award already exist on the COD System, the system checks the disbursement number submitted for the award. If it is not already on file, the system logs the disbursement as a new disbursement. There are two types of disbursement records:

- *Actual Disbursement* – Actual disbursement records contain a disbursement release indicator = “True”.
- *Edit Only* - Edit only records (or Anticipated disbursement records) contain a disbursement release indicator = “False” or omitted. These disbursements are not considered actual disbursements; therefore, they do not substantiate drawdowns or cause funds to be pushed to the school.

An update (or change) record performs a change to information or elements that were previously established on the COD System. There are two types of update records:

- *Update Record* - An update record performs a change to a non-monetary data element that was previously established by a new record OR is used to change disbursement amounts and dates.
- *Release Record* - A release record is submitted with a disbursement release indicator = “True” for a disbursement record previously submitted as an edit only record. A release record signals to the COD System that the disbursement information is an actual disbursement. It either releases funds available to a school via drawdown, or substantiates cash already made available to the school.

After the Common Record is processed, the COD System returns a receipt and response to the school.

For School Testing, the response is returned using the message class **CRTESTOP**.

Testing with the predefined test data covers scenarios for nine students including:

- New Students with a New Award
- New Disbursements – Actual Disbursements
- New Disbursements – Edit Only Disbursements
- Update Records
- Release Records

The Common Record layout is provided in the *2006-2007 COD Technical Reference, Volume II, Section 3 – Common Record Layout*.

Note: School Testing for 2006-2007 will only involve the 2.0d schema. During the testing process, schools can submit data for 2006-2007 awards. Testing other data in the 2006-2007 schemas will not be possible. Testing concurrent award year processing in the 2006-2007 schemas will not be possible.

Test Data Received by the Schools from COD

This section provides an overview of the different record types that are received by a school from COD during the test process.

Common Record Receipts

The COD System returns a receipt after it performs an XML schema check. The receipt is sent to the School after the Common Record is processed by the COD System. This receipt is sent using the message class **CRTESTOP**.

Common Record Response

The Common Record Response is sent back to the school after processing is complete. Schools have the option of selecting either a standard or full Common Record Response. A full response contains all the data elements that were in the original Common Record sent by the school and the rejected data elements and reason codes. A standard response contains only the rejected data elements and error reasons codes. It is recommended that full responses be requested during this testing process. Test responses are sent using the message classes **CRTESTOP**.

Test Execution

In this section, record profiles are described for each test scripts are provided for each test case. Use these test scripts in conjunction with the *Volume II, Section 3 – Common Record Layout*. Specific data are defined, and step-by-step instructions for executing the test are provided. Below is a checklist of the major steps in the testing process:

Common Record Manual Verification

The purpose of the Common Record Manual Verification testing is to ensure that the school's XML Common Record is well formed and properly structured according to the rules of the XML Common Record Schema. The COD team manually reviews a Common Record document sent by the school and assists the school in the identification of potential updates to their Common Record submissions. This testing does not validate the data submitted within the Common Record. For this phase of testing, only two student records should be sent in the Common Record.

NOTE: Common Record Manual Verification is a required test phase for all schools that participate in school testing.

Common Record Manual Verification Checklist		
Step	Task	Task Completed
1	Schedule test dates with the COD School Relations Center for XML Common Record Manual Verification Testing (Phase I)	
2	Schools should use the test cases included in this document for the XML Common Record Manual Verification testing. This test data, after it has passed the XML structure verification can be used in the system testing and eliminate the need for the school to create more test data. DO NOT send real SSN, name, and/or address combinations. This is in respect to the Privacy act of 1974.	
3	Schools should e-mail Common Record data to COD School Relations Center. (E-mail address to be provided upon sign-up for testing)	
4	Schools will receive the results of the XML Common Record Manual Verification via e-mail. The results will include a list of errors and actions that need to be taken by the school to correct the data. It may also include a corrected file for the school to use as a reference for making corrections. Some potential errors are file size errors, missing tags and unused tags.	

Common Record Manual Verification Checklist		
Step	Task	Task Completed
5	Repeat steps 2-4 until test data passes XML Common Record Manual Verification	

Structured Application Testing

The purpose of the Structured Application Testing is to ensure that schools can send, receive, and process batches of records using detailed input instructions with detailed expected results issued by COD. Schools use a test ISIR file supplied by COD that creates a test data set of students to use with the structured test cases. During this phase, Schools send Common Record documents to COD and receive Common Record Receipts and Response documents back from COD.

NOTE: Structured Application Testing can begin only after successful completion of the Common Record Manual Verification Testing.

Structured Application Testing		
Step	Task	Task Completed
1	Prepare a test environment using a Test Destination Mailbox, Test message classes (CRTESTIN), School Entity ID, and specified COD forward system date.	
2	Receive a Technical Readiness Call from the COD School Relations Center. Confirms system date for testing.	
3	Schedule test dates with the COD School Relations Center for Structured Application Testing (Phase II).	
4	Prepare the test data (received from COD) for Submission Cycle 1 using the School Test Entity ID.	
5	Send the test document to COD school testing SAIG test mailbox (TG75891).	
6	If a school does not have a response within two (2) days, contact COD School Relations Center for an update.	
7	Once file has been sent, school must verify that the file has been received via SAIG portal and notify COD School Relations Center that the file has been sent.	
8	If the file was not received by SAIG, contact SAIG customer service at <u>either (800) 330-5947 or CPSSAIG@ed.gov.</u>	
9	Receive notification from the COD School Relations Center that the Receipt and Response are on the SAIG. Pull the Receipt and Response into the school COD system.	
10	Validate response documents against the published expected	

Structured Application Testing		
Step	Task	Task Completed
	results in this document.	
11	Call the COD School Relations Center to confirm results before proceeding.	
12	Repeat steps 4 through 8 for Submission Cycle 2.	
13	Receive notification from the COD School Relations Center that the testing cycle is complete.	
14	<p>If the school is not using a test environment, reset the school's system defaults for production, and verify that the test data is deleted or all test grants/loans are adjusted to \$0.</p> <p>Note: If the school does not reset the defaults, it may cause errors to the production data. Remember to change the school test environment system date back to the correct current date.</p>	

Test Loan Profiles

Case #1: Student 1 applies for a Federal Pell Grant. The student (Student 1) is an undergraduate student (Grade level = 4), and is eligible for a Pell Grant. The first submission contains the Common Record person, award, and disbursement. The student is awarded \$4050. The school receives a response indicating the Pell award is rejected due to date of birth. Therefore, this case is not included in the second submission cycle.

Case #2: Student 2 applies for a Federal Pell Grant. This student is a second-year student (Grade level = 2), and is eligible for a Pell Grant. The first submission contains the Common Record person, award, and disbursement data with a disbursement release indicator = True. The student is awarded \$900. The second submission contains an adjustment to the disbursement amount.

Case #3: Student 3 applies for a Federal Pell Grant. This student is an incoming first-year student (Grade level = 0), and is eligible for a Pell Grant. The first submission contains the Common Record person, award, and disbursement data with a Disbursement Release Indicator = false. The student is awarded \$4050. The second Common Record contains a Release Record with a Disbursement Release Indicator = true for an actual disbursement.

Case #4: Student 4 applies for a Direct Subsidized loan. This student is a second-year student (Grade level = 2), and the loan is for \$3,225. The first submission contains an Edit-Only Common Record with disbursement information and a Disbursement Release Indicator = false. The second submission includes a change in the student's address.

Case #5: Student 5 applies for a Direct Unsubsidized loan. This student is an undergraduate student (Grade level = 4), and the loan is for \$3,225. The first submission contains the Edit-Only Common Record with disbursement information and a Disbursement Release Indicator = false. The second submission includes a decrease in the award amount and disbursement amounts and a Release Record with a Disbursement Release Indicator = true for the first actual disbursement.

Case #6: Student 6 applies for a Direct Subsidized loan and Direct Unsubsidized loan. This student is a second-year student (Grade level = 2). The first submission contains the Common Record person, award, disbursement data with a Disbursement Release Indicator = true for both awards. The student is awarded a subsidized loan for \$2000 and an unsubsidized loan for \$1500. The second submission includes a Release Record with a Disbursement Release Indicator = true for the second actual disbursement for both loan awards.

Case #7: Student 7's parent applies for a PLUS Loan. This student is a second-year student (Grade level = 2), and the loan is for \$2000. The first submission contains a Common Record with disbursement information and a Disbursement Release Indicator = true. This case is not included in the second submission.

Note: It is assumed that a valid PLUS Master Promissory Note is on file at COD.

Case #8: Student 8 applies for a Pell Grant, Direct Subsidized loan, and a Direct Unsubsidized loan. This student is a fourth-year student (Grade level = 4). The first submission contains the Common Record person, award, disbursement data with a Disbursement Release Indicator = false for all three awards. The student is awarded a Pell Grant of \$4050, a subsidized loan for \$4000, and an unsubsidized loan for \$4000. The second submission includes a Release Record with a Disbursement Release Indicator = true for the actual disbursements for all three awards.

Case #9: Student 9 applies for a Pell Grant, Direct Subsidized loan, and a Direct Unsubsidized loan. This student is a fifth-year student (Grade level = 5). The first submission contains the person, award and actual disbursements with a Disbursement Release Indicator = true for all three awards. The student is awarded a Pell Grant of \$4050, a subsidized loan for \$5500, and an unsubsidized loan for \$3500. The second submission includes the adjustment to \$0 of the unsubsidized award amount and first disbursement.

Creating Unique Social Security Numbers

Because there are a large number of schools participating in this test, it is desirable to have unique Social Security numbers (SSNs) submitted for test records. The following formula is recommended to generate the SSNs for the school test data. The ISIRs the COD System provides for test data contain the last five characters of the school TG mailbox number as the first five numbers of each SSN. For example, if a school TG mailbox number is TG77778 and the test data defines a SSN of ###-##-0001, use 777-78-0001.

Note: These students will already be created for you and sent via e-mail. The last four digits of the SSNs may vary from the below matrix, but the COD School Relations Center will provide this information prior to testing.

Student Profile Matrix

Student Profile Matrix				
Student Number	Award Type	Student SSN	First Submission	Second Submission
1 (Send)	Pell	###-##-0001	Common Record	N/A
1 (Receive)	Pell	###-##-0001	Receipt Response— Reject	N/A
2 (Send)	Pell	###-##-0002	Common Record w/Disbursement Release Indicator = true	Adjustment to disbursement amount.
2	Pell	###-##-0002	Receipt	Receipt

Student Profile Matrix				
Student Number	Award Type	Student SSN	First Submission	Second Submission
(Receive)			Response	Response
3 (Send)	Pell	###-##-0003	Common Record w/Disbursement Release Indicator = false	Actual Disbursement w/Disbursement Release Indicator = true
3 (Receive)	Pell	###-##-0003	Receipt Response	Receipt Response
4 (Send)	Direct Loan (Subsidized)	###-##-0004	Common Record w/ Disbursement Release Indicator = false	Change to student permanent address
4 (Receive)	Direct Loan (Subsidized)	###-##-0004	Receipt Response	Receipt Response
5 (Send)	Direct Loan (Unsubsidized)	###-##-0005	Common Record w/ Disbursement Release Indicator = false	Actual Disbursement w/ Disbursement Release Indicator = true Update award amount and disbursement amounts
5 (Receive)	Direct Loan (Unsubsidized)	###-##-0005	Receipt Response	Receipt Response
6 (Send)	Direct Loans (Subsidized & Unsubsidized)	###-##-0006	Common Record w/Disbursement Release Indicator = true	2 nd Actual Disbursements w/Disbursement Release Indicator = true

Student Profile Matrix				
Student Number	Award Type	Student SSN	First Submission	Second Submission
6 (Receive)	Direct Loan (Subsidized & Unsubsidized)	###-##-0006	Receipt Response	Receipt Response
7 (Send)	PLUS	###-##-0007	Common Record w/ Disbursement Release Indicator = true	N/A
7 (Receive)	PLUS	###-##-0007	Receipt Response	N/A
8 (Send)	Pell & Direct Loans (Subsidized & Unsubsidized)	###-##-0008	Common Record w/Disbursement Release Indicator = false	Actual disbursements w/Disbursement Release Indicator = true
8 (Receive)	Pell & Direct Loans (Subsidized & Unsubsidized)	###-##-0008	Receipt Response	Receipt Response
9 (Send)	Pell & Direct Loans (Subsidized & Unsubsidized)	###-##-0009	Common Record w/Disbursement Release Indicator = true	Adjust unsubsidized award amount and 1 st Actual Disbursement to \$0
9 (Receive)	Pell & Direct Loans (Subsidized & Unsubsidized)	###-##-0009	Receipt Response	Receipt Response

Preparing the Test Environment

It is necessary to define separate, independent regions for the school test and production data. Before proceeding with testing, verify that the method defined is valid and that any test data created does not mix with live production data within the school's environment. School test environment must have the ability to modify the system processing date.

Setting System Defaults

For the Testing Process, any defaults in a school's system should be set as follows:

- **Entity ID:** (Contact the COD School Relations Center for this information prior to testing)
- **For Pell:**
 - Cost of Attendance = 9000
 - Disbursement Date #1 = 2006-07-07*
 - Disbursement Date #2 = 2006-07-15
- **For Direct Loan:**
 - Promissory Note Print Options = Promissory note prints on-site at school
 - Disclosure Statement Print Option = COD prints and sends to borrower
 - Subsidized/Unsubsidized Fee Percentage = 3 or .03
 - PLUS Fee Percentage = 4 or .04
 - Interest Rebate Percentage = 1.5 or .015
 - First Disbursement Date = 2006-07-07*
 - Second Disbursement Date = 2006-07-15
 - Loan Period Start Date = 2006-07-02
 - Loan Period End Date = 2007-07-01
 - Student's Academic Year Start Date = 2006-07-02
 - Student's Academic Year End Date = 2007-07-01

NOTE: The loan period start and end dates must be equal to or within the Student's academic year start and end dates.

* For Unstructured Testing only, for any records submitted after July 6, 2006, Schools should use the following default First Disbursement Dates:

- July 7 – 15, 2006 = 2006-07-15
- July 16 – 31, 2006 = 2006-07-31
- August 1 – 31 = 2006-08-31
- September 1 – 30 = 2006-09-30
- October 1 – 31 = 2006-10-31
- November 1 – 30 = 2006-11-30

First Submission Cycle

In the first submission cycle, a school submits Common Records in XML format for up to nine students. If a school does not participate in Pell, it may skip test cases 1-3 and test cases 8-9. Conversely, if a school does not participate in Direct Loans, it is not necessary to test cases 4-9.

- Three students with only a Pell Grant award
- One student with only a Direct Subsidized Loan award
- One student with only a Direct Unsubsidized Loan award
- One student with a Direct Subsidized Loan award and Direct Unsubsidized Loan award
- One student with a PLUS Loan award
- Two students with a Pell Grant award, a Direct Subsidized Loan award and a Direct Unsubsidized Loan award

Once the awards are in XML Common Record format, create one file (batch) to be sent to COD:

First Submission to COD in XML Format		
File Description	Message Class	Maximum Number of Students in Batch
Common Record Documents	CRTESTIN	9

COD processes the files, and the school receives two files from COD in return:

First Submission Receipts and Responses from COD		
File Description	Message Class	Maximum Number of Students in Batch
Common Record Receipts	CRTESTOP	9
Common Record Responses	CRTESTOP	9

Helpful Hints for Preparing Test Case Input Files and Receiving COD Responses:

When XML errors and rejection edits occur after an input file is entered into the COD system, these errors typically result because the input file contains errors. Many of these errors can be avoided before an input file is submitted. Common input errors are (but not limited to):

- Extra spaces (blanks) contained anywhere in the XML file. Each space, or position, counts as a value when the file processes through the COD system. As a result, the system does not accept the file as having the correct XML format and rejects the file.
- Personal Information of the Student and/or Borrower – Examples: Switching the SSN of Borrower and Student, incorrect SSN of Student/Borrower, Student/Borrower’s DOB, Student/Borrower’s Last Name, Student/Borrower’s Address Information (Address, City, State Province, Postal Code lines), CPS Transaction Number, Grade Level, and Citizenship Status Code.

- Award Information – Examples: Disbursement Amount (common error for this is Duplicate Adjustment Information), Disbursement Number, Disbursement Sequence Number, Interest Rebate Amount, Attendance Cost, Financial Award Amount, Award Year, Promissory Note Print Code, Payment Period Start Date, and Payment Period End Date.
- School Information – Examples: Attending/Reporting School Entity ID.

An XML error will result in the input file not being processed at all by the COD system. The system will process an input file with incorrect information (some examples of which are provided, above) and generate a variety of edits (depending on the number and degree of input errors) in its response. Because an input file can contain a variety and combination of errors, it is not possible to list all possible edits occurring under all possible conditions. The following are the most common edits and/or combination of edits that can result from a response if the above information is not correct in the input file:

Edits: 011, 015, 024, 034, 039, 056, 058, 059, 077, 078, 100, 114, 117, 120, 121, 996 and 998

It should also be noted that some edits also have companion edits. This means that if an edit is generated, it can be followed by a second edit because it is directly related to the first edit. When the first edit is resolved, this will typically also resolve the companion edit. Because of the variety and combination of errors that can be processed from an input file, not all possible edits and its companion edits can be listed.

Edits can be triggered for more than one type of error. For instance, an Edit 996 can be triggered by a variety of input errors, from an incorrect Student SSN, a school having an incorrect or incomplete Award Year Setup, or an incorrect Financial Award Amount entered for a student. A single edit like this can occur under such varied conditions due to the nature of the errors contained in that particular XML file. Also, depending on the award year, a particular edit or combination of edits can also be generated, based on incorrect information being submitted in that input file.

Even when an input file is in the correct XML format and contains correct information, it is still possible for the file to generate edits. In many of these cases, these are expected edits. In some cases, these edits can also have companion edits generated. Examples of the most common edits are (but not limited to):

- Disbursement Release Indicator
- Disbursement Date
- Award Year Setup
- Document ID

For more detailed information on specific edits, Schools should refer to *Volume II, Section 4 of the 2006-2007 COD Technical Reference* for Common Record Edits. This reference guide specifically

defines the edit and edit type. The reference also identifies conditions under which the edit occurs and provides solutions/actions for preventing these edits from reoccurring in the future.

NOTE: COD manages the test environment and the processing of input records. Any concerns regarding the environment or input record processing should be discussed with COD. CPS is responsible for the ISIR layout and COD manages ISIR generation. Any concerns about the ISIR layout should be discussed with CPS and, any concerns about ISIR generation are discussed with COD. School Setup Information is managed by COD. If you generate an edit for your School Information, and you have verified that your School Information is correct, you should contact COD.

The following steps assist the schools in completing these submission tasks:

Note for Case #1: *This test case only applies to Unstructured Testing. If a school has not completed Structured Testing, attempting to test this case will result in errors.*

Case #1—Pell	
Step	Action/Input
1	<p>Originate and disburse a Pell Grant for Student #1 with an SSN = ###-##-0001, where ###-## represents the 5 characters of the specified test mailbox (TG number).</p> <p>For example: If the specified test mailbox (TG Number) is 77778, the SSN for this student is 777-78-0001.</p>
2	<p>If you have loaded the provided Test ISIR file, some of the following data for this Pell transmission may already be available in your system.</p> <p>Verify the data in your system agrees with the test data outlined below adding or updating data to your system whenever necessary.</p> <p>Submit a Common Record containing the following information:</p> <p>Student:</p> <p>Student Identifier (current student SSN, Date of Birth, Last Name) =</p> <p style="padding-left: 40px;">Student’s Current SSN = ###-##-0001</p> <p style="padding-left: 40px;">Student’s Date of Birth = 1983-01-01</p> <p style="padding-left: 40px;">Student’s Last Name = Test1</p> <p><Name> Complex Element</p> <p style="padding-left: 40px;">Student’s First Name = Student</p> <p style="padding-left: 40px;">Student’s Middle Initial = P</p> <p style="padding-left: 40px;">Student’s Last Name = Test1</p>
3	<p>Award Information:</p> <p><Pell> Complex Element</p> <p style="padding-left: 40px;">Award Year = 2007 (2006-2007)</p>

Case #1—Pell	
Step	Action/Input
	<p>CPS Transaction Number = 01</p> <p>Award Amount = 4050.00</p> <p>Cost of Attendance = 9000.00</p> <p>Enrollment Date = 2006-07-01</p> <p>Note: Expected Family Contribution (EFC) is not submitted to COD as COD receives this data through an interface with CPS. This test case does NOT use the Secondary EFC.</p>
4	<p>Disbursement Information:</p> <p><Disbursement> Complex element</p> <p>Disbursement Number = 01</p> <p>Disbursement Amount = 2050.00</p> <p>Disbursement Date = 2006-07-07</p> <p>Disbursement Release Indicator = true</p> <p>Disbursement Sequence Number = 01</p>
5	Save the record

Case #2—Pell	
Step	Action/Input
6	<p>Originate and disburse a Pell Grant for Student #2 with an SSN = ###-##-0002, where ###-## represents the 5 characters of the specified test mailbox (TG number).</p> <p>For example: If the specified test mailbox (TG Number) is 77778, the SSN for this student is 777-78-0002.</p>
7	<p>If you have loaded the provided Test ISIR file, some of the following data for this Pell transmission may already be available in your system.</p> <p>Verify the data in your system agrees with the test data outlined below adding or updating data to your system whenever necessary.</p> <p>Submit a Common Record containing the following information:</p> <p>Student:</p> <p>Student Identifier (current student SSN, Date of Birth, Last Name) =</p> <p style="padding-left: 40px;">Student's Current SSN = ###-##-0002</p> <p style="padding-left: 40px;">Student's Date of Birth = 1984-02-02</p> <p style="padding-left: 40px;">Student's Last Name = Test2</p> <p><Name> Complex Element</p> <p style="padding-left: 40px;">Student's First Name = Student</p> <p style="padding-left: 40px;">Student's Middle Initial = P</p> <p style="padding-left: 40px;">Student's Last Name = Test2</p>
8	<p>Award Information:</p> <p><Pell> Complex Element</p> <p style="padding-left: 40px;">Award Year = 2007 (2006-2007)</p> <p style="padding-left: 40px;">CPS Transaction Number = 01</p> <p style="padding-left: 40px;">Award Amount = 900.00</p> <p style="padding-left: 40px;">Cost of Attendance = 9000.00</p> <p style="padding-left: 40px;">Enrollment Date = 2006-07-01</p> <p>Note: Expected Family Contribution (EFC) is not submitted to COD as COD receives this data through an interface with CPS. This test case does NOT use the Secondary EFC.</p>
9	<p>Disbursement Information:</p> <p><Disbursement> Complex element</p> <p style="padding-left: 40px;">Disbursement Number = 01</p>

	Case #2—Pell
Step	Action/Input
	Disbursement Amount = 450.00 Disbursement Date = 2006-07-07 Disbursement Release Indicator = true Disbursement Sequence Number = 01
10	Save the record.

Case #3—Pell	
Step	Action/Input
11	<p>Originate and disburse a Pell Grant for Student #3 with an SSN = ###-##-0003, where ###-## represents the 5 characters of the specified test mailbox (TG number).</p> <p>For example: If the specified test mailbox (TG Number) is 77778, the SSN for this student is 777-78-0003.</p>
12	<p>If you have loaded the provided Test ISIR file, some of the following data for this Pell transmission may already be available in your system.</p> <p>Verify the data in your system agrees with the test data outlined below adding or updating data to your system whenever necessary.</p> <p>Submit a Common Record containing the following information:</p> <p>Student:</p> <p>Student Identifier (current student SSN, Date of Birth, Last Name) =</p> <p style="padding-left: 40px;">Student's Current SSN = ###-##-0003</p> <p style="padding-left: 40px;">Student's Date of Birth = 1984-03-03</p> <p style="padding-left: 40px;">Student's Last Name = Test3</p> <p><Name> Complex Element</p> <p style="padding-left: 40px;">Student's First Name = Student</p> <p style="padding-left: 40px;">Student's Middle Initial = P</p> <p style="padding-left: 40px;">Student's Last Name = Test3</p>

	Case #9– Pell, Subsidized Loan, Unsubsidized Loan
Step	Action/Input
	<p>You only need to submit dependency status in the event that you want to override the status at CPS due to professional judgment.</p> <p>Student #9 is dependent.</p>
57	<p>Disbursement Information:</p> <p><Disbursement> Complex element</p> <p>Disbursement Number = 01</p> <p>Disbursement Amount = 1750.00</p> <p>Disbursement Date = 2006-07-07</p> <p>Disbursement Release Indicator = true</p> <p>Disbursement Sequence Number = 01</p> <p>First Disbursement Flag = true</p> <p>Disbursement Net Amount = 1724.00</p> <p>Disbursement Fee Amount = 52.00</p> <p>Interest Rebate Amount = 26.00</p> <p><Disbursement> Complex element</p> <p>Disbursement Number = 02</p> <p>Disbursement Amount = 1750.00</p> <p>Disbursement Date = 2006-07-15</p> <p>Disbursement Release Indicator = false</p> <p>Disbursement Sequence Number = 01</p> <p>Disbursement Net Amount = 1724.00</p> <p>Disbursement Fee Amount = 52.00</p> <p>Interest Rebate Amount = 26.00</p>

Prepare Document Block and Entity Block for Batch	
Step	Action/Input
58	<p>Transmit the following Document tags with this batch to COD:</p> <p><CommonRecordxmlns="http://www.ed.gov/FSA/COD/2004/v2.0d"> (Root element for the document) <DocumentId> (Date/Time stamp with Source Entity ID) <CreatedDateTime> (CCYY-MM-DDTHH:mm:ss.ff <Source> <School EntityId="99999999"> or <ThirdPartyServicer EntityID="99999999"> <Destination> <COD EntityId="99999999"></p> <p><FullResponseCode> = F (Full Response)</p>
59	<p>Transmit the following Entity tags with this batch to COD:</p> <p><ReportingSchoolEntityId="99999999"> <ReportedFinancialSummary> <FinancialAwardType> <FinancialAwardYear> <TotalCount> <TotalReportedAward> <TotalReportedDisbursement> <AttendedSchoolEntityId=99999999></p>

Send Files to COD	
Step	Action/Input
60	Prepare the Common Record in XML.
61	Transmit the batch to COD via the SAIG using the message class CRTESTIN and your Test Destination Mailbox.
62	COD processes and the Receipts and Response records are then placed on the SAIG to be retrieved.

Receive Receipts and Responses from COD	
Step	Action/Input
63	Import the Receipts into the school's system. The message class is CRTESTOP.
64	Import the Response into the school's system. The message class is CRTESTOP.
65	Verify the results and the successful completion of the first cycle with the COD School Relations Center. Please do not proceed to the second submission cycle until the verification.

Second Submission Cycle

In the second submission cycle, a school performs the following steps:

- Submit updates to Student demographic data
- Submit updates and adjustments to award and disbursement amounts
- Submit Release Records for actual disbursements

Second Submission to COD in XML		
File Description	Message Class	Number of Students in Batch
Common Record Documents	CRTESTIN	7

COD processes the files, and the school receives two files from COD in return:

Second Submission Receipts and Responses from COD		
File Description	Message Class	Number of Students in Batch
Common Record Receipts	CRTESTOP	7
Common Record Response Documents	CRTESTOP	7

The following steps assist a school in completing these tasks:

Steps for Schools	
Step	Action/Input
0	For the purpose of this test, Direct Loan promissory notes and promissory note Responses are not generated. COD simulated in Cycle 1 that valid MPNs were already on file for these students and the loan records were linked to the MPNs. The MPN status was returned in Cycle 1 on the Response. CASE # 1 AND #7 ARE NOT IN CYCLE 2.

Case #2—Pell	
Step	Action/Input
1	Retrieve student #2 (###-##-0002).
2	Submit the Student Identifier (current student SSN, Date of Birth, Last Name) = Student's Current SSN = ###-##-0002

Case #2—Pell	
Step	Action/Input
	Student's Date of Birth = 1984-02-02 Student's Last Name = Test2
3	Disbursement Information to adjust the first disbursement amount: <Disbursement> Complex element Disbursement Number = 01 Disbursement Amount = 400.00 Disbursement Date = 2006-07-07 Disbursement Release Indicator = true Disbursement Sequence Number = 02
4	Before proceeding, make sure the record is saved.

Case #3—Pell	
Step	Action/Input
5	Retrieve student #3 (###-##-0003).
6	Submit the Student Identifier (current student SSN, Date of Birth, Last Name) = Student's Current SSN = ###-##-0003 Student's Date of Birth = 1984-03-03 Student's Last Name = Test3
7	Disbursement Information: <Disbursement> Complex element Disbursement Number = 01 Disbursement Amount = 2025.00 Disbursement Date = 2006-07-07 Disbursement Release Indicator = true Disbursement Sequence Number = 01
8	Save the record.

Case #4—Subsidized Loan	
Step	Action/Input
9	Retrieve student #4 (###-##-0004).
10	Submit the Student Identifier (current student SSN, Date of Birth, Last Name) = Student's Current SSN = ###-##-0004 Student's Date of Birth = 1982-04-04 Student's Last Name = Test4
11	Update the following data elements for this student:: Change the permanent address: From: "4 Main Street" To: "4 Moved Street" From: "Newark" To: "Portland" From: "NJ" To: "OR" From: "07112" To: "97232"
12	Save the record.

Case #5—Unsubsidized Loan	
Step	Action/Input
13	Retrieve the Common Record for student ###-##-0005.
14	Submit the Student Identifier (current student SSN, Date of Birth, Last Name) = Student's Current SSN = ###-##-0005 Student's Date of Birth = 1980-05-05 Student's Last Name = Test5
15	Update the Award Amount: From: 3225.00 To: 2800.00
16	Update the Disbursement Information for: Disbursement Number = 01 Disbursement Sequence Number = 01 Update Disbursement Amounts: Disb Amount: From: 1613.00 To: 1400.00 Disb Fee Amount: From: 48.00 To: 42.00 Interest Rebate Amount: From: 24.00 To: 21.00 Disb Net Amount: From: 1589.00 To: 1379.00 Disbursement Release Indicator = true
17	Update the Disbursement Information for: Disbursement Number = 02 Disbursement Sequence Number = 01 Update Disbursement Amounts: Disb Amount: From: 1612.00 To: 1400.00 Disb Fee Amount: From: 48.00 To: 42.00 Interest Rebate Amount: From: 24.00 To: 21.00 Disb Net Amount: From: 1588.00 To: 1379.00 Disbursement Release Indicator = false
18	Save the record.

Case #6—Subsidized and Unsubsidized Loan	
Step	Action/Input
19	Retrieve student ###-##-0006.
20	Submit the Student Identifier (current student SSN, Date of Birth, Last Name) = Student's Current SSN = ###-##-0006 Student's Date of Birth = 1982-06-06 Student's Last Name = Test6
21	Update the Disbursement Information for Subsidized and Unsubsidized Loans: Disbursement Number = 02 Disbursement Sequence Number = 01 Disbursement Release Indicator = true
22	Save the record.

Case #8—Pell, Subsidized and Unsubsidized Loan	
Step	Action/Input
23	Retrieve student ###-##-0008.
24	Submit the Student Identifier (current student SSN, Date of Birth, Last Name) = Student's Current SSN = ###-##-0008 Student's Date of Birth = 1982-08-08 Student's Last Name = Test8
25	Update the Disbursement Information for Pell, Direct Loan Subsidized and Unsubsidized Loans: Disbursement Number = 01 Disbursement Sequence Number = 01 Disbursement Release Indicator = true
26	Save the record.

Case #9—Pell, Subsidized and Unsubsidized Loan	
Step	Action/Input
27	Retrieve student #9 (###-##-0009).
28	Submit the Student Identifier (current student SSN, Date of Birth, Last Name) = Student's Current SSN = ###-##-0009 Student's Date of Birth = 1982-09-09 Student's Last Name = Test9
29	Update the Award Amount for the Unsubsidized Loan: From: 3500.00 To: 0.00
30	Submit Disbursement Information for an Adjustment to Disbursement Number 01: Disbursement Number = 01 Disbursement Amount = \$0.00 Disbursement Date = 2006-07-07 Disbursement Sequence Number = 02 Disbursement Net Amount = 0.00 Disbursement Fee Amount = 0.00 Interest Rebate Amount = 0.00
31	Update the Disbursement Information for: Disbursement Number = 02 Disbursement Sequence Number = 01 Update Disbursement Amounts: Disb Amount: From: 1750.00 To: 0.00 Disb Fee Amount: From: 52.00 To: 0.00 Interest Rebate Amount: From: 26.00 To: 0.00 Disb Net Amount: From: 1724.00 To: 0.00
32	Save the record.

Prepare Document Block and Entity Block for Batch	
Step	Action/Input
33	<p>Transmit the following Document tags with this batch to COD:</p> <pre> <CommonRecordxmlns="http://www.ed.gov/FSA/COD/2004/v2.0d"> (Root element for the document) <DocumentId> (Date/Time stamp with Source Entity ID) <CreatedDateTime> (CCYY-MM-DDTHH:mm:ss.ff <Source> <XXXXX EntityId="99999999"> <Destination> <XXXXX EntityId="99999999"> <FullResponseCode> = F (Full Response) </pre>
34	<p>Transmit the following Entity tags with this batch to COD:</p> <pre> <ReportingSchoolEntityId="99999999"> <ReportedFinancialSummary> <FinancialAwardType> <FinancialAwardYear> <TotalCount> <TotalReportedAward> <TotalReportedDisbursement> <AttendedSchoolEntityId=99999999> </pre>

Send Files to COD	
Step	Action/Input
35	Prepare the Common Record in XML.
36	Transmit the batch to COD via the SAIG using the message class CRTESTIN and your Test Destination Mailbox.
37	COD processes and the Receipts and Response records are then placed on the SAIG to be retrieved.

Receive Receipts and Responses from COD	
Step	Action/Input
38	Import the Receipts into the school's system. The message class is CRTESTOP.
39	Contact the COD School Relations Center to verify the results and the successful completion of the second submission cycle.

Wrap-Up

This section describes the final steps associated with the testing process and provides some suggestions for the school during the conversion to a production status.

Notification of Results

The COD School Relations Center notifies the contact person at the participating school of the results of each test submission cycle. If problems are discovered, a retest is scheduled. The contact person should be available during the testing period to assist, analyze problems, and coordinate any follow-up tests that may be required. Schools should contact the COD School Relations Center if test results are not received or communicated when expected.

Preparing School Database for Production

The school should clean out their system (for example, remove all test data) before sending production data.

Warning: Ensure that the system date is changed back to the current date and that message classes and destinations have been changed from ‘test’ to ‘production.’

Warning: All test data **MUST** be removed from a school’s system prior to beginning actual processing and before sending production (live) data to COD.

Warning: Test Message Classes and the Test Destination Mailbox **CANNOT** be used to process production data.

Note: Production data is processed using the production message classes outlined in the *Volume II, Section 2 of the 2006-2007 COD Technical Reference*.
