
THE EFC FORMULA, 2010-2011

What is the EFC?

The Expected Family Contribution (EFC) is the amount a family can be expected to contribute toward a student's college costs. Financial aid administrators (FAAs) determine an applicant's need for federal student aid from the U.S. Department of Education (the Department) and other sources of assistance by subtracting the EFC from the student's cost of attendance (COA).

The EFC formula is used to determine the EFC and ultimately determine the need for aid from the following types of federal student financial assistance:

- Federal Pell Grant,
- Academic Competitiveness Grant (ACG),
- National Science and Mathematics Access to Retain Talent Grant (National SMART Grant),
- Teacher Education Assistance for College and Higher Education Grant (TEACH Grant),
- Subsidized Stafford Loan (through the William D. Ford Federal Direct Loan [DL] Program or through the Federal Family Education Loan [FFEL] Program), and
- "Campus-based" aid programs
 - Federal Supplemental Educational Opportunity Grant (FSEOG), and
 - Federal Perkins Loan, and
 - Federal Work-Study (FWS).

The methodology for determining the EFC is found in Part F of Title IV of the Higher Education Act of 1965, as amended (HEA). Updated tables used in the computation of the EFC for the 2010-2011 award year were published in the *Federal Register* on June 2, 2009 (ifap.ed.gov/fregisters/FR060209.html) (74 FR 26379).

What is the source of data used in EFC calculations?

All data used to calculate a student's EFC comes from the information the student provides on the Free Application for Federal Student Aid (FAFSA). A student may submit a FAFSA:

- (1) through the Internet by using FAFSA on the Web;
- (2) by filing an application electronically through a school; or
- (3) by mailing a FAFSA to the Central Processing System (CPS).

Students who applied for federal student aid in the previous award year may be eligible to reapply using a renewal FAFSA online. Applying for federal aid is free. However, to be considered for non-federal aid (such as institutional aid), a student may have to fill out additional forms.

We encourage applicants to complete the appropriate electronic version of the FAFSA because the electronic version has built in edits that customize the questions that are presented to the applicant based on answers to prior questions and reduce applicant errors. The electronic version also contains additional instructions and help features and allows the Department to send application results to the applicant and schools more quickly.

New for 2010-2011: As a result of legislative changes, we added a new question “Earnings from work under a cooperative education program offered by a college” to the student and parent Additional Financial Information sections of the FAFSA (44.f. and 92.f., respectively). The legislation mandates that co-op earnings be reported so that the income can be offset during the calculation of the EFC.

Who processes the application, and how is a student notified of his or her EFC?

The CPS receives the student’s application data, either electronically or on the paper application, and uses it to calculate an EFC. After the FAFSA has been processed, the CPS sends the student an output document containing information about his or her application results. This document, which can be paper or electronic, is called a Student Aid Report (SAR). The SAR lists all the information from the student’s application and indicates whether or not the application was complete and signed. If the application is complete and signed and no data conflicts, the SAR also includes the student’s EFC. Students are instructed to carefully check the information on the SAR to ensure its accuracy. All schools listed on the student’s FAFSA receive application information and processing results in an electronic file called an Institutional Student Information Record (ISIR).

Which EFC Formula Worksheet should be used?

There are three regular (full-data) formulas—(A) for the dependent student, (B) for the independent student **without** dependents other than a spouse, and (C) for the independent student **with** dependents other than a spouse. Also, there is a simplified version of each formula with fewer data elements. Instructions for applicants who are eligible for the automatic zero EFC calculation are included in each worksheet. See page 5 for more information on which students qualify for an automatic zero EFC.

What is the definition of an independent student?

Because the EFC formula for a dependent student uses parental data, and the two formulas for independent students do not, the first step in calculating a student's EFC is to determine his or her dependency status. For the 2010-2011 award year, a student is automatically determined to be an independent applicant for federal student aid if he or she meets one or more of the following criteria:

- Student was born before January 1, 1987.
- Student is married or separated (but not divorced) as of the date of the application.
- At the beginning of the 2010-2011 school year, the student will be enrolled in a master's or doctoral degree program (such as MA, MBA, MD, JD, PhD, EdD, or graduate certificate, etc.).
- Student is currently serving on active duty in the U.S. Armed Forces, or is a National Guard or Reserves enlistee called into federal active duty for other than training purposes.
- Student is a veteran of the U.S. Armed Forces (see the definition in the box on page 4).
- Student has one or more children who receive more than half of their support from him or her between July 1, 2010 and June 30, 2011.
- Student has dependent(s) (other than children or spouse) who live with him or her and who receive more than half of their support from the student, now and through June 30, 2011.
- At any time when the student was age 13 or older, both of the student's parents were deceased, the student was in foster care, or the student was a dependent/ward of the court.
- The student is now or was upon reaching the age of majority, an emancipated minor (released from control by his or her parent or guardian) as determined by a court in his or her state of legal residence.
- The student is now or was upon reaching the age of majority, in legal guardianship as determined by a court in his or her state of legal residence.
- Student was determined to be an unaccompanied youth who was homeless by a high school or school district homeless liaison on or after July 1, 2009.
- Student was determined to be an unaccompanied youth who was homeless by the director of an emergency shelter or transitional housing program funded by the U.S. Department of Housing and Urban Development on or after July 1, 2009.
- Student was determined to be an unaccompanied youth who was homeless or was self-supporting and at risk of being homeless by a director of a runaway or homeless youth basic center or transitional living program on or after July 1, 2009.
- Student is determined by the college financial aid administrator to be an unaccompanied youth who is homeless or is self-supporting and at risk of being homeless.

An FAA can make a determination of independence with documentation of special circumstances, even if the student initially filed as a dependent student.

TERMS USED IN THE DEFINITION OF AN INDEPENDENT STUDENT

LEGAL DEPENDENT. Any child of the student who receives more than half of their support from the student (the child does not have to live with the student), including a biological or adopted child. Also, any person, other than a spouse, who lives with the student and receives more than half of his or her support from the student now and will continue to receive more than half of his or her support from the student through June 30, 2011.

VETERAN. A student who (1) has engaged in active service in the U.S. Armed Forces (Army, Navy, Air Force, Marines, or Coast Guard), or has been a member of the National Guard or Reserves who was called to active duty for purposes other than training, or was a cadet or midshipman at one of the service academies, or attended a U.S. military academy preparatory school, and (2) was released under a condition other than dishonorable. A veteran is also a student who does not meet this definition now but will by June 30, 2011.

Which students qualify for the simplified EFC formulas?

The following criteria determine which students have their EFCs calculated by a simplified formula. Assets are not considered in the simplified EFC formulas.

For the 2010-2011 award year, a **dependent** student qualifies for the simplified EFC formula if both (1) and (2) below are true:

- (1) Anyone included in the **parents'** household size (as defined on the FAFSA) received benefits during 2008 or 2009 from any of the designated means-tested Federal benefit programs: the Supplemental Security Income (SSI) Program, the Food Stamp Program, the Free and Reduced Price School Lunch Program, the Temporary Assistance for Needy Families (TANF) Program, and the Special Supplemental Nutrition Program for Women, Infants, and Children (WIC); **OR**

the student's **parents** filed or are eligible to file a 2009 IRS Form 1040A or 1040EZ (they are not required to file a 2009 Form 1040)^{1, 2}, or the parents are not required to file any income tax return; **OR**

the student's **parent** is a dislocated worker.

AND

¹ One of the following 2009 income tax forms may be filed as an alternative to filing a Form 1040A or 1040EZ: the income tax return required by the tax code of the Commonwealth of Puerto Rico, Guam, American Samoa, the U.S. Virgin Islands, the Republic of the Marshall Islands, the Federated States of Micronesia, or Palau.

² Applicants who are not required to complete an IRS Form 1040, but do so solely to claim an educational tax credit, are considered eligible if they meet all the other requirements for the simplified EFC formulas.

- (2) The 2009 income of the student's **parents** is \$49,999 or less.
- For tax filers, use the parents' adjusted gross income from 2009 Form 1040A or 1040EZ³ to determine if income is \$49,999 or less.
 - For non-tax filers, use the income shown on the 2009 W-2 forms of both parents (plus any other earnings from work not included on the W-2s) to determine if income is \$49,999 or less.

For the 2010-2011 award year, an **independent** student qualifies for the simplified EFC formula if both (1) and (2) below are true:

- (1) Anyone included in the **student's** household size (as defined on the FAFSA) received benefits during 2008 or 2009 from any of the designated means-tested Federal benefit programs: the SSI Program, the Food Stamp Program, the Free and Reduced Price School Lunch Program, the TANF Program, and WIC; **OR**
- the student and student's spouse (if the student is married) each meet one of the following conditions: filed or is eligible to file a 2009 IRS Form 1040A or 1040EZ or is not required to file any income tax return⁴; **OR**
- the student (or the student's spouse, if any) is a dislocated worker.

AND

- (2) The student's (and spouse's) 2009 income is \$49,999 or less.
- For tax filers, use the student's (and spouse's) adjusted gross income from 2009 Form 1040A or 1040EZ⁵ to determine if income is \$49,999 or less.
 - For non-tax filers, use the income shown on the student's (and spouse's) 2009 W-2 forms (plus any other earnings from work not included on the W-2s) to determine if income is \$49,999 or less.

Which students qualify for an automatic zero EFC calculation?

Certain students are automatically eligible for a zero EFC.

For the 2010-2011 award year, a **dependent student** automatically qualifies for a zero EFC if both (1) below and (2) on the next page are true.

- (1) Anyone included in the **parents'** household size (as defined on the FAFSA) received benefits during 2008 or 2009 from any of the designated means-tested Federal benefit programs: the SSI Program, the Food Stamp Program, the Free and Reduced Price School Lunch Program, the TANF Program, and WIC; **OR**

³ See note 1 on page 4.

⁴ See note 2 on page 4.

⁵ See note 1 on page 4.

the student's **parents** filed or are eligible to file a 2009 IRS Form 1040A or 1040EZ (they are not required to file a 2009 Form 1040)^{6, 7}, or the parents are not required to file any income tax return; **OR**

the student's **parent** is a dislocated worker.

AND

- (2) The 2009 income of the student's **parents** is \$30,000 or less.
- For tax filers, use the parents' adjusted gross income from 2009 Form 1040A or 1040EZ⁸ to determine if income is \$30,000 or less.
 - For non-tax filers, use the income shown on the 2009 W-2 forms of both parents (plus any other earnings from work not included on the W-2s) to determine if income is \$30,000 or less.

An **independent student with dependents other than a spouse** automatically qualifies for a zero EFC if both (1) and (2) below are true:

- (1) Anyone included in the **student's** household size (as defined on the FAFSA) received benefits during 2008 or 2009 from any of the designated means-tested Federal benefit programs: the SSI Program, the Food Stamp Program, the Free and Reduced Price School Lunch Program, the TANF Program, and WIC; **OR**

the student and student's spouse (if the student is married) each meet one of the following conditions: filed or is eligible to file a 2009 IRS Form 1040A or 1040EZ or is not required to file any income tax return⁹; **OR**

the student (or the student's spouse, if any) is a dislocated worker.

AND

- (2) The student's (and spouse's) 2009 income is \$30,000 or less.
- For tax filers, use the student's (and spouse's) adjusted gross income from 2009 Form 1040A or 1040EZ¹⁰ to determine if income is \$30,000 or less.
 - For non-tax filers, use the income shown on the student's (and spouse's) 2009 W-2 forms (plus any other earnings from work not included on the W-2s) to determine if income is \$30,000 or less.

Note: An **independent student without dependents other than a spouse** is not eligible for an automatic zero EFC.

⁸ See note 1 on page 4.

⁹ See note 2 on page 4.

¹⁰ See note 1 on page 4.

Why might a calculation of an EFC using these worksheets differ from the EFC reported on a student's SAR?

When it appears that an applicant has reported inconsistent data, the CPS may make certain assumptions to resolve the inconsistency. These assumed values, which are reported on the student's SAR, are used to calculate the student's EFC. Therefore, in some cases, the EFC produced by these worksheets may differ from the EFC produced by the CPS if the assumed values are not used.

In addition, to help reconcile EFC Formula Worksheet calculations with those of the CPS, all calculations should be carried to three decimal places and then rounded to the nearest whole numbers—round upward for results of .500 to .999, round downward for results of .001 to .499. Rounding should be performed so that the intermediate value that is the result of each step does not have any decimal digits.

Multiply Parents' Total Income (EFC Formula Worksheet A, line 7) by the appropriate rate from the table above to get the "State and Other Tax Allowance" (EFC Formula Worksheet A, line 9). Use the parents' State of Legal Residence (FAFSA/SAR #70). If this item is blank or invalid, use the student's State of Legal Residence (FAFSA/SAR #18). If both items are blank or invalid, use the State in the Student's Mailing Address (FAFSA/SAR #6). If all three items are blank or invalid, use the rate for a blank or invalid state above.

Multiply the total income of student and spouse (EFC Formula Worksheet B, line 7) by the appropriate rate from the table above to get the “state and other tax allowance” (EFC Formula Worksheet B, line 9). Use the student’s State of Legal Residence (FAFSA/SAR #18) reported on the FAFSA. If this item is blank or invalid, use the State in the Student’s Mailing Address (FAFSA/SAR #6). If both items are blank or invalid, use rate for blank or invalid state above.

Table B2: Social Security Tax

Calculate separately the Social Security tax of student and spouse.

Income Earned from Work*	Social Security Tax
\$0 - \$106,800	7.65% of income
\$106,801 or greater	\$8,170.20 + 1.45% of amount over \$106,800

*Student's 2009 income earned from work is FAFSA/SAR #39.
 Spouse's 2009 income earned from work is FAFSA/SAR #40.
 Social Security tax will never be less than zero.

Note: Use this additional page to prorate the EFC only if the student will be enrolled for less than nine months and only to determine the student's need for campus-based aid, a subsidized Federal Stafford Loan, a subsidized Federal Direct Stafford/Ford Loan, an ACG, or a National SMART Grant. Do not use this page to prorate the EFC for a Federal Pell Grant or TEACH Grant. The EFC for the Federal Pell Grant Program is the nine-month EFC used in conjunction with the cost of attendance to determine a Federal Pell Grant award from the Payment or Disbursement Schedule.

Multiply the total income of student and spouse (EFC Formula Worksheet C, line 7) by the appropriate rate from the table above to get the “state and other tax allowance” (EFC Formula Worksheet C, line 9). Use the student’s State of Legal Residence (FAFSA/SAR #18) reported on the FAFSA. If this item is blank or invalid, use the State in the Student’s Mailing Address (FAFSA/SAR #6). If both items are blank or invalid, use the rate for blank or invalid state above.
