Student borrowers may repay their student loans through one of the several repayment plans:

- Standard Repayment Plan
- Graduated Repayment Plan
- Extended Repayment Plan
- Income-Based Repayment (IBR)
- Income-Contingent Repayment (ICR) (Direct Loan only)
- Income-Sensitive Repayment (FFEL only)
- Alternative Repayment Plans (Direct Loan only)
Understanding Repayment Plans

Under this plan, the borrower will pay a fixed amount of at least $50 each month for up to 10 years. For most borrowers, this plan results in the lowest total interest paid because the repayment period is shorter than it would be under any of the other repayment plans. (Subsidized, Unsubsidized and PLUS Loans)

Consolidation borrowers have a repayment period of 10 - 30 years depending on their total loan indebtedness.

Standard Repayment Plan
- Graduated Repayment Plan
- Extended Repayment Plan
- Income-Based Repayment (IBR)
- Income-Contingent Repayment (ICR) (Direct Loan only)
- Income-Sensitive Repayment (FFEL only)
- Alternative Repayment Plans (Direct Loan only)
Understanding Repayment Plans

The Graduated Repayment Plan may be beneficial if the borrower’s income is low when they leave school but is likely to steadily increase. Under this plan, payments start out low and then increases every two years. The minimum payment equals the amount of interest that accrues monthly for up to the maximum repayment period.

Like the Standard Plan, the maximum repayment period is 10 years for Subsidized, Unsubsidized, and PLUS Loans and 10-30 years for Consolidation Loans depending on the total loan indebtedness.

A borrower may choose this plan if they did not have an outstanding balance on a FFEL or Direct Loans as of October 7, 1998 or on the date they obtained a student loan after that date and have more than $30,000 in outstanding FFEL loans or more than $30,000 in outstanding Direct Loans.

For example...

- A borrower that has $35,000 in outstanding FFEL Program loans and $10,000 in outstanding Direct Loans can choose the Extended Plan for their FFEL loans, but not for their Direct Loans.

- Borrower may choose to make fixed or graduated monthly payments
- Minimum payment of $50 for Fixed Extended
- Maximum repayment period is 25 years
Understanding Repayment Plans

Income-Based Repayment (IBR)

Under this plan, the required monthly payment is capped at an amount intended to be affordable based on the borrower’s income and family size. The maximum repayment period is 25 years and if certain requirements are met, any remaining balance will be cancelled.

Only FFEL or Direct Stafford, Grad PLUS and Consolidation (that did not pay a Parent PLUS) loans that are currently not in default are eligible for repayment under IBR.
A borrower is eligible to repay under IBR if the monthly payment amount calculated under the 10-year Standard repayment plan is **MORE** than the IBR monthly payment amount. (Borrower deemed to have “partial financial hardship” [PFH].)

- Monthly payment is based on the borrower’s Adjusted Gross Income (AGI), family size, and state of residence
- The minimum monthly payment may be as low as $0 or $10 depending on the calculated IBR amount

An IBR fact sheet, calculator and Q&A is available on www.StudentAid.ed.gov
Understanding Repayment Plans

Income-Based Repayment (IBR)

- Borrower provides AGI or alternative income documentation annually to determine eligibility and calculate IBR payment amount – IBR payment amount may change

- If multiple loan holders, borrower must apply to each and IBR payments pro-rated
If payment is less than accrued interest on subsidized loan (or subsidized portion of consolidation loan), the Department pays difference for up to 3 consecutive years from IBR repayment start date.

If borrower no longer shows PFH, payment recalculated on 10-year standard repayment and unpaid interest capitalized.
Understanding Repayment Plans

Income-Based Repayment (IBR)

Leaving IBR:

- Borrower must repay outstanding balance under Standard Repayment plan (10-year standard or consolidation loan standard) with time in IBR counted in maximum repayment time

- Any unpaid interest capitalized
Advantages of IBR

- Affordable payment (including $0)
- The government will pay the unpaid interest on subsidized loans for up to three consecutive years if the monthly IBR payment does not cover the monthly accrued interest
- Any remaining principal and interest will be cancelled after 25 years of repayment
- IBR payments count for Public Service Loan Forgiveness

Disadvantages of IBR

- More interest paid over the life of the loan
- To continue reduced payments under IBR, a borrower must submit updated information on income and family size each year
Understanding Repayment Plans

Income-Contingent Repayment (ICR)

A repayment plan for Direct Loans only that bases a borrower’s monthly payment on yearly income, family size, and loan amount. As their income rises or falls, so does their payments. After 25 years, any remaining balance on the loan will be forgiven, but the borrower may have to pay taxes on the amount forgiven.

What are the benefits?

High loan debt and low income could actually mean a calculated payment of $0.
Income-Sensitive Repayment (ISR)

A FFEL-only repayment plan that is lender-specific and bases the scheduled monthly payment on borrower’s annual income. Payment amount increases or decreases based on income change. Maximum repayment period is 10 years (except on a consolidation loan) and borrower must reapply each year.

Monthly payments may be increased for the remaining term of the loan to compensate if the borrower receives decreased payments under ISR.
An alternative repayment plan is a Direct Loan-only plan that may be used when the terms and conditions of other repayment plans are not adequate to accommodate a borrower’s circumstances. The borrower must provide evidence of the exceptional circumstance and the terms must be within the following restrictions:

- maximum 30-year term
- minimum payment of $5.00
- payments cannot vary by more than 3x the smallest payment

There are four different Direct Loan Alternative Repayment Plans:

Alternative Fixed Payment, Alternative Fixed Term, Alternative Graduated and Alternative Negative Amortization
Benefits of Consolidation:

• One Lender and One Monthly Payment
• Flexible Repayment Options
• Lower Monthly Payments
• It’s free

Starting July 1, 2010, a borrower can consolidate their loans while still in-school until June 30, 2011.

Reminder .... Borrowers will lose their grace period by consolidating while in an in-school status.
Borrowers may experience trouble making payments under any repayment plan. Deferment and forbearance options may be the right choice to assist them in staying on the right road.
