[EPA-HQ-OECA-2018-0248; FRL-9979-04-OECA]

Proposed Information Collection Request; Comment Request; Air Stationary Source Compliance and Enforcement Information Reporting (Renewal)

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: The Environmental Protection Agency (EPA) is planning to submit an information collection request (ICR), "Air Stationary Source Compliance and Enforcement Information Reporting" (EPA ICR No. 0107.12, OMB Control No. 2060-0096) to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act. Before doing so, EPA is soliciting public comments on specific aspects of the proposed information collection as described below. This is a proposed extension of the ICR, which is currently approved through January 31, 2019. An Agency may not conduct or sponsor and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number.

We are also soliciting comment on several options for improving the reporting of Clean Air Act stationary source facility compliance information in order to improve the display, usability and accuracy of these data for presentation to the public through EPA's Enforcement Compliance History Online (ECHO) capability.

DATES: Comments must be submitted on or before August 7, 2018.

ADDRESSES: Submit your comments, referencing Docket ID No. EPA-HQ-OECA-2018-0248 online using www.regulations.gov (our preferred method), by email to doCKET.oeca@epa.gov, or by mail to: EPA Docket Center, Environmental Protection Agency, Mail Code 28221T, 1200 Pennsylvania Ave. NW, Washington, DC 20460.

EPA's policy is that all comments received will be included in the public docket without change including any personal information provided, unless the comment includes profanity, threats, information claimed to be Confidential Business Information (CBI) or other

information whose disclosure is restricted by statute.

SUPPLEMENTARY INFORMATION:

Supporting documents which explain in detail the information that the EPA will be collecting are available in the public docket for this ICR. The docket can be viewed online at www.regulations.gov or in person at the EPA Docket Center, WJC West, Room 3334, 1301 Constitution Ave. NW, Washington, DC. The telephone number for the Docket Center is 202-566-1744. For additional information about EPA's public docket, visit <http://www.epa.gov/dockets>.

Pursuant to section 3506(c)(2)(A) of the PRA, EPA is soliciting comments and information to enable it to: (i) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility; (ii) evaluate the accuracy of the Agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (iii) enhance the quality, utility, and clarity of the information to be collected; and (iv) minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses. Burden is defined at 5 CFR 1320.03(b). EPA will consider the comments received and amend the ICR as appropriate. The final ICR package will then be submitted to OMB for review and approval. At that time, EPA will issue another **Federal Register** notice to announce the submission of the ICR to OMB and the opportunity to submit additional comments to OMB.

Abstract: Air Stationary Source Compliance and Enforcement Information Reporting is an activity whereby State, Local, Native American, Territorial, and Commonwealth governments (hereafter referred to as either "states/locals" or "state and local agencies") make air stationary source compliance and enforcement information available to the U.S. Environmental Protection Agency (EPA

or the Agency) on a cyclic basis via input to the Air component of the Integrated Compliance Information System (ICIS-Air). ICIS-Air replaced the Air Facility System (AFS) in October 2014 when the Agency, with support from state and local agencies, completed the modernization of AFS into ICIS-Air.

ICIS-Air supports EPA and state and local agency efforts to ensure compliance with the nation's environmental laws pertaining to air, via the collection and management of important Clean Air Act (CAA or the "Act") compliance and enforcement information. ICIS-Air is a sub-component of ICIS, which provides compliance and enforcement information on thousands of facilities regulated under numerous federal statutes. The information provided to EPA via ICIS-Air includes source characterization, compliance monitoring, and enforcement activities. EPA will use this information to assess progress toward meeting emission requirements developed under the authority of the CAA, and to protect and maintain air quality, public health, and the environment. Agencies receive delegation of the CAA through regulated grant authorities, and report compliance/enforcement activities undertaken at stationary sources pursuant to the Minimum Data Requirements (MDRs) as outlined in this ICR. The provisions of Section 114(a)(1) of the Clean Air Act, 42 U.S.C. Section 7414(a)(1) provide the broad authority for the reporting of compliance monitoring and enforcement information, along with Subpart Q—Reports in 40 CFR 51: Sections 51.324(a) and (b), and 51.327. This renewal requires the continuation of reporting of previously established MDRs via either direct, on-line entry or electronic data transfer (EDT) to ICIS-Air.

U.S. EPA and states are cooperating to improve the display, usability, and accuracy of EPA's Enforcement and Compliance History Online (ECHO). ECHO is a critical tool for accessing and analyzing information about facilities regulated under the Clean Air Act and other environmental statutes. As a first step, a team of state and EPA representatives has identified some changes to ECHO that will enhance the user experience and improve ECHO's display of facility compliance-related data. As such, EPA is soliciting state and local input on three options presented for the reporting of Federally Reportable Violation (FRV) dates. These options are presented in the 2/27/18 joint EPA-State paper written to identify improvements to the display, usability, and accuracy of EPA's ECHO. That
