E. Unfunded Mandates Reform Act

The Unfunded Mandates Reform Act of 1995 (2 U.S.C. 1531–1538) requires Federal agencies to assess the effects of their discretionary regulatory actions. In particular, the Act addresses actions that may result in the expenditure by a State, local, or tribal government, in the aggregate, or by the private sector of \$100,000,000 (adjusted for inflation) or more in any one year. Though this rule will not result in such an expenditure, we do discuss the effects of this rule elsewhere in this preamble.

F. Environment

We have analyzed this rule under Department of Homeland Security Management Directive 023–01 and Commandant Instruction M16475.ID, which guide the Coast Guard in complying with the National Environmental Policy Act of 1969 (42 U.S.C. 4321–4370f), and have determined that this action is one of a category of actions that do not individually or cumulatively have a significant effect on the human environment. This rule involves a safety zone lasting for 10 hours on 2 days, during daylight hours and restricts transit on a section of the Kaskaskia River extending 2 miles. It is categorically excluded from further review under paragraph 34(g) of Figure 2–1 of the Commandant Instruction. A Record of Environmental Consideration supporting this determination is available in the docket where indicated under **ADDRESSES**.

G. Protest Activities

The Coast Guard respects the First Amendment rights of protesters. Protesters are asked to contact the person listed in the **FOR FURTHER INFORMATION CONTACT** section to coordinate protest activities so that your message can be received without jeopardizing the safety or security of people, places or vessels.

SUPPLEMENTARY INFORMATION: On January 6, 2017, the Department announced dates by which institutions subject to the Department's gainful employment (GE) regulations must comply with certain provisions of the GE regulations relating to the submission of alternate earnings appeals. On June 15, 2017, the Department announced its intention to negotiate issues related to gainful employment. On July 5, 2017, the Department announced that it would publish a **Federal Register** document to establish a new deadline for institutions to submit alternate earnings appeals in light of the Court Order in *American Association of Cosmetology Schools v. DeVos*, Civil Action No. 17-0263, D.D.C. June 28, 2017 (Court Order).

The Department establishes October 6, 2017, as the deadline for all programs to file a notice of intent to file alternate earnings appeal. The Department establishes February 1, 2018, as the deadline for all programs to file an alternate earnings appeal. However, programs are encouraged to submit their appeals before this deadline. These deadlines and the associated timelines are being established on a one-time basis to comply with the Court Order. Although the Court Order only applies to institutions that are members of the American Association of Cosmetology Schools, the Court noted concerns with the response threshold required for the graduate surveys used for all programs in the alternate earnings appeal under 34 CFR 668.406, and the Department is establishing these new deadlines for all programs subject to the GE regulations in 34 CFR part 668. Institutions that have already submitted a notice of intent to file an alternate earnings appeal, or an alternate earnings appeal, do not have to resubmit those items or amend their alternate earnings appeal in connection with the modified submission requirements described below. Institutions that wish to supplement an alternate earnings appeal that has already been submitted may do so, and should contact Department staff to make those arrangements on or before October 6, 2017.

To further comply with the Court Order, for alternate earnings appeals based on a graduate survey, the

Department will not enforce § 668.406(b)(3) or (c) to the extent these provisions require that a graduate survey contain responses from all students that are not exempted under § 668.404(e), nor will the Department require a 50 percent threshold response rate. Instead, the Department will evaluate all graduate surveys, regardless of response rate, provided the submissions include the number of responses, the response rate, and a nonresponse bias analysis, as well as any other information the Department requests. The Department will consider the response rate, the nonresponse bias analysis, and any other information requested by the Secretary that indicates that the responses are a reliable measure of the program graduates' true earnings.

Furthermore, for alternate earnings appeals based on data from State-sponsored data systems, the Department will not enforce § 668.406(b)(3) or (d) to the extent these provisions require that an appeal include earnings data for all students that are not exempted under § 668.404(e), nor will the Department enforce § 668.406(d) to the extent that provision requires a 50 percent threshold to be met, or the earnings of 30 students to be included, before the Department will consider an alternate earnings appeal. Instead, the Department will consider the validity of appeals using State-sponsored data on a case-by-case basis, taking into account the response rate and other information requested by the Secretary.

In modifying the alternate appeals submission requirements, the Department seeks to reduce the burden on institutions in conducting these appeals while still ensuring that institutions provide enough information for the Department to determine whether the program graduates for whom alternate earnings data are provided are a valid representation of the overall cohort. Institutions must still submit the certifications and attestations required by § 668.406(c)(2) and (d)(3), as applicable, except to the extent inconsistent with anything in this document.

Institutions intending to file a notice of intent to appeal do not have to issue warnings to students unless they fail to timely submit an alternate earnings appeal or the appeal is resolved.

We invite your comments on this action. We will consider these comments in determining whether to take any future action in connection with the upcoming negotiated rulemaking.
