## Change History Table

The Change History table is updated each time the SAR Comment Codes and Text guide is modified, providing you with a cumulative list of revisions made to the document.

When the SAR Comment Codes and Text guide is modified, the footer is updated to include the revised date. For example, if a change is made to page 67 in November 2018, the footer will show “Rev 11/18.”

2019-2020 SAR Comment Codes and Text

Overview

The 2019-2020 SAR Comment Codes and Text document serves as a standalone guide, as well as a companion to the 2019-2020 Electronic Data Exchange (EDE) Technical Reference.

Refer to this document for information on the 2019-2020 Student Aid Report (SAR) comment codes and text.

We have not included the Web versions of the SAR comment text in this guide, because they are similar to the SAR comment text. (See the Reminder on page 3 for one exception.) The only differences are wording changes that make the comments relevant to the Web version of the SAR rather than to the paper form or printed (electronic) Institutional Student Information Record (ISIR). For example, the text for a SAR comment code may describe printed information, whereas the equivalent Web comment code describes a Web page displaying the information.

How do the comment codes and text work?

The Central Processing System (CPS) adds comment codes and text to the student’s transaction to provide information to the student and to you about the student’s processed Free Application for Federal Student Aid (FAFSA®).

The comment codes and text are printed on paper SARs and on ISIRs printed from EDExpress for Windows or other financial aid software you may use. Each comment code is three digits in length and can be found in positions 2866 to 2925 in the ISIR file.

How do I use the 2019-2020 SAR Comment Text table?

The 2019-2020 SAR Comment Text table includes the following information:

- Column 1, SAR Comment Code: This column lists the comment codes numerically.
- Column 2, SAR Comment Text Definition: This column contains the text that is printed on SARs and on printed ISIRs.
• Column 3, Notes/Changes: This column describes changes to the comment text.
• Column 4, Reason for the Comment: This column describes the reason or conditions that caused this comment to appear in the student’s record.
• Column 5, C Code: This column indicates whether a C code is set.
  The CPS typically generates a C code when database match results require resolution by the school. The CPS also generates a C code if an applicant’s response to the FAFSA drug question (question 23) requires resolution or financial aid administrator action.
• Column 6, Reject Code: This column indicates a reject number or letter if a reject code is associated with a comment code.
• Column 7, Action Needed: The final column describes actions needed to resolve the C flag or reject associated with the comment.

  Note: The resolution information is provided for you to use as a quick reference. The Federal Student Aid Handbook, Volume 1–Student Eligibility contains detailed information about student eligibility and the action needed to resolve discrepancies found in the data matches. The handbook is located on the U.S. Department of Education’s Information for Financial Aid Professionals (IFAP) Web site, located at ifap.ed.gov.

Where can I find more information about ISIRs?
The 2019-2020 ISIR Guide is designed to assist financial aid administrators with interpreting student information from ISIRs. The 2019-2020 ISIR Guide is available on the IFAP Web site, as well as on the Federal Student Aid Download (FSAdownload) Web site, located at fsadownload.ed.gov.
Changes to the Comment Codes

SAR Comment Code Changes

You can review the changes to the comments in the Notes/Changes column of the following table. A summary of these changes is also provided in the 2019-2020 Summary of Changes for the Application Processing System guide, posted later this fall on the IFAP and FSAdownload Web sites.

Comments with the first line indented are printed in the “Comments About Your Information” section on the SAR. Comments that are left-justified are printed with a checkbox in front of the comment and are printed in the “What You Must Do Now” section.

Reminder: The text for comment codes 047, 050, 112, 149, 158, 159, 170, and 171 is not printed in the paper SAR comments section on page 3; instead, the information contained in these comments is printed as variable text in the appropriate section on the first page. Text associated with these comment codes is displayed only on the Web; the text is not displayed in the EDExpress software and is not printed on the EDExpress ISIR. Note, however, that the comment code numbers are included in the ISIR file and appear in the FAA Information section of the printed ISIR. Schools using EDExpress still have the ability to query their databases using these comment code numbers.

When viewing or printing an ISIR using FAA Access to CPS Online, or when a student is viewing or printing his or her SAR information on the Web, the text for the affected comments is printed. ISIRs printed from third-party software may not print the text for these comments, depending on how the software was programmed. We recommend consulting with your software vendor for more information.

Note for users of this guide: To assist you when reviewing a SAR or ISIR that contains these comment codes, we have provided the text for the Web comments in this guide. If the comment text is preceded with text referring to the Web, the comment text is printed on the ISIR from FAA Access to CPS Online and is displayed to the student on the Web.

In some cases, the text that was removed from the EDExpress software is the same as the Web text, and we note it where appropriate. In other cases, the text varies slightly from the Web version. We have also provided the SAR/ISIR text that was removed from EDExpress. Schools using their own software and third-party software providers may, at their discretion, program their systems to include the text on printed ISIRs.

SAR C Code Changes

The SAR C code is set on a student’s record based on his or her eligibility conditions. The following is a complete list of 2019-2020 comments that are associated with the SAR C code:

Comments that generate the C Flag are arranged by the areas that the comments are associated with, as shown below:

- Selective Service Match: 30, 33, and 57
- DHS Match: 46, 105, 109, 141, 142, and 144
- Social Security Administration Citizenship Status: 146
- Student’s Social Security Number Match: 63 and 64
- Veterans Affairs Status Match: 162, 173, and 180
  - Potential Pell Overpayment: 20, 38, 39, 41, 42, 43, 346, and 347
  - Potential FSEOG Overpayment: 10, 65, 66, 67, 77, and 79
  - Potential Perkins Overpayment: 86, 90, 100, 101, 102, and 107
  - Potential TEACH Grant Overpayment: 289, 290, 291, 292, 293, and 294
  - Potential Iraq and Afghanistan Service Grant Overpayment: 309, 310, 311, 312, 313, and 314
  - Unusual Enrollment History: 359 and 360
- Responses to Question 23/Drug Conviction: 53, 54, 56, and 58

Note: In rare cases, the C Flag is provided on an ISIR/SAR without a corresponding comment. This happens only if the applicant receives an excessive number of comments (including C Flag comments) and some of the comments must be suppressed so that a SAR/ISIR can be generated.

The Anti-Drug Abuse Act of 1988 includes provisions that authorize federal and state judges to deny certain federal benefits, including student aid, to persons convicted of drug trafficking or possession. The CPS maintains a hold file of those who have received such a judgment, and it checks applicants against that file to determine if they should be denied aid. This is separate from the check for a drug conviction via question 23; confirmation of a student in the drug abuse hold file will produce a rejected application and a separate comment from those associated with responses to question 23.</td>

If the SSN is correct, the applicant must contact the SSA at 1-800-772-1213 or https://socialsecurity.gov to resolve this problem. If the SSN is incorrect, the applicant must correct the SSN on a paper SAR or submit a new FAFSA online with the correct SSN. | SSN Match Flag = 5 (SSN, name, and DOB match with date of death) A successful SSN match with a record that belongs to deceased person | | 8 | Resolution required. If the student’s SSN is correct, he or she must contact SSA. After SSA corrects its records, the student can re-enter the name or date of birth and submit it as a SAR/ISIR correction so the transaction can go back to SSA for an updated match flag. Records sent for rematching will continue to receive this match flag until SSA updates its database. Review subsequent transactions for updated match flag. 
If the SSN is incorrect, the student can correct the SSN on the SAR/ISIR. If this is done, the student’s original SAR ID (the ID that is used [with the incorrect SSN] to access the SAR/ISIR) will not change, but the current SSN reported in question 8 will be changed to reflect the corrected SSN. 
Alternatively, to obtain a SAR with a SAR ID that matches the student’s reported SSN, the applicant should file a new FAFSA under the correct SSN. This FAFSA will be treated as an original application and will be sent through all of the matches as if another FAFSA had never been completed. The SAR ID will be the same as the SSN reported on the new application. |

The institution must review the student’s enrollment and financial aid records to determine if, during any of the 2015-2016, 2016-2017, 2017-2018, and 2018-2019 award years, the student received a Pell Grant or a Direct Loan at the institution that is performing the review. If so, no additional action is required. If not, using information from the National Student Loan Data System (NSLDS), the institution must identify all institutions where the student received a Pell Grant or Direct Loan for any of the 2015-2016, 2016-2017, 2017-2018, and 2018-2019 award years. The institution must then determine whether academic credit was earned at each of those institutions during the award year for which the student received a Pell Grant or Direct Loan. Based on those determinations, discussions with the student may be necessary. See Dear Colleague letter GEN-15-05 for additional information. |

Correct the name for parent 1.
If the name for parent 1 is correct, re-enter the same value to reaffirm that the name is correct. The CPS will process the transaction without the reject.
In addition, if the name for parent 1 is correct, the parent should contact SSA to update its records. Records that are sent for rematching in future years would continue to receive this match flag until SSA updates its database.
If a correction is made to the date of birth, SSN, first name, or last name, the record will be sent again for matching. Review subsequent transactions for an updated match flag.
Correct the data elements for parent 2 as appropriate to achieve a full match.
If documentation confirms that parent 2 does not have an SSN, enter all zeroes in the field and confirm by re-entering the zeroes.

Database Match Results

How to Use the Charts

The information in this section is provided for you to use as a quick reference. The Federal Student Aid Handbook, Volume 1–Student Eligibility contains detailed information about student eligibility and the action needed to resolve discrepancies found in the data matches. The handbook can be found on the IFAP Web site, located at ifap.ed.gov.

A flag of C is an indicator that institutional resolution is required. The C Flag is printed on the SAR next to the EFC if any of the conditions described in the chart are met.

Note: Some of these data match results generate rejected records. Comments associated with a match-results reject do not generate SAR C codes. However, a SAR C code could be generated by another match-result comment and is printed on a SAR rejected for other than match-results reasons. An EFC is not provided on any rejected records.

An asterisk (*) in the Match Flag column of this chart indicates that a match flag value is not generated for cases that could not be sent to the matching agency.

**DHS Secondary Confirmation Match**

CPS waits for three compute days to receive results from the Department of Homeland Security (DHS) Secondary Confirmation match instead of processing an ISIR with results from DHS Primary Verification match only.

After three days, if DHS does not return a response, CPS generates the ISIR, which shows that DHS Secondary Confirmation match is still in progress.

**Notes about the paper (G-845) Secondary Confirmation Process**

*Note:* The paper Form G-845 process was replaced by the DHS/SAVE system on May 1, 2018.
DHS will reject paper Forms G-845 received on or after May 1, 2018. A web-based process using the DHS/SAVE system replaced the Form G-845 process. For information on how to access and navigate the SAVE system, see the “SAVE System Instructions for U.S. Department of Education (School) Users” document at: ifap.ed.gov/DHSSAVEEligibleNoncitizen/ElectThirdStepVerfi.html.

Verification Selection Edits

If the applicant’s record is selected for verification, variable text is printed on the first page of the SAR. If the school requests it, the student must complete the verification process and submit all necessary documentation within the necessary timeframe. More information can be found in The Application and Verification Guide, which is part of the Federal Student Aid Handbook and is available on the IFAP Web site, located at ifap.ed.gov.
