

# Corrections and Updates

---

## Overview

The initial steps in the application process are sending a student's application information to the CPS and receiving that student's processed application data back from the system. One of three types of documents is sent to the applicant as a result of an application:

- E-mail Notification of SAR Processing
- SAR
- SAR Acknowledgement

For more information on the types of documents sent to student and the situations in which they are sent, see Appendix D of this guide.

When data must be updated (under the limited circumstances allowed by regulation) or corrected, additional steps are required. FAAs and students can correct application data. Different processes are used for updating records depending on who is correcting the record and the type of document used to make the correction.

## FAAs Making Corrections

FAAs can make corrections to students' records using FAA Access to CPS Online, third-party software, or their own mainframe systems.

### *FAA Access to CPS Online*

In FAA Access to CPS Online, changes (corrections or updates) can be made to any student's record by an FAA, regardless of whether the application originally entered the system in paper or electronic format. Both updates and corrections are referred to as correction transactions. The electronic correction process requires that the school that inputs the new information maintain signed correction documentation.

Documentation can consist of a paper SAR or other documents, such as tax returns, a verification worksheet, or a change-of-address form. The FAA enters the changes on the FAA Access to CPS Online correction entry screen, submits the changes to the CPS, and receives an ISIR containing the new processed data. In this electronic input situation, the student receives an E-mail Notification of SAR Processing if he or she provided an e-mail address with valid syntax. Otherwise, a SAR Acknowledgement is sent. The school receives an electronic ISIR.

### *Mainframe System*

FAAs can use their own systems to make changes or updates to any student's record, regardless of whether it originally entered the system as a paper or an electronic application. Using a mainframe system or third-party software, FAAs can submit electronic corrections to the CPS using the SAIG. As with FAA Access to CPS Online, the school must maintain signed correction documentation.

In this electronic input situation, the student receives an E-mail Notification of SAR Processing if he or she provided an e-mail address with valid syntax. Otherwise, a SAR Acknowledgement is sent. The school receives an electronic ISIR.

For more information on supporting a mainframe system, see the *2012-2013 Electronic Data Exchange (EDE) Technical Reference*, which provides sufficient programmer specifications and information to design or build your own system or software or the *Application Processing System Specifications for Software Developers*. Both documents are posted on the IFAP and FSAdownload Web sites.

## Students Making Corrections

A student can make corrections to his or her application data using paper output documents or using FAFSA on the Web. The options for a student to make a correction depend on the document the student received after the application or subsequent transaction was processed. In most cases, a student receives one of the following output documents. The exception is for a student who submits corrections that are processed in real-time through FAFSA on the Web; this student's confirmation page includes a link to his or her e-SAR and no other output document.

### *E-mail Notification of SAR Processing*

The E-mail Notification of SAR Processing is designed to notify the student of application and eligibility status more quickly than either the paper SAR or the SAR Acknowledgement. The e-mail includes a link to the student's processed SAR information online and enables the student to print the online SAR document as often as needed. In addition, the student can correct or confirm the applicant data, as needed. To complete corrections to the application data, the student must provide his or her PIN or signature. If the student is dependent and is changing parental data, a parent PIN or signature must also be provided. Students with undeliverable e-mail addresses and those whose E-mail Notifications of SAR Processing have been returned to the U.S. Department of Education are sent paper SARs or SAR Acknowledgements.

### *SAR Acknowledgement*

The SAR Acknowledgement is designed to notify the student of application and eligibility status and is mailed when an applicant has completed an electronic application or correction but has not provided an e-mail address. If corrections are needed, the student uses FAFSA on the Web, contacts the school to submit the corrections through FAA Access to CPS Online or a mainframe system, or calls the Federal Student Aid Information Center (FSAIC) to request a duplicate SAR and use it to mail corrections or updates to the FAFSA processor.

### *SAR*

The SAR is designed to serve two basic purposes: to notify the student of application and eligibility status and to provide a means for correcting or confirming applicant data.

The SAR is a vehicle for corrections for students who filed on paper and do not have e-mail addresses, or for students who file or make corrections using FAFSA on the Web and (1) are rejected for lack of signatures or (2) do not have an SSN Match Flag of 4 (SSN, name, and date of birth match). A student can correct or update his or her application information on the SAR and mail it to the FAFSA processor for data entry.

After the FAA or student makes corrections and the changes are processed, the student receives a new E-mail Notification of SAR Processing, SAR Acknowledgement, or SAR. In all cases, an ISIR is generated for the school.

## SAR Corrections

As described in the previous section, for each non-real-time transaction processed at the CPS, an output document is sent to the applicant: a paper SAR, a SAR Acknowledgement, or an E-mail Notification of SAR Processing with information for accessing SAR data on the Web. An applicant who submits corrections using FAFSA on the Web that are processed in real-time is presented with a link to his or her e-SAR on the confirmation page. This section describes the paper SAR. Additional information on the paper SAR, including changes for 2012-2013, can be found in Appendix D.

Boxes with the question number and a shortened question description that corresponds to a question on the FAFSA appear on the SAR. These question boxes contain the student's response to the question. Next to or below the question box are boxes or ovals that resemble the answer fields on the FAFSA where the student can indicate or write in a corrected answer, if necessary.

Items that are highlighted (printed in bold type) require special attention. Highlighting indicates the CPS identified the responses as questionable or inconsistent with other answers. The CPS may assume answers to certain questions by comparing them with other information on the application. Answers might be assumed when the question was left blank, or a positive number might be assumed when the answer to an income question was given as a negative number.

When the CPS assumes an answer, both the value reported by the applicant and the assumed values are printed on the SAR. The word "ASSUMED" appears in parentheses with the assumed value. Assumed values are used by the CPS in performing the EFC calculation and should be reviewed carefully. If the assumed values are correct, the student does not need to change them on the SAR.

The student can correct other items if necessary, whether or not they are highlighted.

If the record has been rejected, an arrow points to the response field for the questioned item. This indicates that the student must provide a new answer because the original response was blank or illegible, and the item is necessary to perform an EFC calculation. The student can also correct other items if necessary, even if they are not highlighted.

At the top of the SAR are instructions to the student explaining the meaning of the arrows and the proper way to fill in an oval or to correct, confirm, or delete an answer. To confirm a previously reported answer, the student must rewrite the same value in the answer fields and return the SAR.

---

## Parent Information for Independent Students

The SARs for dependent and independent students contain the same sections and numbered items as the FAFSA. Parent information is printed in the parent section for an independent student if the student provided it on the FAFSA, although the EFC calculation does not include parental data. Students in certain health profession programs are advised that they may have to provide parental data because the data is required by many health profession schools to award Title VII aid. Parental data provided by independent students is not subject to any edits, but the data appears on the SAR and ISIR and is carried forward on all transactions.

Parental data is required for dependent students and is edited and used in the EFC calculation.

# Signatures

## SAR Corrections

A message in the lower portion of the last page of the SAR shows the address where SAR corrections should be mailed.

In the lower left corner of the same page, the student is asked to certify that any corrections made on the SAR are accurate and complete. The student must sign this statement if he or she chooses to submit the corrections on paper. If the student is dependent and is changing parental data, one parent must also sign.

The student can also make corrections using FAFSA on the Web, located at [fafsa.gov](http://fafsa.gov). A PIN is needed to access the correction data. When corrections are made using the Web, a parent needs to sign or supply his or her PIN only if the parental data is changed. The student must supply his or her PIN.

## PINs

The PIN simplifies and expedites processing for any applicant and his or her parent. A PIN can be issued in real-time from the PIN Web site or FAFSA on the Web, enabling an applicant and his or her parent to immediately sign a 2012-2013 FAFSA, FAFSA Renewal, or correction.

Students and parents can create their own PIN, request that Federal Student Aid generate a PIN for them that is displayed on the screen in real-time, request that the PIN be e-mailed in real-time, or have the PIN sent through postal mail. For all options except a PIN sent through postal mail, the PIN is issued in real-time so that the student or parent can immediately use it to electronically sign the application. See “The PIN for Students and Parents” in the “Processing Flow” section earlier in this guide for more information.

## Signature Rejects

The Signature Reject EFC field is calculated for records that have only one or more of the three signature rejects described on the following pages.

**Note:** The Signature Reject EFC is included in the ISIR file, but does not print on the ISIR from EDEXpress, SAR, or eSAR and does not appear in FAA Access to CPS Online or Student Inquiry. Appropriate signatures must be processed as usual before award disbursements can be made. This information benefits students who are trying to meet state deadlines that require the EFC to be calculated by a certain date.

### *Reject 16 — Missing Student Signature from a FAFSA on the Phone or Web Application*

Reject 16 is generated and a paper SAR is sent to a student who submitted an application by calling FSAIC to submit a FAFSA on the Phone or submitted an application through FAFSA on the Web or Spanish FAFSA on the Web but did *not* provide a PIN or follow up with a signed Signature/Certification page. Reject 16 is also generated if the Signature/Certification page sent by the applicant was incomplete and could not be processed.

If the application record indicates that a Signature/Certification page was printed, the CPS holds the transmission for up to 14 calendar days pending receipt of the page. If the Signature/Certification page is not received in 14 calendar days, the CPS processes the record and mails a SAR with a Reject 16 code.

If the application record indicates that a Signature/Certification page was *not* printed, the CPS immediately processes the record and mails a SAR with a Reject 16 code.

**Note:** Reject 16 may appear with other rejects or highlighted data requiring correction or verification. A Reject 16 SAR does not have a calculated EFC and contains the full Certification Statement that appears on the FAFSA.

### *Reject 15 — Missing Parent Signature on FAFSA or SAR*

Reject 15 is generated and sent on an E-mail Notification of SAR Processing or paper SAR to a dependent student who submitted a paper FAFSA or SAR without a parent signature. Reject 15 is also generated if a dependent student files a FAFSA or renewal application on FAFSA on the Web and signs with a PIN but does not provide a parent signature or PIN.

To resolve a Reject 15 code, the CPS requires at least one parental signature for dependent students. The parent can use his or her PIN to sign electronically using FAFSA on the Web; sign and mail the Signature/Certification statement on the paper SAR; or contact the school's FAA, who can submit the signature data electronically through the FAA Access to CPS Online Web site.

When a parent signs his or her dependent child's application or correction record with a PIN, other corrections can be made simultaneously; however, both the dependent student and one of the student's parents must use their PINs to sign an application or correction, or the resulting transaction will have a Reject 15.

If a printer is available, a dependent student can also print the Signature/Certification page, obtain a parent's signature, and mail it to the processor. The transmitted application is held up to 14 calendar days pending receipt of the page. If the Signature/Certification page is not received in 14 calendar days, the CPS processes the record and sends an E-mail Notification of SAR Processing or a paper SAR with a Reject 15 code.

If the application record indicates that a Signature/Certification page was *not* printed, the CPS processes the record and mails a SAR with a Reject 15 code or sends the E-mail Notification of SAR Processing.

If neither parent of a dependent student has a PIN nor has a printer to print the Signature/Certification page, the student's school can obtain the necessary documentation and submit the parent signature using FAA Access to CPS Online.

**Note:** Reject 15 may appear with other rejects or highlighted data requiring correction or verification. A Reject 15 SAR does not have a calculated EFC and contains the full Certification Statement that appears on the FAFSA.

#### *Reject 14 — Missing Student Signature on Paper FAFSA or SAR*

Reject 14 is generated when a student submits a paper FAFSA or SAR without a student signature or if the FAFSA or correction was signed before January 1, 2012 and sent to the FAFSA processor after the January 1, 2012 system startup date.

To correct a SAR with Reject 14, the student must sign and return the paper SAR to the FAFSA processor address indicated on the form. The student can also make other corrections to the Reject 14 SAR simultaneously, if necessary. By signing and returning the certification statement along with the application data, the student completes the application process.

A student who has an active PIN can also sign his or her record electronically on the Web and make other corrections using FAFSA on the Web. Alternatively, schools can obtain the necessary documentation from the student and submit his or her signature using the FAA Access to CPS Online Web site.

**Note:** Reject 14 may appear with other rejects or highlighted data requiring correction or verification. A Reject 14 SAR does not have a calculated EFC and contains the full Certification Statement that appears on the FAFSA.

## School Code Corrections

A student can correct the school codes listed on his or her record in several ways. A school code can be added, removed, or replaced using FAFSA on the Web, FAA Access to CPS Online, or the SAR.

**Note:** The FAFSA contains space for up to four school codes and housing plans, while FAFSA on the Web applications and corrections can contain up to ten school codes. All ten schools are included in the ISIR file but, due to space constraints, only the first four schools print on the SAR and the first six schools print on the ISIR from EDEXpress. You can view all schools on the student's record using FAA Access to CPS Online.

On the SAR, the student can correct any of the four school code fields and the new code is added in the position in which it was entered on the SAR. If the student chooses a position that has a school code in it, the previous code is replaced by the new school code. The school with the code that was removed does not receive ISIRs for the student.

The same results occur if the school correction is made using FAA Access to CPS Online, FAFSA on the Web, or if the student makes the request over the telephone through FSAIC. However, all ten school code fields can be corrected, and, if the correction is made using FAA Access to CPS Online, the processing system does not process a change that removes the school that transmitted the correction from the student's record.

To prevent schools from viewing or receiving transactions that contain a professional judgment by another school, students and FAAs are not permitted to add a new school code to a transaction that contains a professional judgment flag. The student or FAA must choose a transaction on which a professional judgment has not been performed to make the correction. This does not apply to transactions that result from dependency overrides.

# APPENDIX A – 2012-2013 REJECT CODES AND REJECT REASONS

---

## Reject Reason Codes

Reject reason codes can be either alphabetic or numeric. Some reject reasons are verifiable—that is, the student can confirm the questionable data by re-entering the same value or correcting it to a different value. Other reject reasons are not verifiable; the questioned data must be changed or provided. In all reject situations, the questioned information is highlighted on the SAR and an EFC is not calculated.

A confirmation overrides a CPS edit. For example, if a student reports an exceptionally large number of family members (such as 20), the student’s application receives a Reject W. The student can confirm the information by correcting the item to the same value, and Reject W is not triggered again.

However, if instead of confirming that 20 family members is correct, the student changes “20” to “21,” the corrected data is subject to the same edits and will receive Reject W again.

In FAA Access to CPS Online, an FAA can override some verifiable rejects before transmitting the student’s data to the CPS if the FAA knows that the reported information is correct. When filing an application or making corrections using FAFSA on the Web, the student can also override the reject by confirming the information he or she has entered.

As part of the annual changes, we incremented the year references in our edits that cause rejects A and B to be set on a record.

---

## Table of Reject Codes and How to Respond to Each

Reject codes, reasons, and their associated SAR comment codes are listed here. If a student is rejected for more than one reason, the reject codes appear in the “FAA Information” section in priority order. The resolution for a rejected SAR is the responsibility of the student, not the institution, and the SAR comment generated by the reject explains what action the student must take.

### **New for 2012-2013:**

- **Deleted Reject P** – The Social Security Administration (SSA) changed its guidelines for SSN assignment in June of 2011 and no longer restricts certain ranges from use. As a result, the CPS no longer performs edit checks to make sure the SSN is in the SSA’s valid ranges of SSNs, and we no longer assign a reject P based on SSN values outside those ranges.
- **Added New Reject 21 Edits to Identify Marital Status Date Corrections** – We added a new reject reason 21 to identify an applicant who corrected his or her marital status date to a date that falls between the original FAFSA submission date and the correction submission date.
  - This new edit identifies an applicant whose marital status date is corrected to a date that is after the application receipt date but before the correction transaction receipt date.
  - Records that have reject 21 set have comment 119 included on the SAR and ISIR. We also added an FAA Reject Override, code 21.

## Table of Reject Codes and How to Respond to Each

\* These Reject Codes are the same as the Reject Override Codes.

\*\* If rejects J and K are on the ISIR, comment codes 083 and 084 are suppressed and replaced with comment code 164.

# APPENDIX B – 2012-2013 DATABASE MATCHES AND MATCH FLAGS

---

## Overview

Previously, this appendix included expanded charts showing match flags for all matches, the reasons associated with these match results, the SAR comment number that is triggered, and a determination as to if an action is required. This information was moved to the *SAR Comment Codes and Text* guide into a reformatted table so that all comment information is in one document. At the end of the *SAR Comment Codes and Text* guide, we provide simplified tables that cross-reference match flag results with the rejects, C flag, and comment numbers.

The *2012-2013 SAR Comment Codes and Text* guide is posted on the IFAP and FSAdownload Web sites in early November.

# APPENDIX C - LOAN STATUS CODES AND ELIGIBILITY CHARTS

---

## Overview

Appendix C describes the loan status codes, Federal Direct Loan servicer codes, selected servicer codes, guaranty agency codes, selected lenders, and contact information/fields associated with loan status.

The Loan Status Codes table on the following pages contains a column titled “Group (ISIR sort order).” This column describes the order that these loans are sorted and displayed on the ISIR with regard to their current loan status, categorized in the following groups:

- Group 1 includes loans in deceased status, making the student ineligible for aid.
- Group 2 includes loans in a defaulted or fraud status, making the student ineligible for aid.
- Group 3 includes loans where a school may have to take action; this includes loans in an abandoned, disability, active bankruptcy, or temporary uninsured status.
- Group 4 are loans in an open status not included in groups 2 and 3.
- Group 5 includes closed loans (those not included in groups 1, 2, 3, and 4).

# APPENDIX D – SAR AND SAR ACKNOWLEDGEMENT

---

## Overview

For each non-real-time transaction processed at the CPS, an output document is sent to the applicant: a paper SAR, SAR Acknowledgement, or an E-mail Notification of SAR Processing with information to access SAR data on the Web. An applicant who submits corrections using FAFSA on the Web that are processed in real-time is presented with a link to his or her e-SAR on the confirmation page. The type of document sent is determined by the type of record that was submitted by the applicant as follows:

<b>Record Submitted</b>	<b>Output</b>
Paper FAFSA or SAR	English or Spanish SAR or E-mail Notification of SAR Processing
FAFSA on the Web, application and corrections (non-real-time)	English or Spanish SAR Acknowledgement or E-mail Notification of SAR Processing
FAFSA on the Web, application and corrections (non-real-time) without signatures	English or Spanish SAR or E-mail Notification of SAR Processing
FAFSA on the Web, corrections (real-time)	No output, student receives link to e-SAR on confirmation page
FAA Access to CPS Online Application or Correction	English or Spanish SAR Acknowledgement or E-mail Notification of SAR Processing

Students who meet the following criteria receive an e-mail containing a link to access the SAR on the Web instead of the paper SAR or paper SAR Acknowledgement:

- E-mail address exists and has valid syntax and
- Social Security Administration (SSA) match equals 4.

We print and mail a paper SAR to students with e-mail addresses with invalid syntax and to those whose E-mail Notifications of SAR Processing were returned to us.

The SAR serves two basic purposes:

- Notifies the student of application and eligibility status
- Provides a means for correcting or confirming applicant data

The SAR Acknowledgement is designed to notify the student of application and eligibility status. If corrections are needed, the student uses FAFSA on the Web or contacts the school to submit them through FAA Access to CPS Online or a mainframe system.

The E-mail Notification of SAR Processing is designed to notify the student of application and eligibility status more quickly than the paper SAR or the SAR Acknowledgement. It enables the student to view the SAR online and to print the online SAR document as often as needed. The SAR links the student to FAFSA on the Web for correcting or confirming the applicant data. To complete corrections to the application data, the student must provide his or her PIN or signature and, if dependent and changing parental data, his or her parent's PIN or signature.

## Paper SAR

The paper SAR follows the order of the questions as they are presented on the paper FAFSA.

All English SARs are ten-page documents, and Spanish SARs are eleven-page documents. The first four pages are in a letter format and include the comment text, NSLDS information, and FAA information. The last six pages (seven pages for Spanish) display the question responses reported by the student and provide space for making corrections. Each page of the SAR is described in detail below. In addition, to match the color scheme of the paper FAFSA, the 2012-2013 SAR is printed on orange paper.

A draft copy of the 2012-2013 SAR is available on the IFAP Web site.

### SAR–Page 1

The date below the “www.fafsa.gov” Web site address in the upper left corner is the date the record was processed at the CPS. Below the process date is a tracking number for the FAFSA processor and the CPS that is not used for any institutional purpose. The student’s name and mailing address is printed below the tracking number.

The student’s four-digit Data Release Number (DRN) is to the right of the processed date in the upper right corner below the Office of Management and Budget (OMB) number. The DRN can be used by schools to access the student’s electronic application record if they were not originally listed on the student’s application or SAR. In addition, the student can use the DRN to make a request for correction by telephone through the FSAIC at 800/4FED AID (800/433-3243) or TDD/TTY 800/730-8913. The following types of changes can be made:

- Correct data entry errors made by the FAFSA processor
- Update the response to FAFSA question 23 (drug question)
- Request a change of address, e-mail address, telephone number, or institution
- Update the assumption overrides

Below the Data Release Number (DRN) is the student’s EFC.

The EFC printed on the front page of the SAR is the primary EFC, calculated for a nine-month academic year. An asterisk printed next to the EFC indicates that the student was selected for verification by the CPS. A “C” printed next to the EFC indicates the student has an eligibility problem that must be resolved before Title IV aid can be disbursed to the student.

Below this information we print information specific to the applicant based on his or her application information, processing results, and database match results.

In the lower part of the SAR, two series of numbers appear on every page. The numbers on the left are processing codes used by the FAFSA processor and the CPS for tracking and quality control purposes. The numbers on the right are a cross-cycle student identifier, providing the CPS an alternate way to identify a student without printing his or her SSN on the form.

## **SAR–Page 2**

The upper half of page 2 contains required information from the Office of Management and Budget regarding the:

- Paperwork Reduction Act,
- Information Release to Schools, and
- Drug convictions affecting aid eligibility.

The “Only For Use by Financial Aid Office” section on the SAR appears on the lower half of page 2. Descriptive labels are intended to help the FAA identify reject codes, match flags, intermediate values, and so forth. This data is similar to the FAA information provided on the ISIR, which is described in detail earlier in this guide; however, the presentation of the information is different.

**Note:** The DOD Match Flag information is not printed on the SAR, it is printed only on the ISIR.

**Important Note:** The comment codes listed on this part of the SAR are not all comments generated for this student. Only the comment codes that do not have a corresponding flag or other indicators already provided in the “FAA Information” section are printed in this section.

## **SAR–Page 3**

The third page uses checkboxes in front of each comment that is printed on the SAR.

The first section, “Comments About Your Information” includes comments that have been set during the processing of the record at the CPS. The first section is for general notes.

The second section, “What You Must Do Now” is a checklist for students to use to make sure they resolve the issues on the SAR, such as missing information or eligibility problems and give the student more detailed information and directions for getting additional help.

## **SAR–Page 4**

This page displays financial aid history information for the student. This is a subset of the information received from NSLDS, which is included on the ISIR and described earlier in this guide. The information printed on the SAR includes the Aggregate Loan information for FFEL, Direct, Perkins, and TEACH loans.

## **SAR–Pages 5-10 (Spanish Pages 5-11)**

The remaining six pages of the English SAR (seven pages of the Spanish SAR) display the information that was reported by the applicant for each question on the FAFSA/SAR.

The SAR is a vehicle for corrections in the paper system. A shortened version of each numbered item corresponding to a question on the FAFSA is displayed. Printed beneath the numbered item is the student's response to that question. Below or to the right of each question response are boxes or ovals that resemble the answer fields on the FAFSA, which the student can use to indicate or write in a corrected answer, if necessary.

Items that are highlighted (printed in bold type) require special attention. Highlighting indicates the student must provide a new answer, because the CPS identified the responses as blank, illegible, questionable, or inconsistent with other answers. The CPS may assume answers to certain questions by comparing them with other information on the application. Answers might be assumed when the question is left blank, or a positive number might be assumed when the answer to an income question is given as a negative number.

When the CPS assumes an answer, both the value reported by the applicant and the assumed value are printed on the SAR. The word "ASSUMED" appears in parentheses with the assumed value. Assumed values are used by the CPS in performing the EFC calculation and should be reviewed carefully. If the assumed values are correct, the student does not need to change them on the SAR.

The student can correct other items, if necessary, whether or not they are highlighted.

When an application is rejected, the resulting SAR does not have a calculated EFC. The SAR requires the student to correct information and return pages 5 through 10 of the English SAR (pages 5 through 11 of the Spanish SAR) to the FAFSA processor for reprocessing.

At the top of page 5 are instructions to the student explaining the meaning of the arrows and the proper way to fill in an oval or to correct, confirm, or delete an answer. To confirm a previously reported answer, the student must rewrite the same value in the answer field and return the SAR.

Sometimes students are caught in a reject "loop" because they do not respond to all highlighted and arrowed items to turn off the reject, or because they provide new information that the edit check still considers inconsistent or questionable.

The SAR has up to four school codes and housing plans printed on pages 9 and 10 (Spanish page 10); however, the student can list up to ten school codes on his or her Web application or correction. The following English statement is printed under question 101g if the fifth through tenth college code is non-blank on the applicant's record:

"Your FAFSA information was sent to all colleges you listed although they are not all shown here. To see all of the colleges you listed go to [www.fafsa.gov](http://www.fafsa.gov) and select 'View and Print Your Student Aid Report'."

**New for 2012-2013:** We added more space on the SAR for the college name to be printed and for the applicant to make changes to a college name. To do this, we made the following changes to the English SAR:

- Moved third and fourth college information to page 10.
- Moved the college navigator text to page 10.
- Revised the layout of page 10.

A graduation and retention and transfer rate statement is printed below the school code statement described above. The statement is:

“For more information about the colleges you listed on your FAFSA, visit College Navigator at [www.nces.ed.gov/collegenavigator](http://www.nces.ed.gov/collegenavigator) or view your Student Aid Report at [www.fafsa.gov](http://www.fafsa.gov) for graduation, retention, and transfer rates.”

See the “Corrections and Updates” section of this guide for more information on using the SAR to make corrections.

# SAR Acknowledgement

The SAR Acknowledgement in English is a three-page document; the SAR Acknowledgement in Spanish is a four-page document. It provides a summary of the student's processing results when the information is input electronically by the school or the student using the Web and no e-mail address is provided. The SAR Acknowledgement is printed on orange paper and is an eligibility document containing information for the student and FAA but cannot be used to make corrections.

## SAR Acknowledgement–Page 1

Page 1 of the SAR Acknowledgement is in a letter format addressed to the applicant. The format of this page looks similar to the SAR letterhead. The U.S. Department of Education letterhead is used and includes the Federal Student Aid Information Center telephone number and the FAFSA on the Web Internet address. The Office of Management and Budget (OMB) form-clearance number is printed on the right side.

The date below the “www.fafsa.gov” Web site in the upper left corner is the date the record was processed at the CPS. Below the process date is a tracking number for the FAFSA processor and the CPS that is not used for any institutional purpose. The student's name and mailing address is printed below the tracking number.

To the right of the processed date (below the OMB number) is the student's four-digit Data Release Number (DRN).

Below the DRN is the student's EFC. The EFC printed on the front page of the SAR Acknowledgement is the primary EFC, calculated for a nine-month academic year. An asterisk printed next to the EFC indicates that the student was selected for verification by the CPS. A “C” printed next to the EFC indicates the student has an eligibility problem that must be resolved before Title IV aid can be disbursed to the student.

The front page of the SAR Acknowledgment contains two sections, “Application Status (review the checked boxes)” and “Federal Student Aid Eligibility (review the checked boxes).” Both sections display checkboxes next to statements regarding eligibility status and processing results.

## SAR Acknowledgement–Pages 2-3 (Spanish Pages 2-4)

Page 2 (back of page 1) and page 3 display, in condensed form, every numbered question from the FAFSA and prints the answer the student gave to that question or the value the CPS assumed.

Only the first four school codes and housing plans print on the SAR Acknowledgement. However, because students can now enter up to ten college choices on the Web, the following statement is printed before the “For Financial Aid Office Use Only” section if School Codes 5 through 10 are non-blank on an applicant's record:

“Your FAFSA information was sent to all the colleges you listed although they are not all shown here. To see all of the colleges you listed go to [www.fafsa.gov](http://www.fafsa.gov) and select ‘View and Print Your Student Aid Report’.”

In the lower part of the page, the section “For Financial Aid Office Use Only” includes information and codes for FAAs. Included here are the important match flags showing results of eligibility matches and other information that an FAA needs when using the SAR Acknowledgement as an eligibility document.

**Note:** Up to 20 comment codes generated for the student’s ISIR are printed here, regardless of whether an associated match flag or other indicator is also provided.

# Appendix F – Change Page Tracking Logs

---

## Overview

This Appendix is added and updated when change pages are issued to include all the tracking logs for each set of change pages as they are issued.

We will continue to show new text additions in the ISIR Guide change pages with bold italic text. Text deletions will be marked with strikethrough. Changes to page numbers in the Table of Contents will not be tracked.

The footer on each page of the section will change to reflect the month that the change was made. For example, if a change was made in Appendix A on page A-2, all pages in Appendix A will show the new month in the footer. Use the corresponding Tracking Log to see what was changed in that section during that period.

This Appendix contains the current and previous tracking logs for your reference.
