

Change History Table

The Change History table is updated each time the EDE Technical Reference is modified, providing you with a cumulative list of revisions made to the document.

When the EDE Technical Reference is modified after the initial release, the footer is updated to include the revised date. For example, if a change is made to page 4-54 in July 2018, the footer on that page will show “Rev. 7/18.”

Date	Page	Changes/Notes
5/18		Spring release of the EDE Technical Reference, including Sections 3 (Record Layouts) and 4 (Processing Codes)
7/18		Complete EDE Technical Reference released, including the cover, Change History Table, Section 1 (Overview), Section 2 (EDE Processing), Section 3 (Record Layouts), Section 4 (Processing Codes), and Section 5 (Printing). We will no longer describe the changes to Spring release in the Overview section; instead, the substantive changes will be described in this table.
